Dun's Review of June 29 says:

The half yearly report of failures next week will include about 6,000 against 7,039 for the first half of last year, and liabilities of about \$88,000,000 against \$101,578,152 last year. But for the Cordage concern, the aggregate would be nearly 23 per cent. less than last year, and the manufacturing liabilities 26 per cent. less, but including it the manufacturing liabilities will be about \$40,000,000 against \$11,376,102 last year, and the trading \$45,000,000 against \$52,345,978 last year, while miscellaneous liabilities were only \$2,700,000 against \$7,856,072 last year. The liabilities for the second quarter will be about \$41,000,000 against \$47,813,683 for the first quarter this year, but \$37,595,973 for the second quarter of 1894. Railroad receiverships covers eleven roads with 3,356 miles, \$109,656,410 of indebtedness and \$87,423,531 of stock. Failures in Canada have been about 1,700 against 1,042 last year. Failures for the past week have been 256 in the United States against 214 last year, and 22 in Canada against 35 last year.

Business is better, although the crop outlook, affecting prospects beyond the near future, is a little less distinct. There is more ground for doubt about winter wheat and cotton than a week ago, and threshing receipts are comparatively low, though the prospects for spring wheat are exceedingly good. The price, 1/2 of a cent lower for the week, is beyond mistake too low, if the latest impressions of injury to winter wheat are correct, and receipts for the week are relatively small, but for four weeks have been 5,166,414 bushels against 5,794,528 last year, while Atlantic exports, flour included, have been for four weeks 4,912,729 against 7,444,002 bushels last year. Corn has declined a fraction and pork is steady. Cotton has fallen three-sixteenths to 7 cents, in spite of reports of serious injury by rains in Texas and Louisiana. A little buying by Northern spinners surprises the market, for their takings have been more than enough for the year's consumption, and British returns show a great decrease in exports of cotton goods.

Bills Approved.

A MEASURE SIMILAR TO ONES VETOED BY PATTISON AND BEAVER SANCTIONED.

The Governor on Friday approved a bill which will take from the State annually at least \$75,000. It is substantially similar to one vetoed twice by Governor Pattison and once by Governor Beaver, and provides that one-half of the revenue received from premiums collected in Pennsylvania by fire insurance companies of other States shall be paid by the State treasurer to treasurers of cities, boroughs and townships. The measure has been known as the firemen's pension bill.

In vetoing a bill of this description two years ago Governor Pattison said: "I regard the act as calculated to demoralize and disturb our financial system, to create unprofitable contention and unnecessary trouble, and to afford a precedent for similar legislation, which will detach from our general State system of revenue one after another of the present objects of taxation, and tend to break down the uniformity which should characterize it. I am constrained to believe that the real purpose of this bill is to accomplish indirectly what has heretofore failed by reason of the executive disapproval of measures intended to divert the bonus on insurance premiums to firemen's relief associations organized in the cities, boroughs and townships of the Commonwealth."

The Governor also signed the following bills: To regulate and make more uniform the season for killing certain game in the county of Huntingdon, and to prohibit the killing of wild deer therein between the 15th of December in any year and the 15th of October in the year following, and the killing of squirrels therein between the 1st of January and the 15th of October in any year.

Creating the office of County Controller in counties of this Commonwealth containing 150,000 inhabitants and over, prescribing his duties, and abolishing the office of County Auditor in said counties.

Conferring upon certain insurance, safe deposit, trust and savings companies the powers and privileges of companies incorporated under the provisions of section 29 of an act to provide for the incorporation and regulation of certain corporations, approved April 29, 1874, and of the supplements thereto.

Married.

Earnest E. Miller of Welch, W. Va., and Clara Hine of Bloomsburg Pa. were joined in the holy bonds of matrimony on July 2d by Guy Jacoby Esq., at the residence of the bride's parents on Eighth Street.

Women exchange confidences about their own health and that of their husbands. A man's physical well being is closely watched by a thoughtful wife. It is part of her duty in the world to keep him well. If she sees him running down, she should take measures to stop it. Very few men enjoy being sick. They won't admit even to themselves that they are sick. They will go on losing flesh and vitality—working too hard—worrying too hard—taking little or no care of their health. Maybe they need only a little help to be made well. Maybe a good simple tonic is all they require. Maybe it is something more serious. Whichever it is, it should be attended to. When a man gets really sick, his work stops. He can't tend to business. He loses all he has previously gained. Actual want may stare him in the face. It doesn't pay to get sick, or to stay sick. There's no need of doing either. Dr. Pierce's Golden Medical Discovery will prevent sickness. It is a blood helper and a flesh builder. It restores perfect digestion and insures perfect assimilation of the food. It is a powerful enemy to germs and will search them out in all parts of the body, forcing their evacuation. It has been proven by the written testimony of hundreds of grateful people that the "Golden Medical Discovery" will even cure 98 per cent. of all cases of consumption if taken in its early stages. A book of 160 pages containing testimonials and much valuable health talk will be sent on receipt of this notice and 6 cents to cover postage. WORLD'S DISPENSARY MEDICAL ASSOCIATION, BUFFALO, N. Y.

HASTINGS' SHARP POLITICS.

THE GOVERNOR'S ACTION ON LEGISLATION BELIEVES TO BE DICTATED BY FACTIONAL EXPEDIENCY.

Governor Hastings is believed to have made a ten-strike when he attached his signature to the religious garb bill, so far as his war on Quay is concerned. The Governor had intended to veto the measure and had informed many of his friends of his purpose. This change of base, the Quay people say, was inspired by the belief that it would help him in his fight to reelect Colonel Gilkeson chairman of the State committee. The patriotic orders had made many threats not boding any good to him if he disapproved the bill, and the best way out of the dilemma which confronted him was to sign it. Mr. Bear, of York, the Republican candidate for Senator in that county at the last election, called on the Governor today and assured him that he could count on York for its delegates to the Republican State Convention. Mr. Bear is prominent in patriotic orders, which are strong in his county. The action of the Governor in signing the firemen's pension bill is also regarded as a shrewd move to promote his cause.

The Governor vetoed the Gettysburg battle field book bill, which would have cost the State \$25,000, but signed the firemen's pension bill, which will divert from the State Treasury to borough and township treasuries \$75,000 a year. The friends of Quay, while forced to admit that the approval of the latter will improve his chances to beat their leader, say it was done at the expense of consistency. They also charge that he is using his official position wherever opportunity offers to promote his candidacy and that of Colonel Gilkeson.

How W. Hayes Grier Would Fix Things.

From the Columbia Independent.

"Hastings has created a fight within his own party and if the Democracy have not lost their cunning they can reap advantage from this sowing. But to do so our lines will have to be reformed and strengthened. Commander Wright should be retired. He has lost the confidence of the people by pleading with the governor to sign the infamous electric light bills. Collector Shearer should be bounced and give place to a worthy and efficient Democrat. His home paper, the Carlisle Volunteer, sets him down as a 'bush-whacker' and an aid of the enemy. His removal would add 5,000 to the Democratic vote in the district. Collector Herring is denounced by the Democratic papers in his district, and harmony could be secured there by his removal. And in making these changes the president could do that which he has, so far, forgotten to do—recognize the fact that there are yet a few old Democratic soldiers in this state. Shearer could be replaced by Captain William Penn Lloyd, of Cumberland county, a veteran of the First Pennsylvania cavalry, and an ex-collector and one who had a record both in military and civil life that any man might envy. Herring could be succeeded by Colonel Samuel Wilson of Lycoming county, who was the commander of the grand old Eighth Pennsylvania cavalry, and who served under Collector Staples. These men would add strength to the party, and would give their entire personal attention to the duties of the office, something that is done in this state only by Collectors Bigler and Doyle." The statement that Collector Herring is denounced by the Democratic

papers of this district is not correct. We know of only two which have been hostile to him, and both of these have personal grievances, wanted something they couldn't get or found Herring in their way politically. Herring is a young man, and has forged rapidly to the front, and that is why some of the displeased back numbers don't like him.

DISTILLERIES WILL SHUT DOWN.

DEPRESSION IN THE TRADE WILL CLOSE EVERY PLANT IN THE PITTSBURG DISTRICT.

Before July 10 the forty-eight distilleries in the Pittsburgh internal revenue district will be closed down owing to a serious depression in the sale of whisky. It is customary for the distilleries to close during the months of July and August, but this year they are to be closed for a much longer period. The majority of them and the largest ones will be shut down until January to allow the surplus of whisky that is now on the market to be consumed.

Every distillery in Collector E. A. Bigler's district is to be closed by the date mentioned. About ten will start up in September and the others will get up steam between then and the New Year. At present there is a greater quantity of whisky in the storehouses and in the warehouses of the distilleries than was ever before known. All the places for stocking are filled.

The shutting down of the distilleries will throw 1500 men out of employment. One cause given for the slow sale of spirits is the reputed liquor cure, but the chief reason seems to be that the distilleries are just now feeling the hard times from which the country is recovering. As a rule the whisky manufacturers make their contracts a year ahead. Thus during the hard times the distilleries were working on good time orders. When they were passed the wholesalers and the manufacturers had a surplus on hand and now a suspension is in order until the consumption catches up to the production.

The Pittsburgh district includes the twenty-six western counties of Pennsylvania, or all west of the lines that run east of McKean and Somerset counties, and including Cambria. There are about seventy gaugers and clerks in the internal revenue service, half of whom will be laid off. The production of spirituous liquors for the year ending the 1st of June in this district was 4,894,376 gallons.

Governor Hanged In Effigy.

HAZLETON PEOPLE ANGRY OVER THE QUAY COUNTY VETO.

When the citizens of Hazleton went out upon the streets Friday morning they saw an effigy of Governor Hastings dangling in the air at the corner of Broad and Wyoming streets. This was the result of his Quay County veto.

A placard was attached to the effigy bearing the inscription: "This is the dead duck who vetoed the Quay County bill." Hundreds of people thronged the corner in the early hour of the morning to take a view of the figure.

Mayor Altmiller and Janitor Eidam cut down the figure at 11 o'clock and took it to the station house.

The citizens of that region are greatly excited over the action of the Governor. At Freeland, about nine miles from there, one of the strongholds of the anti-Quay men, a large demonstration took place. It was the intention to burn the Governor in effigy, but the authorities removed the figure before the programme could be carried out. Several of the most prominent citizens of Hazleton have sent messages to the Governor denouncing him in severe terms for the action he has taken on the new county bill. The newspapers also speak in severe terms. The general opinion is that he vetoed the bill to satisfy his political ambitions.
