#### EAST BENTON.

This 30th day of March 1895 there is any amount of snow and the air is exceedingly cold and raw.

Evidently the farmers are not in it, no matter what amount of legislation may be enacted into law.

The masses of the people have been hoodwinked by the glib tongue politicians who are so anxious to serve the dear people to the vultures and sharks that soar and swim in political circles high and low.

We boast of a Republican form of Government in which the people make their own laws. But we ask, how many laws have been passed within the last ten years the people have approved and not condemned.

Much sickness is prevalent in this and the surrounding community.

Church and Maltman of the Christian Church, Benton has two divines that the place and people may justly pride themselves. Not because of their ability alone, but because of the good and manly traits that characterize both these gentlemen.

Half the fun of life is lost by many people through their neglect of one of Nature's most rigid laws. Nature insists on regularity. People who allow the continuance of any irregularity in their digestive organs soon have to pay the penalty. Free and regular movement of the bowels is the surest sign of good health.

The first question the doctor asks is: "Are your bowels regular?" If not, he gives something to make them so and quite often that is all he needs to do.

Assist Nature occasionally in removing offending matter from the stomach and bowels and you need never be very sick. Remember that assistance don't mean violence. What is needed is a gentle but efficient helper that will work so easily and so naturally that there will be no shock to the system.

Of all the remedies that have been prepared, Dr. Pierce's Pleasant Pellets best fill all the requirements. They are made of refined, concentrated vegetable extracts. One is a laxative—two a mild cathartic. They cure constipation, biliousness, dyspepsia, distress after eating, sour stomach, "heart-burn," dizziness, foul breath and all disorders due to imperfect digestion. Each little vial holds from forty-two to forty-four Pellets, and sells at the same price as the more common and cheaper made pills. A free sample package (4 to 7 doses) will be sent on request. Once used, they are always in favor. WORLD'S DISPENSARY MEDICAL ASSOCIATION, 663 Main Street, Buffalo, N. Y.

Did you ever see one of the famous waterproof Interlined Collars or Cuffs? It's very easy to tell, for they are all marked this way

They are the only Interlined Collars and Cuffs, and are made of linen, covered with waterproof "CELLULOID." They'll stand right by you day in and day out, and they are all marked this way

#### Easter Eggs.

The use of eggs on Easter Day, sometimes called Pasche, or paste eggs, has come down to the present time, writes Jane Searle in an article on "Easter and Easter Customs," in the April Ladies' Home Journal. Eggs were held by the Egyptians as a sacred emblem of the renovation of mankind after the Deluge. The Jews adopted them to suit the circumstances of their history as a type of their departure from the land of Egypt.

They were also used in the feast of the Passover.

Hyde, in his description of Oriental sports, tells of one with eggs among the Christians of Mesopotamia on Easter Day, and forty days afterward:

"The sport consists in striking their eggs one against another, and the egg that first breaks is won by the owner of the one that struck it. Immediately another egg is pitted against the winning egg, and so on till the last egg wins all the others, which their respective owners shall before have won."

In Germany, sometimes instead of eggs at Easter, an emblematic print is occasionally presented. One of these is preserved in the print-room of the British Museum. Three hens are represented as upholding a basket, in which are placed three eggs ornamented with representations illustrative of the Resurrection; over the centre egg the "Agnus Dei," with a chalice representing faith; the other eggs bearing the emblems of charity and hope.
