FRIDAY, MARCH 8, 1895.

Congress adjourned on Monday at

The Fifty-Third Congress.

It would be quite as unfair to judge the Democratic party by the acts of the Congress which expired by limitation yesterday as it would be to judge the city of Philadelphia by the antics of its Councilmen. The party is res ponsible for the acts of Congress, and the city is responsible for the ordinances of Councils: but in neither case has the will of either the party or

the city been effectual or paramount. What the Democratic majority intended to bring about when it elected House was baffled, belittled or brought to naught by the Senate. While there was an ostensible Demo cratic majority in that body, there was no majority in fact. On the question act the Democratic Administration was only able to carry its point by the aid of the opposition The scandalous recusancy of Democratic Senators in dealing with tariff legislation effectually prevented the passage of such a measure as was desirable in the interure as had been advocated before the people. That the McKinley act did not remain unrepealed on the statute book was no fault of certain Democratic Senators. Having aided the it obnoxious, they were only prevented by an unexpected legislative stratagem from inflicting final defeat. Rather than take the risk of further Senatorial butchery, the House saved so much of the original work as possi ble by sending the bill to the President in a mangled and imperfect form. The malignant temper of the Demo cratic deserters and ingrates in the Senate has been more recently conspicuously manifested in the refusal to pass the House bill to repeal the differential duties on sugar imported from bounty paying countries, and in the refusal to save \$16,000,000, and protect the public credit by authorizing the issue af 3 per cent. gold bonds.

The truth is that while the President and the House of Representatives would have been responsive to the desire of the people as indicated in 1892, the Senate has at no time been Democratic. The Republicans or the Populists have always been able to command the votes of a sufficient number of so-called Democratic Senators to defeat Democratic measures or to accomplish legislation against Democratic protest. The victory of 1892 was, therefore, incomplete. The country has not had the benefit of intended reforms and econo-

For the past two years of almost un exampled business distress the affairs of the nation have drifted along without a determinate and resolute guidance, the revenues eaten up by vast fixed expenditures and the finances disordered by perilous floating indebtedness left as a heritage of Republican maladministration. For the next two years the situation from a Democratic standpoint will be improved. A Republican Congress will have to deal with the financial situation under the curbing hand of a Democratic President. The Democrats have made themselves responsible for revenue measures; but the people have shifted to the shoulders of their opponents the task of regulating expenditure. The fight for position in 1896 is not so hopeless for the Democratic party as it would have been if it still had apparent but unreal legislative power .- Phila Record.

#### THE JUDICIAL APPORTIONMENT.

A bill has been introduced in the House redistricting the state into judicial districts. It proposes to change this district by putting Mon-tour county with Northumberland, and Columbia with Wyoming and Sullivan. This is a return to the arrangement that existed prior to the apportionment of 1874. A President Judge of Wyoming and Sullivan was elected last fall whose term of office! is, has not yet been finally decided. E. M. Dunham of Laporte was returned as elected by a majority of twenty-nine over John A. Sittser, the incumbent of the office for the past ten years, and Judge Sittser is contest-

apportionment be marle, Judge Ikeler would continue in office until 1899, when his term expires, and he and either Dunham or Sittser would apportion the work between them. At the end of Judge Ikeler's term, he would retire, and the other Judge would be the President Judge of the district until 1905. Judge Dunham lives at Laporte and ownes property there, and Judge Sittser is located at Tunkhannock, and which ever is declared to be the Judge, it is quite in probable that either of them would remove to Ploomsburg, and this county would then be without a resident Judge for the first time in many years. That this would be a serious inconvenience to lawyers as well as to litigants, cannot be doubted. The bill is a republican measure in a strong ly republican legislature, and it is likely to go through unless some reasons to the contrary are shown. If there are no objections to the bill, of course there is nothing to be done, but if there be objections some steps should be taken to present the matter before the apportionment committee before it is too late.

#### We Stand Corrected-

Under the impression that the Baker ballot-boxes were of uniform pattern throughout the State we must admit we were in error in our article of last week in which we treated upon the insecurity of these boxes in Blooms burg. We referred to their insecurity after being locked, sealed and deliverits President and Congress in 1892 ed for safe keeping. The style of box has not been accomplished. The to which we referred were those sent work of the unwieldy majority in the into the rural districts of Luzerne county, when the law first took effect. Those boxes were insecure, as we have already described them, and their insecurity was demonstrated to our satisfaction by the inspectors of the of the repeal of the Silver purchase board while the writer was acting as judge of election. After making our return we published our observations on the matter in either the Echo or Democrat of Shickshinny. And as no denial of the fact as published was made at that time, we naturally presumed that the same style of box was est of revenue reform or such a meas- in vogue throughout the State. We are credibly informed, however, by a gentleman who took the trouble to examine the Bloomsburg boxes that they are perfectly secure; that a hasp on the lid of your boxes passes over Republicans in loading down the bill a staple fastened on the box below with amendments intended to make the lid, and then a padlock safely secures it on one side; while on the other side, the lid is securely hinged and riveted. It is possible that the Luzerne contractor could not get his hinges on in time; but they certainly ought to be there.

### PURSEL & HARMAN,

Do you desire to pay off a mortgage and re-bor-row the money at 5 per cent. interest annual-

ly?
Would you care to be so situated that you could reduce the mortgage against your home by paying off a small amount monthly and at the end of each year receive credit for all paid? With interest being charged only on retunining portion of loan.
Would you like to buy your family a home? If so, read the following:

i represent a company that has embodied in its plan all the features enumerated above and many more. Can you see any reason why you should pay a large interest for money when you have good security? Can you present any good reason why it is not as well to receive profits you'll as to wait from 7 to 10 years as one does in many of the Associations? Is not the reduction of interest wearly better than waiting yearly as to wait from 7 to 10 years as one does in many of the Associations? Is not the reduction of interest yearly better than waiting many years for predits? Borrowers under the plan represented by me assume absolutely no risk as each \$1.00 paid on the loan is credited on the mortgage, thereby reducing it in proportion to the amount paid.

Building Associations have benefitted hundreds of thousands, so did the old cars that were propelled by horses. Our plan is as far superior to Building Associations as the trolley cars are to the old antiquated horse carsystem. My time is too much occupied to answer questions for the curious, but those seeking information for the butternent of their condition will receive full information promptly. We offer an investment to those who have a small amount to save monthly that has no superior as to safety and seldem equaled for profits. Call or write.
