WASHINGTON, June 21, 1895.

Secretary Carlisle is probably the best pleased man in Washington. His triends and enemies alike agree in giving him the credit for the adminis. tration victory which has been won in tration victory which has been won in the election of delegates to the Ken-tucky state democratic convention which meets next week, and he is which meets next week, and he is being overwhelmed with congratulations, in person and by mail and wire. His friends declare that it means his certain return to the Senate and makes him a promising candidate for the Presidential nomination of the

party. This has been an anxious week for Although the republican brethren. Although every conceivable expedient had been resorted to to prevent the precipitation largest on record, was secured. of a fight over the silver question in the convention of the republican league at Cleveland, Ohio, they have been in a state of dreau every hour that the convention was in session lest their plans should miscarry and the fight be started which would spread like wildlive through the entire party. The republican enemies of Mr.

Benjamin Harrison evidently regard him as a formidable candidate for the Presidential nomination, and are beginning to line up to accomplish his defeat. Ex-Pension Commissioner Dudley, of Ind., whose efforts towards carrying that state for Mr. Harrison in 1888 by means of the notorious "blocks of five" system, which after-wards caused him to find Washington a safer place of residence than Indiana, and who became a bitter enemy of Mr. Harrison because that gentleman although willing to accept the benefit of his trickery, declined to associate with him or even to recognize him after he became President, is again posing as a republican leader. And it is no secret in Washington that Dudley's object in again entering politics is to work against Harrison's ness, and that is by constitutional remedies. Deafness is caused by an

# Indications of a Big Corn Crop.

The area planted in corn last year was 76,000,000 acres, although the acreage from which the harvest was finally computed was only 62,582,269 acres. The difference represented the area abandoned or diverted to other crops. The average yield per acre last season was only 19.4 bushthis year will be fully as large as in 1891, when it was over 76,000,000 acres, and produced a crop of 2,060,-154,000 bushels; and in view of the increased corn planting in the South, and the probable additions to the acreage by the utilization of area abandoned by other crops, it may equal or surpass that of 1889, when from an area of 78,319,657 acres a harvest of 2,112,892,000 bushels, the TEDIOUS SUFFERING FINDS RELIEF.

The country would have cause to rejoice in the event of a duplication of that banner year yield. Plentifulness of corn would be an experience that the consumers of the United States have not enjoyed since 1891. It would mean cheaper beef and hog products, and a consequent expansion of the export trade in meats and lard ; and it would afford an opportunity nowhere else than in the United and strength. # For Milady's Fair Face.

There are few women who have not had at some time or another use for a face powder, even though as a rule they eschew anything on that order. A violet powder which can be commended is composed of wheat starch, three pounds; powdered orris, halfpound. Mix together and add attar of mon, one-eighth of an ounce; attar in the Bazar. It is from the pen of of bergamot and cloves, each, one-half drachm. For those troublesome blackheads that so disfigure the face that is blessed with the most classical features the following compound works wonders: Take kaolin, four drachms: glycerine, three drachms; acetic acid, two drachms, and oil of lemon, five drops. Apply this every night and after a few days the black specks can be easily pressed out, or most of them will even come out by washing with pumicestone soap.

New Designs in Tes Tables. Tea tables continue to grow in favor and to multiply in design. The two latest shown are admirable in every sense and provide for the convenience of the hostess as well as for the beauty of her room. One, the larger of the two, is a combination of bamboo frame and tine porcelain shelves, and the other unites a handsome kettle with a tand and portable tray. They are excellent both in form and general style, and despite their moderate cost a great improvement upon the over-dainty trifles that look too frail to support the weight of cups. Hospitality is the virtue supposed to prompt the existence of a table that is ever ready to offer refreshment to a guest, and it can hardly be saying too much to urge the wisdom of sufficient substantiality to suggest security and sufficient size to allow a generous number of cups.

regulations will be forwarded to the sugar planters and as soon as all requirements have been complied with the money will be paid. It is probable that there will not be enough to pay the full amount intended by Congress. Should that be the case when all the claims are in and tabulated the claims will be scaled down. It will take some months to arrange all these details and Treasury officials do not think they will be completed and the payments made before about the last of the year.

Commissioner Lochren says he has nothing to conceal in connection with the dismissal of one hundred employes of the Pension Bureau, which are to "God gave us meat, but the devil sent us go into effect July 1, and which have cooks," is a trite saying. From bad cookcreated a stir among the friends of those dismissed, because several ex-Union soldiers and Miss Key, a granddaughter of the writer of "The Star Spangled Banner." were on the list. Judge Lochren says of the matter : "In making these selections we took to whom dismissal would not be so great a hardship as it would have been to others in the office, who perhaps did not in some cases stand so high as clerks. In making up the list of those who were to go out we were governed by the desire to keep our best clerks in the office. As to publishing the list, it was on my judgment that it was not given out. And my reason for 663 Main St., Buffalo, N. Y., not doing so was that we did not wish to cast a stigma on any who were thus legislated out of office. It is not against many of these clerks that they were not as efficient as other clerks, and it should not prevent their getting employment elsewhere."

One of the noteworthy features of Harper's Magazine for June is the story of A Frontier Fight, by Gen. G. A. Forsyth, U. S. A., with illustrations by R. F. Zogbaum-a story to arouse enthusiasm in even the most blase of magazine readers. House-Boating in China and Rome in Africa are articles of uncommon interest, and, for that matter, so are The New Czar and The Grand Prix and Other Prizes. Add to these the chapters of two serials, Personal Recollections of Joan of Arc and Hearts Insurgent, and poems and short stories of the highest rank, and still the literary treasures of this Number of the old "new" Magazine are inadequately suggested.

## Did They Sit Up Late Nights?

"Can I see your father for a few moments before I go, Miss Hendricks?" he asked. "I want to speak to him upon a matter of importance.'

'Certainly, Mr. Sampson," replied the girl, with a blush.

A good way to make egg cutlets is to boil three or four eggs for ten minutes, dip them in cold water for a minute or two and strip off the shell; cut off the ends of each egg and divide into four slices, dipeach piece in the well-beaten yolk of an egg, then in bread crumbs rather highly seasoned with pepper, salt and a teaspoonful of very finelyminced parsley; fry in boiling butter until brown, serve with potatoes sliced thin and fried to a light brown; garnish with parsley.

How to Preserve the Table Cloth. The custom of brushing a tablecloth instead of shaking it as formerly has two good points. It does not scatter the crumbs abroad, but collects them tidily. And it does not crumple the cloth, which was sadly mussed at the old time method of clearing the table.
