A MONUMENT TO KEY.

Tardy Honor for the Author of .. The Star Spannled Banner."

Governor Brown, of Maryland, on Friday last, sent to the Governors of the other 43 States the following:

"Permit me to call the attention of the schools, patriotic societies and citizens of your State to Flag Day, June 14, the 118th anniversary of our flag's adoption by Congress.

'Star "The National hymn, Spangled Banner,' is always sung at Flag day exercises, which are now being generally held by the schools; but few yield its author the reverence his memory deserves

"No one has ever written anything that has done more to awaken true patriotism, and yet the ashes of Francis Scott Key have lain for many years unhonored by his countrymen, beneath the soil of his native country, in the cemetery of Frederick City,

"I take this method of commending to you the work and object of the Key Monument Association, of Frederick City, Md., which was organized and incorporated last year, for the purpose of collecting funds to erect a suitable monument to his memory, and thus to redeem the nation from the disgrace of over half a century of ungrateful neglect.

"They have already raised about \$2000 from their own town; but every American who is proud of our beautiful flag and its position among nations should have a share in erecting this monument.

" Please urge the children to give their pennies and the citizens their larger coins on Flag day, or before. The names of all donors will be placed in the crypt of the monument, and will also be published in a pamphlet when the work is completed.

" Funds should be forwarded to the Key Monument Association at Frederick City, Md."

SHAD.

The shad begin to appear in the rivers about the 15th of March, and they continue to arrive until the middle of June. It is a remarkable fact that each colony is invariably divided into three grand divisions, which arrive at different times, thus making three successive shouls, or, as the fishermen call them, "runs." The first run is both small in numbers and especially poor in quality, and it is interesting to observe that this is true of the herring as well as of the shad. This advance guard is largely composed of what are known as "hickory" shad, and they differ from the others in such marked degree as to form a distinct variety. The fishermen in the Chesapeake Bay have an un-Mosaic legend that at the creation there were a great many small bones left over, and that to dispose of them the "hickory shad was made.

A few days after these skirmishers LL KINDS OF BLANKS FOR JUSTICES have passed up the river the second and constables at the COLUMBIAN OF or creat run begins, and continues or great run begins, and continues three or four weeks. Hartman-Died in Fishingcreek Township of consumption on April 21, Mrs. Addie Hartman, age 36 years, 1 month and 1 day.

Harrison-Died in Fishingcreek Township of scarlet fever on April 29, Walter Alwood, infant son of T. W. Harrison, age 10 month and 29 days.

Is there anything more wholesome, more beautiful, more completely pleasing than a womanly woman? Such a woman is even tempered, intelligent, strong and healthy. Health really tells the whole story. Health means strong nerves and strong body, and they go far toward bringing good looks and amiability. A woman worn and wearied by the

dragging weaknesses peculiar to her sex, cannot be expected to find zest in any duty or amusement. Life is all one dead monotonous gloom to her. On her face is written the story of weakness and pain. The wholesomeness of health is lacking. The cheeks lack fullness, the eyes lack

sparkle, the hair lacks luster. Doctors have learned to locate ninetenths of womanly sickness in the organs that ought above all others to be strong and healthy.

Sensitive women shudder at the thought of consulting a physician on such matters. A natural feeling of modesty makes them dread the examination, and subsequent stereotyped treatment by "local applications" on which most

Much more often than not, this is un-necessary. It should not be submitted

to except as a last resort. Dr. Pierce's Favorite Prescription has cured thousands of severe cases of "fe-male weakness." It works in a natural, sensible way. It begins by subduing the inflammation that is always present. Then it strengthens and invigorates the Then it strengthens and invigorates the whole body, particularly the organs distinctly feminine. It promotes regularity, cares inflammation and ulceration, and stops the debilitating drain caused by them. Of all dealers.

WE can Collar and

Every man that wears collars and cuffs should know about the "CELLULOID" Interlined. A linen collar or cuff covered with waterproof "CRLULOID."

They are the only Interlined Collars and Cuffs made.

They are the top notch of comfort, neatness and economy. They will go through the day with you in good shape, no matter how hot or how busy you get. You can clean one yourself in a minute, without dependence on busy wives, unskillful hired girls or uncertain and distant laundries. Simply wipe them off.

You must insist upon goods so marked and take nothing else if you expect

If your dealer should not have them, we will send you a sample postpaid on receipt of price. Collars 25c. each. Cuffs 5oc. pair. Give size, and specify stand-up or turned-down collar as wanted. THE CELLULOID COMPANY,

THE REVOLUTION IN OUBA.

Until they are so influenced no rev-A Philipsburg fish vender received olution can be successful, as has been

This does not appear to be the case. said on good authority that Cuba is a burden to Spain. Besides, if the Cubans were badly treated a very large majority of them would accept the first opportunity to revolt. The fact that they have not done so, but support the government instead, leaves no doubt of the real situation. It must be admitted that Cuba is much more mildly governed than it was some years ago.

Cuba is of no use to Spain and some time will be independent. But there seems to be little reason for inflicting unwelcome sentiment upon her, or of believing everything that is said about the revolution, as both sides are untruthful. - Patriot.

THE GROW COUNTY SURVEY.

The Actual Field Work Shows An Increase of Territory.

Two engineer corps are now making the survey of the Grow county line. The ten-mile limit from the county seat was completed last Friday and the stake driven in Newport township, the line running between Glen Lyon and Nanticoke, nearly a mile East of the former place. One corps started South and the other North from this point. The Northern line crosses the mountain opposite Hunlock Creek, and makes the creek the county line for a short distance, gradually bearing off toward Plymouth on the circle. The survey of the circle is a difficult task and requires skillful engineering. The men employed by the Commissioners are experts and are making an accurate and thorough survey. All computations are made on the ground and the work as it progresses is completed every day. After the survey of the circle is made the balance will be comparatively easy and will go much faster. Messrs. Harvey and Wheelock are not in the field this week but will return again on Monday,

There is no doubt that the actual survey will show more than the required territory. The line thus far run shows a considerable increase over that upon which the estimates for the petition were based. This is gratifying

to the friends of the measure and shows that the plans although hastily laid out are developing satisfactorily.

The commissioners are doing their work conscientiously and faithfully, They are men of honor and recogniz ed the dignity and responsibility of their appointment. The friends of the new county can rest assured that they are men who cannot be tampered with by any of the Quay county boomers or the million dollar court house wreckers .- Shickshinny Echo.

The legislature has been in session 119 days. Both bodies have apparentenacted no important legislation, except to create new offices and increase salaries. Up to date Governor Hastings has signed twenty eight bills and vetoed six. He has also approved thirty joint resolutions and disposed of all the bills messaged to him for his consideration. The Farr compulsory education bill and the three Greater Pittsburg bills will go to the governor to morrow.

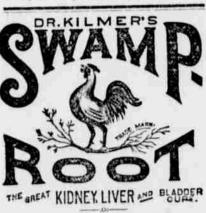

There is nothing but the hardest kind of work for the state lawmakers, especially members of the house, from now until the close of the session. The committees are working day and night to get rid of bills not yet considered so that the members may be free to give all their attention to the general calendar of bills. Beginning this week the house ways and means committee will hold two sessions on Tuesdays, Wednesdays and Thursdays, and one on Friday morning for the consideration of revenue measures. The house general judiciary committee has cleared its calendar of house bills and is working on senate bill.

A congressional apportionment bill will be brought out this week by the house committee. Chairman Lawrence has prepared a bill which he will submit to the committee at a meeting to-morrow morning. Chairman Marshall, of the house appropritection of the mud at the bottom of spread or uncontrollable to make ations committee, has prepared a special calendar of appropriation measures. They will not be brought out, though, until it is definitely determined how much the state can donate to charity the next two years. has been made for the Delaware is the effect that the revolution is one in Governor Hastings and his cabinet have not been able to solve this prothat more than ten thousand shad battle with more than forty or fifty blem to the satisfaction of the com-

THE ROTHSOHILDS' FORTUNE.

At Present it is Said to Foot Up to Ten Thousand Millions.

The fortune of the Rothschilds has often been mentioned in print, but the Paris Signal gives some new and interesting information about it. According to this authority, the total wealth of the Rothschild family at the present time amounts to 10,000,000,000 francs, of which the French branch possesses 1,000,000,000. In 1875 they had less than half this sum, showing that their fortune has doubled in 18 years. In 1800 the grandfather of the present generation of Rothschilds had nothing, his financial success beginning after the battle of Waterloo. It is estimated that in 1965 their fortune will, if continuing to grow as heretofore, amount to the stupendous sum of 300,000,000,000 francs. The interest very hard to kill but this extraordinary In fact, so far as taxation goes, it is on this capital would be sufficient to
