A well selected text is half of the sermon. Given a good text and a preacher who is in earnest, and the result is sure to be good. The text of this article is a plain simple statement that proves itself in the reader's own mind without argument. The text is "Good health is better than great riches."

Without health nothing really matters very much. A hacking cough takes all the beauty out of a landscape or a sunset. Erysipelas or eczema will spoil the enjoyment of sprightly conversation, of a beautiful concert, of a wonderful painting. The biggest bank account in the world won't pay a man for his health, but a very small amount of money will make him healthy and keep him healthy.

Most all bodily troubles start in the digestive or respiratory organs. It is here that improper living first makes an opening for disease. The development differs as constitutions and temperaments differ. The causes are almost identical. To get at the root of the matter is simple enough if you start right.

Dr. Pierce's Golden Medical Discovery is a medicine for the whole body. It works through the digestive organs on all the others.

It cures the first thing it comes to and after that, the next. It puts health in place of disease in the stomach, and from the vantage ground thus gained, it reaches every fiber of the body and drives disease before it—indigestion, liver troubles, kidney complaint, biliousness, skin and scalp diseases, salt-rheum, tetter, eczema, and all the troubles caused by impure blood.

"CELLULOID" COLLARS AND CUFFS are made by covering a linen collar or cuff with "celluloid," thus making them strong, durable and waterproof. When soiled they can be cleaned by simply wiping off with a wet cloth. No other waterproof goods are made with this interlining, consequently no other goods can possibly give satisfaction. Do not forget that every piece of the genuine is stamped as follows:

Insist upon goods so marked and refuse anything else if offered. If your dealer does not keep them you can procure a sample from us direct by enclosing amount and stating size and whether stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

Wide Tires for Country Roads.

The prospect for improved road legislation at the present session of the Pennsylvania State Legislature does not appear to be very bright. The Grigsby bill, which was defeated in the House this week, but has revived by the adoption of a motion to reconsider, has merit and would be an advance on the present road law, but it falls far short of the demand of the times. There are several other pending road measures, but not one of them is comparable to the New Jersey law, which is giving that State the best roads in the Union. Good roads cannot be made without the expenditure of considerable money, and for that reason they will not be undertaken by the localities without State aid. As just now the condition of the State finances counsels economy and discourages embarking on new enterprises involving State expenditure, it is probable that the advent of the era of good roads in Pennsylvania must await the dawn of better times.

Representative Harvey is of opinion that whether we have good roads or not we should have one of their incidents—wide tires. His bill allowing a rebate of one-fourth of their road tax to all who use draft wagons with tires not less than three inches in width seems in a fair way to get through. The cost of improved roads makes it advisable to protect them by discouraging the use of the narrow, knife-like tires that cut up our roads so badly. The Broad Street omnibuses are much less severe on the asphalt pavement of that highway since Councils compelled the company to use wide tires. With wide tires in general use on our country roads, even as they are now, they will be improved, since they will not be so easily and so generally cut up in wet weather, and the improved stone roads when they come will find vehicles constructed for their preservation instead of for their immediate destruction. If the Legislature gives us no other road legislation it will accomplish something if it passes Representative Harvey's wide-tire bill.—Press.

A PLEASANT PARTY.

On Tuesday March 19th, a number of people met at the house of James S. Campbell of Fishingcreek Township. The occasion was the tenth anniversary of the marriage of Mr and Mrs. James S. Campbell.

After the arrival of the guests, when congratulations had been extended to the happy couple, and introductions had passed between those who had not met before, we were summoned to the dining room, where we found a table spread with the good things of life, which I presume all enjoyed.

I am judging others by myself in this matter. The good things of the table is one thing that is particularly attractive to me. When I said I presumed all enjoyed the repast, I was speaking from my own experience, and not from observation, as during that part of the programme I was attending strictly to business, and had no time to watch others.

After paying our respects to the good things of the table, another treat awaited us in the shape of some excellent music rendered by Mrs. Jennie Weitsel. I think I may say for all, we are much obliged to you.

There were some expected, who failed to put in an appearance. I shall take this opportunity to tell them what they missed. They missed a good dinner, good music, and last but not least an introduction to good society. This last may be the miss of their lives.

The Mrs. was the recipient of a number of useful and valuable presents, with which she seemed highly pleased. But she seemed most of all pleased, that so many of their friends honored the occasion with their presence.

The giving of presents was a part of the programme in which I failed to participate. I did not exactly understand what was expected of gentlemen on such occasions. I hope my friends will not slight me on similar occasions on account of this little oversight on my part. I shall better understand my duty in the future. Wishing those people continued happiness and prosperity, I now bid them adieu.
