#### Printing Postage Stamps-

On the 1st of July the government of the United States commenced print- or any other World's ing its own postage stamps at the this office, and have t bureau of engraving and printing. Up bound for one dollar to this time they have been furnished for all kinds of boo by private companies under contract, your books here, or l the National Bank Note Co. of New they will be called fo York having done the work for many Our work is done years. Last spring, when it came time Bindery, and it costs to let the contract again, the bureau from us than direct fr of engraving and printing put in a bid which was less than one-half that of any other bidder. There was considerable opposition to having the work done by the government, and Remedy these by usin the other bidders made a great fuss the Early Risers and yo about it because, as they claimed, it appears. The favorite was unfair for Uncle Sam to compete where .--- W. S. Rishto with them, because he had no interest or rent to pay and expected no profit.

The question was finally carried to the farmer now than congress when the plan of the secretary Brown, Bros. Co., the of the treasury and the postmaster nursery house in the general was sustained. The printing, Rochester, N. Y., for gumming and perforating machines are in place at the printing bureau, and new plates have been made from the old dies. There will be a new design adopted soon, but for the Constipation, best for present the old ones will be used for best for Sour Stomac the common stamp-the 2-cent stamp ton, Druggist. with the head of Washington printed in carmine ink, and the t-cent, which bears the head of Franklin, and is printed in ultramarine blue. In order days. Its action upo to distinguish those printed by the remarkable and my government a little ornament will be placed in the blank space in the opper corners.

This is a fact of interest to collectors. There is quite a quantity of the old stamps on hand, and the new ones will not be issued until they are needed, although it is necessary to keep a large stock in the distributing offices, as about 7,000,000 2-cent stamps are used daily and about 3,500,000 of 1cent denomination. Postage stamps are printed by engraved cylinders in sheets of 400. A die is first cut in a block of steel about three inches square, like an intaglio. The steel is then hardened by what is known as the decarbonizing process-that is, the carbon is burned out of the metal by subjecting it to intense heat, and then the impression is transferred to a roll or cylinder of soft steel, like a cameo. From this the working plates or rolls are made, which are afterward hardened by the same process. This method was invented by a Vermont Yankee, named Perkins, about half a century ago. He took the invention to London, and tried to sell it to the British government, but the officials over there were opposed to innovations as usual, and Mr. Perkins brought it back home and sold the patent to his own government.

The stamp collectors have cornered the \$1 stamps of the Columbian issue, and uncanceled ones are now worth \$1c.-Press and Printer.

#### Irregularity.

Is that what troubles you? Then it's easily and promptly remedied by Dr. Pierce's Pleasant Pellets. They regulate the system perfectly. Take one for a gentle laxative or corrective; three for a cathartic.

If you suffer from Constipation,

Indigestion, Bilious Attacks, Sick or Bilious Headache, or any derangement of the liver, stomach, or bowels, try these little Pellets. They bring a permanent cure. Instead of shocking and weakening the system with violence, like the ordinary pills, they act in a perfectly easy and natural way. They're the smallest, the easiest to take-and the cheapest, for they're guatanteed to give satisfaction, or your money is returned.

The cleansing, antiseptic and heal-ing qualities of Dr. Sage's Catarrh Remedy are unequaled.

## The Birthday Stones.

The birthday stone for January is the garnet, which means constancy; February, the amethyst, which means contentment ; March, the bloodstone, which means courage; April, the diamond, which means innocence; May, the emerald, which is supposed to bring success in love; June, the pearl, which means purity ; July. the ruby, which means nobility ; August, the moonstone, which means felicity; September, the sapphire, which is said to bring success and avert evil ; October, the opal, which means hope ; November, the topaz, which means fidelity in friendship, and December, the turquoise, which means pros-perity.-August Ladies' Home Journal.

## Important Facts.

If you have dull and heavy pain across forehead and about the eyes ; if the nostrils are frequently stopped up and followed by a disagreeable discharge ; if soreness in the nose and bleeding from the nostrils is often ex-

nostrils it cures catarrh, and always cures piles.-W. S. Rishton, Druggist. tf.
