Democratic Meeting.

The Democracy of West Scott assembled at the hall in Light Street, on Monday evening last, and at about eight o'clock, the meeting was called to order by Committeeman Howell, and on motion Joseph H. Klein was elected chairman, and Eber Brown was chosen Secretary.

The meeting was addressed by County Chairman Chrisman, in a well considered speech of half an hour, in which he reviewed and touched upon the prominent political topics of the day and canvassed.

**IT FOLLOWS AFTER**—a disordered liver—that you're subject to attacks of cold or chills on slight exposure. You get "tired" easily. A "tired" digestion fails to assimilate food.

Dr. Pierce's Pleasant Pellets rouse the liver to vigorous action, and this in turn starts the machinery of the body into activity.

If you're too thin, too weak or nervous, it must be that food assimilation is wrong. This is the time to take Pleasant Pellets.

In Time of War Prepare for Peace.

Because of the turmoil and discontent arising from a monopoly of authority and secrecy of management on the part of the board of managers of the Patterson Grove Campground, and ultimately a fire which destroyed the former camp, a new Association has since been organized and a new place of encampment selected by those who believe that fair representation, full report, and open management is quite essential to the thrift and spiritual usefulness of all camp-meetings.

The first Harvest Home Service at the Huntington Valley Camp Ground was held on Saturday. The members of the McKendree and Huntington Creek Grangers tastefully decorated the platform with evergreen, corn, oats, wheat and buckwheat.

Rev. D. Y. Brouse, of Muhlenburg, read the opening hymn and Rev. S. A. Creveling, of Town Hill, made the opening prayer.

The question of continuing the harvest home was decided unanimously in the affirmative by a rising vote.

The Association expressed a desire to have the farmers and their wives take full charge of the arrangements for next year.

Huntington Mills—Jesse Sutliff, Miss Florence Wildonner.

Prophecy.

Hon Michael D. Harter, an ex-Congressman from Ohio, was recently interviewed. The remarks of a retired Congressman are often very pointed, and the following from Mr. Harter are worthy of reproduction because of their unbiased prophecy for the future.

"Believing in low tariff taxes, sound money, and no unnecessary interference with the business habits of the people, I am naturally a Cleveland man."

"Mr. Singerly, the Democratic candidate for Governor of Pennsylvania, stands on a sound platform, but of course will be defeated. His letter of acceptance, however, as a clear statement of sound Americanism and pure Democracy, ought to be printed in letters of gold on a shield of silver and circulated in every corner of the United States."

"I shall take no part whatever in this fall campaign, for I certainly see no special difference between the two parties in Ohio, except that one goes squarely for a debased dollar, while the other goes around the corner after it, but on a gallop."

"Fortunately, Mr. Cleveland and not Mr. Harrison is President, and his veto can always be counted upon to save the nation from the evils of a debased and depreciated currency."

Interlined "Celluloid" Collars and Cuffs turn water like a duck's back and show neither spot nor soil. They are not effected by perspiration, and always look as if right out of the box.

THE CELLULOID COMPANY, 427-29 Broadway, NEW YORK.

During Fair, for best photographs, go to M'Killip Bros.

The recent storm prediction that did not come true is charged with the responsibility of dirty streets, garbage left on the sidewalk and a long list of disagreeable things in our smart sister city of New York.

The garbage and refuse of New York are removed by scows down the bay or out to sea. When the Weather Bureau warned all vessel owners not to put to sea until the coming coast hurricane had spent its force, the scow owners got frightened and tied up their scows.

The moral of this little tale is obvious. The Weather Bureau should quit predicting storms or produce the storms. A real, old fashioned down-pouring deluge of a storm will clean more streets in an hour than all the contractors and scows in America will clean in a month.

HASTINGS WAS WRONG.

Ten Lancaster Furnaces Closed Under the Administration of President Harrison.

LANCASTER, Oct. 7.—General Hastings, in his speech in this city last Monday, said there were eighteen furnaces out of blast in this county, for which he held the Democratic party responsible.

Of these thirteen, ten went out of blast under the administration of President Harrison, and only three under the present administration.

If a general shake up politically, commercially, and financially is apt to produce more or less change of thought among voters, then it were well to not bet too high on election returns this year. Thus far the independent voter has wrought no revolution it is true; but the infant's growth seems to indicate that he is feeding on Melon's food or something else rather nourishing. It begins to look as though the hitherto ridiculed independent would at least hold the balance of power in the next Congress.

Professor Hite, another North Pole explorer, is now home with honors. His northern expedition is said to be the only one yet which accomplished all its objects. This should be taken for granted when in speaking of the fine collection secured he is led to exclaim: "Regarding our collections, a splendid assortment of insect life was secured. I found eight new butterflies which have not been described in the entomology of Salvador. The animal life is sub-Arctic as well as the flora, and is therefore rather scanty."
