Judge Krickbaum and wife took a trip to Butler Valley last Wednesday. On Thursday they attended the wedding of their nephew Hiram F. Hillman to a lady who is a Bloomsburg Normal graduate. As Hiram is an editor, Mrs. Hillman no doubt, will become an editress. Well, editors know how to "puft" weddings, but wedding serendizers generally puff cigars.

Rheumatic gout is quite prevalent and seems everywhere about.

"Pan cakes" don't blossom yet, but from information received an immense amount of buckwheat will be sown this year.

A young man by name of Goss, living on D. T. Lutes' farm informed me that he rode eight miles recently in twenty-two minutes on his bicycle. As a summer resort for our city cousins we recommend Cambra, a place of exhilarating atmosphere and salubrious water, also an out of the way town that sets high and dry. No telephone nor railroad connection. Free from collision except on the silver issue.

Healthy, happy children are those whose mothers have been, and are, healthy. The best intentioned woman in the world will fall short of her duty to her children if she is worried and wearied with weakness and sickness. Most all irritable women are sick women. Most all melancholy, listless, languid women are sick women. Every woman who will take the trouble to notice, will find that at certain fixed periods she is nervous, cross, irritable and despondent. Any irregularity makes the conditions worse. Even a well woman is less amiable than usual at these times. What can be expected from a sick woman?

When every movement is a dreary drag, when the nerves are all on edge in sympathy with the particular ones affected—when it seems that death were very much preferable to living—what can a woman do for her children then?

It is every woman's duty to be well and healthy. There is no reason why she should be otherwise if only she will take proper care of herself and take Dr. Pierce's Favorite Prescription when she needs it. This celebrated remedy has been used in the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., of which Dr. Pierce is Chief Consulting Physician and specialist, for over 30 years. Thousands of women have been cured by it and hundreds have written grateful letters.

Some of these letters are embodied in a 168 page book, called "Woman and Her Diseases," which will be sent sealed in a plain envelope on receipt of ten cents (stamp) by WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 653 Main Street, Buffalo, N. Y.

"CELLULOID" COLLARS AND CUFFS are made by covering a linen collar or cuff with "celluloid," thus making them strong, durable and waterproof. When soiled they can be cleaned by simply wiping off with a wet cloth. No other waterproof goods are made with this interlining, consequently no other goods can possibly give satisfaction. Do not forget that every piece of the genuine is stamped as follows:

Insist upon goods so marked and refuse anything else if offered. If your dealer does not keep them you can procure a sample from us direct by enclosing amount and stating size and whether stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

HELPFUL HINTS FOR BICYCLISTS.

- 1. A good bicyclist is careful of his roads, therefore when taking a header be careful not to hit the road too hard with your forehead. You might make a dent in the pavement. 2. In falling off your wheel do not fall on both sides at once. Failure to observe this rule will result in dividing you against yourself. 3. Always be courteous. If the trolley-car has the right of way over the track do not dispute with it. A boy in Massachusetts who broke this rule broke his right arm and his cyclometer at the same time. 4. Be cautious. In riding from New York to Brooklyn keep to the driveway. Don't try to wheel over the suspension cable. You might slip and fall into the smoke-stack of a passing ferry-boat. 5. Keep your lamp lit when riding at night. The boy who thought he was safe because he had a parlor-match in his pocket came home with a spoke in his wheel that didn't belong there. 6. Do not be rough with ice-carts and furniture trucks. If you must run into one of them do it as gently and tenderly as if it were a baby-carriage. 7. A merciful rider is merciful to his wheel, so do not force a bicycle beyond the point of its endurance, unless you want to walk back with your wheel on your shoulders. 8. Keep cool. If in the course of a ride you find yourself in a tight place, with a skittish horse to the left and a steep ravine to the right, and a bull dog directly to the fore, take ravine. You'll go into it, anyhow, and if you take it alone without dragging the dog or the horse after you your chances will be improved. 9. Never use spurs on the pneumatic tires of your wheel. The use of spurs in this manner is likely to leave your bicycle in a winded condition. Spurs are not comfortable, either, in case of a throw. 10. Do not be stubborn with a balky wheel. If the front wheel gets into a rut going east, and the hind wheel in another going west, dismount and argue the matter standing, unless you are tired, and want to lie down by the roadside without making the effort to do so unassisted.

Useful Hints.

A hammock hung according to rule should be six and a quarter feet from the ground at the head and three and three-quarters above the ground at the foot end. The rope that secures the head end should be less than 12 inches and that at the foot should measure four and a half feet. Arranged in this way the lower part will swing freely and the head be kept comfortably by being nearly stationary.

To make a closet door novel and attractive hang on it a good motto in brass or carved wood. A silk or satin banner screen will do if the words embroidered thereon are appropriate.

Lamps are no longer always placed upon the reading table. If wrought iron they can be placed on brackets to the wall. By the aid of a large hook they supply light for a corner over a cozy resting place.

Rugs to be thoroughly cleansed from dirt should be beaten with that useful little article known as a whizzer, which forces from them all particles of dust.

For hands that perspire excessively bathing the hands several times a day with hot infusions of white oak bark is recommended.

The very best way to wash mirrors or window glass is to sponge the surface with alcohol and dust it with whiting, and finally polish it off with a chamois skin or soft cotton cloth. Paint is best removed by alcohol and the friction of a penny, the edge of which is never sharp enough to scratch.

To make a sand bag to use in the place of a hot-water bag: Make a square bag of heavy linen or firm cotton, and fill it with silver sand. A bag of sand retains the heat much longer than water or a brick, and is preferred by some persons. Like a hot-water bag, a sand bag may be fitted into place, so that it is more comfortable than a brick or soapstone. It requires several hours to heat a bag of sand in an oven.

Eggs covered when frying will cook much more evenly.

If you heat your knife you can cut hot bread as smoothly as cold.

Camphor menthol is an excellent inhalant if one is suffering from catarrh.

A little flour dredged over the top of a cake will keep the icing from running.

The white of an egg, with a little sugar and water, is good for a child with an irritable stomach.

Clear, black coffee, diluted with water and containing a little ammonia, will cleanse and restore black clothes.

A large slice of raw potato in the fat when frying doughnuts will prevent the black specks from appearing on their surface.
