NEIGHBORHOOD NEWS.

Interesting Items From Various Points in the County. Reported by Our Staff of Correspondents.

EAST BENTON.

The rains came and the drought is a thing of the past and forgotten; and now the people talk about large crops of corn and buckwheat.

Oats is an exceedingly short crop, averaging from 8 to 10 bushels per acre.

Plums and peaches were in abundance and delicious.

Fall seeding is progressing very slowly on account that the drought has brought everything on a heap. Farmers do not know where to begin as corn, buckwheat and seeding all claim their immediate attention.

E. B. Beishline, of Stillwater has taken the principalship of Huntington Mills graded school. The Prof. is a thorough and able teacher and has the happy faculty of imparting successfully to others the knowledge he acquired in his younger days. Herein lies the success of any teacher when he is able to impart that which he acquired of others. Many teachers have ample qualifications but no faculty to impart their knowledge to others.

John W. Ashelman, of this place, a lad eleven years old, stepped on a piece of glass and seriously cut his foot.

The general good health of our people at present is a public blessing. Our industries at Benton are nearly all running on full time.

All remember the lightning rod swindlers of years ago how they fleeced the people out of their hard earnings with worthless lightning protectors. The country is again flooded with herds of equally worthless trash, representing all manner of patent concerns. To the dogs with them all! Whoever patronizes them is bit no less than those who bought the worthless lightning rods.

This seems to be an age in which the earner and accumulator of property so easily transfers his earnings to a stranger that prowls about, in exchange for his worthless traps.

Game is scarce, especially squirrels and birds. We have heard less shooting during this game season thus far than any previous year since our advent in Benton township.

Judge Krickbaum and William Smith have finished seeding and they have no sulky plows either.

Well, so far as I am concerned my choice was placed in nomination on the Congressional ticket.

The business outlook brightens daily. The volume of trade grows larger. Confidence in business affairs and in all business circles, continues to increase because of the large falling off of business failures and of the lessened liabilities where failures take place.

A GREAT MANY CHILDREN

have been cured of scrofula and other skin diseases—as well as thousands of grown people, by taking Dr. Pierce's Golden Medical Discovery. Every disorder that can be reached through the blood, yields to its purifying qualities. Besides, it builds up wholesome flesh and strength; not merely fat like Cod liver oils. A scrofulous condition of the blood invites Catarrh, Bronchitis and Consumption. We're all exposed to the germs of consumption, grip, or malaria—yet only the weak ones suffer. When you're weak, tired out, and debilitated, or when pimples and blotches appear—heed the warning in time. The "Discovery" sets all the organs into healthy action—especially the liver, for that's the point of entrance for these germs, then if the blood is pure, they'll be thrown off. There's no risk. If it fails to benefit or cure in all cases of impure blood or inactive liver, your money is returned.

The key to the situation—if you suffer from Catarrh, you'll find in Dr. Sage's Remedy. No matter how bad your case may be, the proprietors of the medicine promise to pay \$500 if they can't cure you. You're cured, or you're paid.

"CELLULOID" COLLARS AND CUFFS are made by covering a linen collar or cuff with "celluloid," thus making them strong, durable and waterproof. When soiled they can be cleaned by simply wiping off with a wet cloth. No other waterproof goods are made with this interlining, consequently no other goods can possibly give satisfaction. Do not forget that every piece of the genuine is stamped as follows:

Insist upon goods so marked and refuse anything else if offered. If your dealer does not keep them you can procure a sample from us direct by enclosing amount and stating size and whether stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

The Celluloid Company, 427-429 Broadway, New York.

Estate of Samuel Adams. R. Rush Zarr continued as auditor.

Presidential Aspirants.

William Wilson is said to think that President Cleveland don't care for another Presidential term. Perhaps not. According to same report he failed to mention who did care for it. But we believe there are people of this kind alive to day and that William knows it. It is not so much after all as to who cares for it as to who is apt to get it. Of Republican aspirants he mentioned McKinley, Reed and Harrison, with Allison as a possibility. Tariff reform being the inevitable issue, William will no doubt himself stand at the head of his class while many below him would rather see him at the foot of it. Just how to displace him will be the trick to study on the part of those whose Presidential bees are not only buzzing but stinging already. We rather apprehend that the conservative tariff reformers will be put to their wits ends to cry the radical Chairman of the Wilson bill down and out of the way.

Some Notable Opinions on Co-education.

One of the most interesting topics of the day is undoubtedly co-education, and *Demorest's Family Magazine*, with characteristic enterprise, has set before its readers in the October number a most excellent symposium on this important question. The contributors to it are among the best known educators of the country and comprise such names as David Starr Jordan, Thomas S. Hastings, H. M. MacCracken, James M. Taylor, Charles H. Knox, Edmund P. Platt, and S. S. Packard. As all these men have very decided opinions on the questions and are authorities on educational matters, their views cannot fail to be interesting. "Cadet Life at West Point," which appears in the same number is a well written and entertaining sketch of the life of a cadet from the time he enters West Point until he is a full-fledged soldier. An excellent description of the school and its surroundings is given and, as it is all written by a cadet, it has the charm of local color which only one intimate with the place can give; and the article is also superbly illustrated. "A Failure in Dress Reform" is a sprightly and humorous narrative showing some of the difficulties in the way of would-be progressive young girls assuming masculine attire. "How to play the Guitar Without a Master" is so clearly written and so well illustrated that no matter how far from a teacher, one need not be ignorant of the best method of using this rather romantic instrument. The contents of the magazine is further enlivened by several notable pieces of fiction; the "Home Art" department tells of "Work for October Evenings;" the "Sanitarian" discusses "Comfortable Living;" "Society Fads" and "Chat" are full of interesting talk on timely topics; and the other departments of the magazine all contribute to keep this most excellent periodical up to its usual high standing.

A dispatch to San Francisco, Cal., dated September 24th, brings news of a terrible flood and storms in Japan by which over 1,500 houses were destroyed and 300 lives were lost. Thus the ravages of war and of the destructive elements are now seriously affecting both China and Japan.
