

LEGISLATION FOR FARMERS.

With the exception of the revenue bill, which was defeated by the influence of the state administration and the corporations, the farmer element in the recent legislature has gone home well satisfied with what it got this session.

The most effective showing of their influence was the creation of the state department of agriculture and the practical wiping out of the state board of agriculture, which has been in existence during the past fifteen years.

The leading grangers in the state, however, were careful not to show their hand openly in their efforts to annihilate the board of agriculture and create a department of agriculture.

The trouble with the board was that most of the Republicans on the appropriations committee and the leading grangers throughout the state were and are opposed to it for political and other reasons.

Another objection to the board was that it not only was too extravagant in conducting the farmers' institutes, but that it used them for local and ulterior purposes.

The bill creating the department of agriculture was one of the first signed by Governor Hastings and Secretary Edge, who is at the head of the department, and is now organizing it.

There is a large number of applicants for the appointment of deputy secretary, chief among them being William H. Nesbitt, of Northumberland; Gabriel Heister, of Dauphin; Joel A. Herr, of Clinton; A. C. Sisser, of Lackawanna, and Calvin Cooper, of Lancaster.

Other legislation in the interest of the grangers was the act appropriating \$25,000 to the state dairy and food commissioner and \$5,000 for tobacco experimental stations.

Other measures asked for by the granger interests was the bill legalizing the dehorning of cattle and the Marshall act amending the oleo law so that one-half of the fine shall go to the use of the dairy and food commissioner instead of the informer.

It is interesting to note in connection with the success of the rural members this session the plans laid by the grangers to secure not only a firmer hold upon the legislature, but a widespread influence that will have effect in coming state Republican conventions.

Deafness cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies.

TO TEST THE GARB LAW. LANCASTER'S SCHOOL DIRECTORS WILL RE-ELECT AN INELIGIBLE TEACHER.

LANCASTER, June 5.—If Governor Hastings approves the Garb bill its constitutionality will be tested at an early day with a case from this city.

She is an excellent teacher, and under the bill just passed is not eligible for re-election as a teacher unless she discards the peculiar garb she wears.

Tours to the North via Pennsylvania Railroad.

To provide the most attractive method of spending a summer holiday, the Pennsylvania Railroad Company has arranged to run two delightful tours to the North.

The names of the places to be visited are familiar to all and suggestive of wonderland. No matter how much may be expected, one cannot be disappointed in Watkins Glen, Niagara Falls, Thousand Islands, Quebec, Montreal, Au Sable Chasm, Lakes Champlain and George, Saratoga, or the Highlands of the Hudson.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time.

A Tragedy of To-Day.

"So you have decided to leave him, my child?" said the mother. "Yes," the young wife replied. "Remember, it is a grave matter. Such a step is too important to be taken without deliberate and sincere reflection."

"I have reflected. We can never be truly happy." "Why?" "We can never esteem each other as we should. He doesn't look in the least like Napoleon and my foot doesn't bear the slightest resemblance to Tribby's."

TEDIOUS SUFFERING FINDS RELIEF.

Haverhill, N. H.—Many physicians have pronounced as incurable, diseases of the skin and blood. Mrs. Hodson of this place abandoned the old method, used Dr. Kennedy's Favorite Remedy and was cured.

In October, 1895, Mrs. Hodson suffered from a diseased ankle bone. She had always been troubled with Salt Rheum which aggravated the diseased limb. Prescriptions of all sorts were used, but with no benefit.

Favorite Remedy cleanses the blood, and strengthens the nerves. In cases of scrofula and salt rheum, it never fails.

One of the curious things about the new Quay County is that it will be Democratic. The Wilkes-Barre Republican leaders concede that the Democrats will control it. This is one of the things that the Republicans elsewhere were not banking upon.

Kansas is not crying calamity to any notable extent this year. On the contrary, reports of a fair measure of prosperity are made from all over the State. There is every promise of an unusually big peach and plum crop, and the apple and grape crops in several parts of the State promise to be phenomenal.

"But evil is wrought by want of thought, As well as want of heart." By want of thought mothers allow daughters to become frail and puny. Over-study in girls induces uterine disorders and weaknesses, and blights their future happiness as wives and mothers.

"Gentlemen"—I cannot sufficiently express to you my gratitude for the benefit your medicine has conferred upon my daughter. Of late she has suffered no pain whatever. It is simply marvelous. You have just reason to call it your "Favorite Prescription," and to stake your reputation as a physician on it.

WASHINGTON.

From our Regular Correspondent.

WASHINGTON, June 14, 1895.

No member of the Cabinet ever made a more favorable impression upon his first appearance in Washington than Attorney General Harmon has. Every one who has had the pleasure of talking with him has been at once struck by his agreeable manner, quick grasp of subjects discussed, and general broadmindedness.

Speaking of ex-Secretary Whitney's published interview, Mr. Ira M. Davis, of Albany, N. Y., says: "It was Horatio Seymour who wrote to his friends when his name was mentioned in connection with Presidential nomination, 'but your candidate I cannot be: Now comes W. C. Whitney and tells the democrats that he cannot stand as their candidate in 1896. Mr. Whitney means every word he says, but if New York sends a delegation to the convention, instructed to cast her 72 votes for him, he will not then say nay. There never was a time in his life when W. C. Whitney refused to obey his party's call. He will not do so next year. I have the most implicit faith in Whitney, and believe that if nominated he will be elected. He is the strongest democrat in the country today.'" Lots of democrats are talking like Mr. Davis.

According to Hon. E. W. Durant, a democratic state Senator of Minnesota, now visiting Washington, the party that comes out the strongest for sound money is the party that will elect the next President. Discussing the subject he said: "Sound money will be the slogan in 1896. If the republicans should nominate a candidate on a free silver platform to be followed later by the democrat with a sound money platform and candidate, the latter would win overwhelmingly, and vice versa. I am a democrat, and yet I would vote the opposition ticket if our party were to declare for free coinage. Thousands of republicans would vote against the nominee of their party were he to stand as a champion of silver. If Mr. Cleveland were to run again he would get republican votes by the thousands, for the people have tried him and know where he stands. This is purely a business proposition, and the business men of the country are going to look after it, without regard to political affiliation." Mr. Durant is himself a successful business man.

The Georgia delegation which visited Washington for the purpose of inviting President Cleveland and the cabinet to attend the Atlanta Exposition returned home in a very good humor. President Cleveland and every member of the cabinet who was in Washington accepted the invitation and will visit the exposition during the latter part of October, unless important public business shall prevent. President Cleveland complimented the Georgians very highly on the energy they have displayed in working for the success of the exposition.

Secretary Olney's first move as Secretary of State was an important one. He believes that the United States should do just as it would insist that other countries should do under similar circumstances. Therefore on account of representations made by the Spanish minister he ordered the Cruiser Raleigh to proceed to Florida waters and to remain there until further orders for the purpose of preventing filibustering parties going over to Cuba. It is altogether probable that Secretary Olney, like most other Americans, sympathizes with the attempt of the Cuban revolutionists to throw off the yoke of Spain, but his personal sympathies have nothing to do with his official duties. The United States is at peace with Spain and it is the duty of its government to exercise all due diligence to prevent the departure of armed bodies of men from its ports to make war upon Spain; hence the President's proclamation.

President Cleveland has cleared his desk and will, probably before this letter is printed, join his wife and children at Gray Gables, where he will spend the hot weather. He will be in telegraphic communication with Washington and will attend to all public business requiring his personal attention, just the same as if he remained at the White House.
