FRIDAY, FEBRUARY 1, 1895.

Ex-Governor Pattison for Mayor of Philadelphia.

This is still an open question, not only with Philadelphians, but, because of the gravity of the occesion for reform there and the national reputation of the reformer, it is a case the outcome of which is being watched in many places besides Philadelphia and places which are perhaps in as much need of political purification. If Democratic New York city needed an exposure through the Lexow investigating committee, Republican Philadelphia is not a whit better, and she no doubt can reveal political corruption enough to enauseate the Quaker stomach-that is if her "trucinwardness" and hell-bent corruption is fully revealed and properly displayed.

The effort to defeat reformation in advance of the election, by setting up the claim that the reformer is ineligible on the ground of his being a nonresident, seems to be somewhat like of evildoers in all vocations, and as it would not hold water or stand the test of legal decision or constituting was broken up by the New York tional law, when brought fairly and Times and its staff of reporters acting squarely to bear upon the case in

It is said by impartial writers from abroad, who have no finger or thumb in the reservoir pie, that ex-Governor Pattison's letter of acceptance of this nomination contains in itself a fair declaration of manly principle and purpose, well calculated to lift the pending campaign in that politically

rotten city far above party lines. It has taken Philadelphia many years of costly experience to realize the full wisdom of rotation of office to recognize the senselessness of conducting municipal campaigns on strict party lines for the spoils the various offices can be made to shell out by hook and crook.

Already the unbiased and those to hope for and prophesy reformatory success through the general uprising of the independent voters of the city. This will be the more gratifying because all independence of action has

By express terms of the law gov. \$25,000. or supposed to govern Philadelphia, the officers and members of every municipal department are forbidden to participate in political conventions or to impose or submit to the levy of a tax for political purposes. Heretofore there has been no pretence to live up to this law, and political assessments have been levied and collected right along much to the detriment of the minority and wholesome government for the majority. In fact Mr. Pattison holds that the utter disregard for this law has been largely responsible for the prevalent rounders love him less and hate him crats and Republicans have been run by machine Democrats and Republi cans. A combination of forces alone can now affect relief, and the better element of Democrats and Republicans have combined on Pattison in the hope of that relief. In his letter of acceptance the Governor says;

"I will not only not permit the participation of the officers and employes of the city government in politics, but I will absolutely prohibit and prevent it. I will require of the members of the fire, the police and every other department abstention from all display of party feeling or interest and from every manner of interference in political affairs." We have no doubt the promise will be kept in case the ex-Governor is elected. He deserves to be elected, because his success at the polls affords the only hope of the redemption of Philadelphia from the ring rule which has blighted it for so many years.

Concerning this election the Centre ville Record, of Maryland, says:

"Ex-Governor Pattison, by fidelity and integrity, has become a fixture in the confidence and esteem of his fellow citizens in Pennsylvania. He Governor of the State and twice in

fice, and doubtless anticipated enjoying a season of freedom from political and official care. But the Democrats of Philadelphia have nominated him for the Mayoralty of the city. Their choice is a splendid tribute to the public and private character of the terms of public service."

And the Delaware Pilot also re-

#### Legal Light Wanted.

The proposition to eliminate ignorance by publishing in at least one county paper all future legislative enactments is very good so far as it goes; but it don't go quite far enough in our opinion. We give as a reason that there are several parties in each county needing legal light badly, and if you only thus enlighten the Republicans what are we ignorant Democrats going to do for want of the light our legislative statesmen are industriously shedding forth from time to time. We move to amend by squelching the Legislative Record as a thoroughly useless and unappreciated expense, and in lieu thereof lets have published in at least two politically opposing papers (never mind about the Prohibitionists) at each county seat all laws in their perfected form that pass the Legislature. This would be extending the greatest good where it is most needed.

Business during the past week has been unfavorably affected by the embarrassment of the Federal Treasury. DR. Mor TAGGART is the only specialist this side of New York, Philadelphia and Buffalo, who makes an exclusive speciality of treating Chronic cases and the Diseas s of Women. Those who have been suffering for years should call at once and learn whether their aliment can be cured or not. No cases received unless they can be cured or greatly helped.

#### What Dr. MacTaggart HAS DONE AND IS DOING.

HAS DONE AND IS DOING.

The Doctor wishes the public to understand that he is not soliciting the ordinary run of cases, but desires just such diseases to treat that other physicians cannot succeed with or at least fail to cure. When you suffer from such consult hix (consultation is free), have him thoroughly diagnose your case, and then what he telis you can be relied upon as a fact beyond refutation. Some may say, "Why go to Dr. MacTaggart when we have as good doctors here as anywhere?" Yes, so you have in their line of practice, but not in those specialties that Dr. MacTaggart is schooled and practiced in. In support of this unqualified assertion read his testimonials—not only read them, but investigate the truthfulness of them. Where are the physicians who can remove cancers without pain and cure it beyond peradventure? He does it. Where can you find another physician in Fennsylvania who can remove tumors of even 6) pounds weight without he use of the knife, without pain, and without leaving a scar? Dr. MacTaggart does it. What physician can cure fistulas without cutting or causing the least pain or soreness during freatment Dr. MacTaggart does it suscessfully. These are golden truths—golden because it proves beyond dispute that the science of medicine in specialities particularly, is advancing with rapid strides far in the lead of the regular practioner.
