abundance of money in the treasury. party.-Ez. The fact is, the McKinly tariff law was directly responsible for the enormous falling off in our revenues. Take the article of sugar, for instance, which the McKinley law gave to the sugar trust free of duty, and at the same time protected it by a duty of sixtenths of a cent a pound on its refined product. This one provision of the law deprived the treasury of revenues amounting to about \$50,000,000 a year, or for the four years of the Mc-Kinley law about \$200,000,000. That was a pretty big out, we should say, and to it may be added \$25,000,000 paid out in sugar bounties, making a total loss to the treasury by the sugar schedule of the McKinley law of \$225,000,000, or two and a quarter times more than the bond issues President Cleveland has been compelled to fall back on to replenish the treasury revenues .- Clinton Democrat.

Against the Gold Bonds.

WASHINGTON, Feb. 14-Another day's debate in the house on the financial question has but served to em phasize the fact that no legislation affecting the financial situation is to be expected from the Fifty third congress. A week ago the house refused to adopt the last Springer banking and currency bill, which contained a provision authorizing the issue of long time, low interest bonds, and to day by a still more decisive vote of 167 to 120 it declined to authorize the issue of sixty five million three per they would appropriate from the funds cent. gold bonds with which to replace the three and three fourths per cent. bonds negotiated with the Morgan-Belmont syndicate.

The consideration of the joint resolution for this purpose, reported yesterday from the committee on ways and means by Chairman Wilson, occupied all of the session of six and one half hours. The debate followed in a general way the lines of debate on the Springer bill last week, but the opposition to day was much more aggressive than on that occasion.

Mr. Wilson was aided in his advocacy of the measure by Mr. Reed, of Maine, Mr. Payne, New York, Mr. Bynum, Indiana, all members of the committee on ways and means, who urged that the joint resolution was a business matter disassociated from politics or anything of that kind, the passage of which would result in a saving of \$16,000,000 to the people.

The opposition was led by Mr. Hopkins, Ills., and Bryan, Neb , members of the committee on ways and means, and it developed some startling points. Mr. Hopkins asserted that the president was not animated by patriotic motives in sending his last message to congress, but by a desire to unload upon that body the responsibility for a transaction, negotiated by his former law partner, that would net the syndicate represented by him \$25,-000,000.

Mr. Bryan declared the scheme proposed in the joint resolution to be put another step in the accomplish-ment of the conspiracy to strangle silver and solemnly assured the house that so serious did he consider it to be that were there any probability of its passage and the forfeiture of his The life would prevent it, he would gladly lay down his life in that behalf. Mr. Cannon, Illlnois, hinted at impeach ment and Mr. Hepburu, Iowa, said that Republicans who favored the measure proposed a new policy, a then just think how it will hurt to pay repudiation of all the declarations of the party in the past and the institu tion of a new policy that called for a new following.

The vote was taken at five o'clock upon the question, "Shall the joint "Senator Jones was outspoken in an- resolution be engrossed and read a nouncing his intention to move to third time?" the result being as stated, take up his unrestricted coinage bill yeas, 120; nays, 167. "The bill is before final judgment." It begins to dead," officially declared the speaker, look as though final judgment would and at 5:35 o'clock the house adjourn-

Congressman Wolverton.

The Philadelphia Press of last Sunday thus speaks of our present representative in Congress: "One of the big men, physically and intellectually, will leave Congress when Hon. Simon P. Petilioning the Legislature.

The Philadelphia Maritime Exchange recently forwarded to the House of Representatives and Senate at Harrisburg a memorial asking for the early passage of the bill now pending, providing for an appropriation of \$500,000 for the preservation and improvement of the channels of navigable rivers between cities of the first class and the sea.

That reminds us that it would be a thing strongly tinctured with equity if in the treasury not otherwise appropriated a small amount that could be made to effect at least some snowshoveling along the country roads in winter. We mention it in behalf of city folks who don't like artificial eggs and butter. As for the farmer, of course he is supposed to be able to help himself out somehow.

Legislative.

Over 200 bills for State aid have been referred to the Appropriation Committee, and they are not all in. The total amount asked for now reaches \$30,000,000. This sum will be largely increased before the close of the session. The total revenues for the next two years will be about \$19,000,000. It is well (perhaps) under the circumstances that there are some funds left in the treasury to draw

"C. I. Hood & Co., Lowell, Mass.: Dear Sirs :- I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was in-curable. I tried cintments and other remedies but to no avail. A friend recommended Hood's

would you like to buy your family a home? It so, read the following:

I represent a company that has embodied in its pian all the features enumerated above and many more. Can you see any reason why you should pay a large interest for money when you have good security? Can you present any good reason why it is not as well to receive profits yearly as to wait from 7 to 10 years as one does in many of the Associations? Is not the reduction of interest yearly better than waiting many years for profits? Borrowers under the plan represented by me assume absolutely no risk as each \$1.00 paid on the loan is credited on the mortgage, thereby reducing it in proportion to the amount paid.

Building Associations have benefitted hundreds of thousands, so did the old cars that were propelled by horses. Our plan is as far superior to Building Associations as the trolley cars are to the old antiquated horse car system. My time is too much occupied to answer questions for the curious, but those seeking information for the betterment of their condition will receive full information promptly. We offer an investment to those who have a small amount to save monthly that has no superior as to safety and seldom equaled for profits. Call or write.
