Dr. D. T. Krebs, a prominent physician of Mt. Carmel, and ex-Coroner of Northumberland county, was found dead at the gate leading to his home on the 24th ult. His wife followed shortly after and upon reaching the gate, was terribly shocked to find the lifeless form of her husband. Death was attributed to heart failure. Dr. Krebs formerly resided at Light Street.

The concert given by the Bloomsburg Band in front of the Court House on Tuesday night was listened to by a large concourse of people, with much pleasure. The improvement made by the Band, under Mr. Blair's leadership, is noticeable from week to week.

State Sanitation.

The State Board of Health has succeeded to an encouraging degree in arousing public sentiment to the necessity of organized sanitary supervision. All cities and the majority of the boroughs of the State have Boards of Health tributary to the State Board, and a bill is pending in the Legislature conferring the powers and duties of a board of health upon the School Board of each township.

This, if passed, will furnish an organization that can take the necessary measures to suppress a nuisance prejudicial to the public health or a dangerous epidemic in any section of the State, no matter how remote.

The State Board finds, however, that the old problem of making bricks without straw is as difficult of solution as ever, and while it has, or is in a fair way to have, all the legal power it needs, finds itself sadly hampered for funds to enforce proper health regulations. It is appealing, therefore, to the friends of proper sanitation in all parts of the State to urge an important increase in the appropriation for carrying on the regular work under the board's supervision.

This appeal is worthy of cordial and unanimous support. In no place can the ounce of prevention be so effectively supplied as through the agency of the State Board of Health. The Legislature should need no urging to its duty in this respect, but in the multitude of claims upon the State funds there is more or less danger that the just requirements of the board may be slighted, unless a popular demand compels proper attention.

Printing in Colors.

The prices of colored printing inks have gone down with everything else, and it costs no more to do printing in colors than it does in black. THE COLUMBIAN office is prepared to print in any of the following colors: Black, orange, deep cherry, brown lake, light blue, ultra marine blue, bronze red, violet, dark red, green, jacqueminot, purple, garnet, peacock blue. Printing in more than one color is done at a slight advance for the additional press work.

W. S. RISHOTON,

FREIGHT ON STREET CARS.

There is No Reason Why They Should Not Benefit the People.

The Pennsylvania House of Representatives voted by a large majority to allow street railway cars to carry freight. This is the one thing yet lacking to develop trolley and horse cars to their full usefulness. There is no reason why freight should not be loaded into street cars and carried at the same speed that passengers are. It is a convenience badly needed in every city in this Union. Especially the electric lines in suburban and country places would supply a great want if they sent out freight cars at regular intervals. These could be small, light and swift enough not to interfere in any way with passenger traffic. At present the arrangements for getting baggage and small freights from one part to another of any of our large cities are a grievance and a nuisance intolerable. It actually takes longer to get a trunk from one part of Chicago or New York or Philadelphia to another than it would to send it to a city 100 miles away. The street freight and baggage car is the thing. —Washington Republic.

In Memory of the Departed.

Mrs. Catharine Dollman, of Eyer's Grove, died April 24, 1895, aged 62 years, 17 days. She leaves five children to mourn her loss, three sons and two daughters, who deeply feel the loss of a good and patient mother.

Again our hearts are bowed with grief, Our tears in sorrow flow, A loving mother now is called To leave this world of woe.

She has gone to meet the loved ones That have passed the waters o'er, But we hope to meet her later On the blessed heavenly shore.

The home is sad and lonely now, For there's her vacant chair; For we who loved our mother dear, Would always find her there.

Many a day of bitter sorrow, Toil and pain she has passed, But we know that she is happy In the Savior's arms at last.

From all her trials she is gone, And our home is sad and drear, But we'll place our trust in Jesus, He'll know our hearts will cheer.

Her children now are weeping For their mother they loved so well, But they know that she's in Heaven, Where she can love them still.

And her dear and aged father, How with tears his eyes would swell, As he gazed upon her face, To take a long and sad farewell.

And her brothers and her sisters, How they'll miss her here below; She is waiting for their coming In the bright forevermore.

Many friends have gone to answer The blessed call they've heard at last, And with millions they are shouting, Home at last, home at last.

GERTRUDE HILMAN.

The Poor Man's Dollar.

The Atlanta Journal says: "No class of our people have a more direct interest in the currency question than the wage earners. They constitute the largest class of our entire population. Of the 22,000,000 people in this country engaged in work in all callings, trades and professions, about 7,000,000 are wage earners in manufacturing, mining, transportation, building and other industries, not including agriculture. To these 7,000,000 must be added the millions of clerks and other employes who are dependent on the earnings of their labor.

"Should silver monometallism prevail, all these people will be paid in depreciated currency, and until they receive \$4 for every dollar they get now, they will lose by the change. The decline of prices has made their wages and salaries more potent in providing the necessities and comforts of life. With every dollar they receive they can buy more now than they ever could before. They must know that there would be no commensurate increase of wages with the establishment of the single silver standard. It must not be forgotten that in a rise of prices labor is about the last thing to go up. With the same wages they get now 7,000,000 people in this country would have a good time paying twice as much as they now pay for everything they buy. This is what silver monometallism would drive them to. The poor man's dollar should be an honest dollar."

GENERAL NEWS.

The report that the Allianca affair has been settled by Spain's conceding the American claims is confirmed officially. The Spanish Government will give honorable satisfaction for the mistake, and admits that the Allianca was outside her territorial waters when the Conde de Venadito fired upon her. Commanders of war ships in Cuban waters have been instructed precisely not to fire on vessels outside the three-mile limit.

Captain General Martinez de Campos has telegraphed from Cuba for more army surgeons. He will start in a few days for the Eastern provinces, where, it is said, he will make haste to deal the insurgents a decisive blow before the rainy season.

It is said of Horace Greeley that he once said: "I have made plenty of mistakes in my life, but they were always new mistakes." Everybody blunders; it is the wise person who does not blunder in the same way twice. —New York Times.

Saturday night two men drove to Pine Plains, N. Y., and proceeding to the farm of Frank Eno, near that village, dug up something which had been buried near a large boulder, and then hastily disappeared. The fact that the Italian known as "Red-Nosed Mike," who murdered and robbed the paymaster of a large manufacturing company in Pennsylvania, several years ago, was arrested at Pine Plains while employed as a railroad laborer, and that the plunder he obtained from his victim has never been accounted for, leads to the belief that the object carried away by the men is "Red Nosed Mike's" long hidden treasure. There is a mystery about the affair which cannot be explained.

While there is no truth in any disagreement whatever having occurred between President Cleveland and Secretary Gresham, the story has started a fresh rumor that the Secretary is going to resign which is more definite than any of its predecessors, for it couples with the talk of his resignation the statement that when he was in New York early this week he was offered the presidency of the Pullman Car Company by General Horace Porter and J. W. Doane, who are said to have spoken for themselves and other directors in view of the probability that George M. Pullman will not be re-elected president of the company at the annual meeting in July.

If such an offer should be made, carrying, as it would, \$25,000 salary, it might be a temptation to Secretary Gresham; but his sense of duty is so keen that he would not yield to it as long as he felt that his work in the State Department was not completed, and that is the way he is known to feel now. He refuses to talk about the matter at all.

With only about \$100,000 available for distribution among all the institutions asking State aid and not directly under State control, the question of issuing a loan for \$2,000,000 is being seriously considered by some of the leaders in the House. The principal obstacle to such a course, however, is the opposition of Governor Hastings, who does not want to begin his Administration by borrowing money. State Chairman Gilkeson is also said to be opposed to the plan as being bad politics. Unless some scheme of this kind is adopted, however, there appears to be no prospect of any appropriations whatever, outside of the purely State institutions, as with only \$200,000 available it will hardly be worth while to begin distributing.

The State's revenues, it seems, are neither as high as a church steeple nor as deep as a well, but, thanks to careful Republican management, they will reach around just the same. —Ex. Yes, they will reach around to pay the increased salaries of existing office holders, and the salaries of numerous newly created and useless officers, thanks to a Republican legislature, but the schools and charities of the state are to be cut down in order to leave enough money to pay for republican extravagance.
