SILVER DEBATE ENDED. MRS. CONNER'S MURDER

Final Utterances in the Great Fi- Further Evidence to Fasten the nancial Controversy.

OUR NATION'S SILVER PRODUCT.

Both Disputants Agree That It Is Small in Comparison with the Wealth of the World - Mr. Horr Says Free Silver Would Drive Gold from the Land.

CHICAGO, July 30. - The last day of the Horr-Harvey debate opened yesterday ofternoon. The day's attack was directed at the question of the feasibility of independent action by the United States for the remonetization of silver and its free and unlimited coinage at a ratio of 16 to 1 with gold, regardless of the acts of other nations, Mr. Harvey arguing for such ac-

tion, Mr. Horr against it.

Mr. Harvey presented a table showing the coinage of gold and silver from 1792 to 1878. He did this to show that gold did not seek the mints for the first fifty years of the nation, and that silver did not from that time till 1873.

Mr. Horr declared it was useless to try and fix the relative value of any two substances by legislation. The law of supply and demand stopped in there, and the history of the world's legislation showed that it was impossible to maintain a fixed ratio between the precious metals.

Mr. Harvey said that gold was frregularly produced and was hearded by the few rich. Silver, on the contrary, when more valuable than gold, was hoarded by the mass of the people, thereby conferring a general benefit. It was for this reason that sliver had been a more stable metal in the past than gold.

Referring to Mr. Harvey's statement

reduce debts by one half, Mr. Horr said that by far the largest part of the debts in the United States were less than one year old. The short time debts were contracted under the exporting gold basis, and to reduce them one-half would be to repudiate that one-half.

Mr. Harvey said the gold advocates feared that debts contracted in gold would be paid in silver, and the man who had stipulated to pay in gold would have to buy it at a premium. This was fallacious. If at the next general election a bimetallic congress should be elected, the rubicon would be passed the next day. Silver would at once begin to appreciate and gold to depreciate, but it would be at a parity before the meeting of congress.

Mr. Horr said that the savings bank depositors had \$1,712,000,000 on deposit, which it was proposed to cut in two. Building and loan associations had 1,725,000 depositors, with an aggregate of \$525,852,000 due them. In addition to these were the trust companies, life insurance companies and state banks, all of which were to lowed to pay in depreciate money. All of this for the benefit of 20,000 silver men. Why, their output was not worth half as much as the eggs yearly laid by the hens of the United States, and was about equal in value to the peanut crop. But the worst feature, he asserted, would be the destruction of all credit. It would bring about the worst panie the nation ever

Mr. Harvey thanked Mr. Horr for the Illustration as to the small amount of sil-

ROSWELL G. HORB.

ver in the United States. That was the claim of the silver men. There was no danger but that the demands would soon absorb it. The nation could take all the silver which uations of the world would bring to us in exchange for products in a single year.

Mr. Horr, in turn, said he spoke before not of the quality of silver in the country in comparison with eggs, but of the an nual output of silver. There was a con-siderable difference in the staying quali-

ties of silver and of eggs.

The trouble, Mr. Horr declared, was that with free silver coinngs gold would leave the country and our business would be on a basis different from the rest of the world.

Mr. Harvey declared he was in favor of independent action by this country because it would right a great wrong.

Mr. Horr then proceeded to argue in be half of the single standard of money, say ing that the stability was its chief merit, and a stable measure could not be main tained with two standards. Gold, he said, was the standard of the world, and had come to stay.

Turning to Mr. Harvey, Mr. Horr said e wanted to reciprocate the courtesy of Mr. Harvey in presenting him (Mr. Horr) with a silver dollar. Mr. Horr said he proposed to present Mr. Harvey with two coins of different metals, because Mr. Harvey was a bimetallist. Mr. Horr then handed over two Chinese coins, one of silver worth twenty cents, and one of copper worth one will, and proceeded to say that the nation which struck these coins had a silver standard. Its inborers were paid \$3 per month; its people did not ride in carriages; its civilization had gone to sleep. The silver soin presented him by Mr. Harvey was struck by a progressive nation. It

Crime on H. H. Holmes.

IMPORTANT LETTERS DISCOVERED.

Holmes Wrote Letters to the Dead Woman's Relatives to Deceive Them as to Her Whereabouts-The Prisoner Will be Tried for Murder to Philadelphia.

CHICAGO, July 26.—More proof was found yesterday that Julia L. Conner is dead, and that she was made way with by H. H. Holmes. It was determined that she disappeared before June 9, 1802—an Important factor in the search for her. As late as November, 1892, Holmes, as shown by the letters which have been found, was writing her parents as to her whereabouts, and stating that she had gone to St. Louis. But on June 5, 1893, he wrote to her brother in law, Ira Yantis, of Watkesha, Wis., giving him a fictitious address as to her whereabouts in St. Louis.

Yantis wrote back to Holmes on June 9, and this letter was found on Wednesday. At that time Yantis had no suspicion that Holmes had made away with his sister-in-law, and supposed him to be her This letter was written weeks before the one in which I. L. Conner accused Holmes of breaking faith with The later letter refers to his daughter Pearl. From this it would appear that Mrs. Conner was killed first and the child

I. L. Conner, the husband of Julia L. Conner and the father of Pearl Conner, both of whom are thought to have been mardered by Holmes, was in Chicago yesterday, and The Inter-Ocean today publishes a long interview with him. He has no positive proof that Holmes killed his wife and child, but says he believes such to be the case. He does not know when the crime was committed, but thinks it was done in this city. Conner's story coutains practically nothing but what has

been published. Last evening two well dressed women called on Chief Radenoch and told him that a 16-year-old girl, a daughter of wealthy and respectable parents, had be-come acquainted with Holmes during the fall of 1893, and afterwards disappeared. Now that Holmes' erimes have been exposed her parents believe that their daughter was one of his victims. Chief Radenoch will investigate their story. Until he has fully corroborated it, however, he says he will not disclose the girl's name.

Holmes to be Tried in Philadelphia.

PHILADELPHIA, July 26 -- District Attorney Graham decisively announced this morning that H. H. Holmes will be tried in this city for the murder of Benjamin F. Pitozel in the Callowhill street house, In view of the fact that the district attorney has said that Holmes would be tried wherever the strongest case could be made out against him, it is believed that the authorities here have recently learned more important details of the crime, which insure the accused man's conviction. Information as to whether or not this sup-

The Youthful Matricide Held.

LONDON, July 26. - Robert and Nathaniel Coombes, aged respectively 13 and 11 years, who murdered their mother about three weeks ago by stabbing her while she was asleep, and lived ten days in the house with her decomposing body, were arraigned in the police court yesterday. The evidence developed that the elder boy, Robert, did the stabbing and the magistrate committed him and the half witted man. Fox, who was arrested with the boys, for trial on the charge of murder, and held Nathaniel as a witness.

Negro Colonista Starving.

El Paso, Tex., July 26.—Parties from Mexico report sickening and fatal destitution among the negro colony near Mapimi. Two hundred who escaped are all but starved. Of 400 or 500 left in the colony 800 have smallpox. Fugitives are shunned by Mexicans and driven from settlements. There is frightful mortality among them.

Taylor Brothers Again on Trial. CARROLLTON, Mo., July 26.—The second trial of W. P. Taylor and George E. Taylor, for the horrible murder of the Meeks family, near Browning, on the night of May 10, 1894, began here yesterday. There are 400 witnesses in the case, and they are about equally divided between the two

sides. STOCK AND PRODUCE MARKETS. Closing Quotations of the New York and

Philadelphia Exchanges.

New York, July 25.—The stock market was irregular again today. Some of yesterday's losses were recovered, and in several instances slight gains were made on the day's transactions, but a majority of the stocks dealt in closed at declines from the final figures of last evening. Closing bids:

Both fildes Determined-Sixteen Thousand Workers Already Out.

NEW YORK, July 30 .- The strike of the Brotherhood of Tailors is in full swing. Sixteen thousand hands are out, and of the total number on strike \$ 000 were until Sunday morning employed in this city. Meyer Schoenfeld, the general organizer of the United Garment Workers, who led the Brotherhood of Tallors in their successful strike last fall, is directing the strikers' movement, and is sanguine of

"The strike was forced upon us," said Mr. Schoenfeld, "but we will win, as we did last year. We then agreed to a week of sixty hours, with a minimum scale of wagesgranging from 89 to \$15 a week. We now demand a fifty-nine hour week, as all our men are Hebrews, and we require an hour on Friday night to do necessary shopping to prepare for the due observance of our Sabbath. Our men in Chicago, Balttmore and Boston will also strike, and insist on the same hours as we do.'

The strikers are most determined, the women, who number a third of those now unemployed, being as steadfast in their refusal to go back to task work as the

The Clothing Contractors' Mutual Protective association held a meeting last evening, at which 350 contractors were present. Resolutions were adopted, consenting to accede to the demand of a liftynine hours' week, provided the contractors be in a position to judge who are entitled to the existing scale of wages, and also de-clining to allow walking delegates to interfere with the operatives.
Secretary Witkowsky, of the contract-

ors' association, denies that the men were locked out. He says the brotherhood is responsible for the strike. "We have," he "been always willing to meet the the demands they now make."

A meeting of the garment trades council of the Knights of Labor, composed of fifteen local assemblies, was also held. Afterwards the secretary, Abraham Kuntz, made a statement regarding the policy of the council. Its members say frankly that they distrust the leaders of the brotherhood, and want nothing to do with thom, but if necessary they also will go out to help the strike along, and to enforce the agreement of last July,

A Knight of Labor a ran an argument with a number of the likers in a saicon adjoining Walhella ha L. He was at once set upon and badly beaten.

A small riot also occurred outside the tailor shop of Jacoba & Sons, Grand and Orchard streets, where several non-union men are employed. The strikers threat-When their manifestations of violences became apparent they were driven off by the police.
The striking tailors of Brooklyn met to

determine what course to pursue, and expressed their determination to remain out until the master tailors granted their demands. About 1,000 strikers assembled on Siegel street and paraded through that thoroughfare. They stopped in front of several boss tallor shops and tried to induce those who had not already joined to come out. They were generally successful. There was some rioting yesterday, several non-unionists were severely

Many Governors to Meet.

WASHINGTON, July 30. - The Chicksmauga park commission has received notice of the contemplated attendance of twenty governors of the states with their staffs at the dedication Sept. 18, 19 and 20. Most of these will be accompanied be-sides by leading elective officers of the state governments and representatives of the legislatures. The state commissions of twenty-six states are also expected. The twenty governors concerning which this information has been received are Massachusetts, Rhode Island, Connecticut, Vermont, New York, Pennsylvania, Ohlo, Michigan, Wisconsin, Illinois, Minnesota, Indiana, Missouri, Kansas, Mississippi, Louislana, Alabama, Georgia, and South Carolina.

Advance in Welsh Tinworkers' Wages. WASHINGTON, July 30. - Consul Anthony Howells, located at Cardiff, has furnished the state department a report of the tin plate trade of South Wales, Mr. Howells says that this trade is emerging from a crisis which had reached an acute stage on the first day of this month, when the notice to terminate contracts on the part of the men expired and work was consequently suspended at nearly all the mills. The demand made was for a restoration of the former wage scale, which was vitually conceded, resulting in an increase in wages of from 10 to 2234 per cent.

Forest Fires in Michigan Again.

GLADSTONE, July 30 .- Extensive forest fires are raging to the northwest of this city, and considerable apprehension is felt for the "Soo" Rallroad company's round house and the plant of the Washboard company. A strong gale is blowing from the northwest, and unless it stops soon, or shifts, considerable property will be destroyed, as much of it lies beyond the reach of the city water plant. It is feared that it will reach the farms, in which case much suffering will be caused.

HUNTINGTON, L. I., July 30 -The annual cruise of the New York Yacht club was begun yesterday with a run from Glen Cove to this place, and there were many pretty races on the way. The chief interest centered in the contests between Defender and Vigilant, which form part of the fleet. Although it was clearly Vigilant weather, the new yacht again showed her superiority on every "tack.

READING, Pa., July 29 .- Charles Williams, aged 36, and Philip Wedner, 26, had a street fight here yesterday during which Williams out Wedner in the abdomen so badly that his intestines protruded. He will probably die. Williams claims the cutting was done in self defense, but this is denied by eye witnesses. The fight was the result of an old grudge.

To Push the Panama Canal. Colon, Colombia, July 30.—According to present indications work on the Panama canal is going to be pushed with vigor. A director of the canst has announced that 5,000 laborers are required for work on the incompleted intercceante waterway, and that the wages to be paid are \$1.20 in Colombia currency per day.

NEW YORK'S DRY SPELL

THE POLICE SAY NEXT SUNDAY WILL BE THE DRYEST EVER SEEN IN THAT CITY.

New York, July 30 -The city rigilance committee having published the statement that on last Sunday fully 50 per cent, of the saloons in this city did business, free from police interference, Commissioner Roosevelt said to day that the excise law was being vigorously enforced Police Captain Westervelt, in whose district it was said the law was more openly disregarded than elsewhere in the cay. said that his district was as dry as it was possible to make it last Sunday, but that he would eventually have it dryer. He added that he had secured the aid of private citizens in the dis dovery of violations of the law and that he believed that the same system would be adopted in all of the precincts next Sunday and that it would be the dryest day that the city has ever seen. He denied absolutery that ON TUESDAY OF EACH WEEK. fifty per cent. of the saloonkeepers of the Hours of the norming. From 1 o'clock to 4 in the atternoon, and troop to 6 in the evening, day.

When a person is losing flesh and wasting away there is cause for alarm. Nothing so worries a physician. Con sumptives would never die if they could regain their usual weight. fact there would be no consumption if there were no wasting of the system. The cause of this loss of flesh is a failure to properly digest the food eaten. Nine tenths of all our diseases date back to some derangement of the stomach.

The Shaker Digestive Cordial will stop this wasting of the body. It acts by causing the food we eat to be digested so as to do good, for undigested food does more harm than good. The Corchal contains food already digested and a digester of foods as

Every mother hates to make her children take Castor Oil. Laxol is sweet Castor Oil.

The Japs as Jokers.

The Japanese are a very polite peo-ple, but they sometimes like to play a joke in a roundabout Oriental way upon the men in the West. In the days of the Second Empire Baron Gros was sent to Japan to demand the opening of certain ports to French commerce. Among the rest he named to the Japanese Ministers a certain city. The Japanese funcionaries smiled so broadly when he preferred the request that the French Ambassador asked them to tell him what gave them so much amusement, but instead of answering the Japanese Ministers said:

'We will open the port in question, my lord, if France in turn will open a certain port to us." "What port is that?" asked the

Frenchman. "The port of Liverpool." "But, you excellencies"—laughing—
"Liverpool is not a French port, but

an English one." "Yes," answered the Japanese, "and the port you named is not in Japan, but in Corea.'

The French Ambassador was compelled to admit the joke was against him.-Tid-Bits.

The Fish First. A Scotch laird recently invited an English friend to stay with him for some fishing. One day the Englishman, who was a novice at the sport, hooked a fine salmon, and, in his ex- 3.15. citement, slipped and fell into the

The keeper, seeing that he was no swimmer, hooked on to him with the gaff, and was about to drag him ashore when the laird called out: "What air ye about, Donald? Get

Three Wants.

" Reason's whole pleasure, all the joys of sense. Live in three words, health, peace, and

competence." So says the poet. Competence counts for little when one is sick, and peace is disturbed when health is upset, so that the poet rightly places health first. To have good health you must have pure blood. From the blood the system receives all the material of growth and repair. The best blood-purifier is Dr. Pierce's Golden Medical Disovery, which is world-famed and sold everywhere. It is a sovereign remedy for all diseases due to impoverished or impure lood, as consumption, bronchitis, weak ungs, scrofula, old sores, akin diseases, and sindred ailments. Jan Just Kallin VI 11

CONSULTATION FREE.

Many years' experience has taught him that nearly all aliments can be cured or greatly selped. The diseases he treats are Consumption, all Bronchin Affections, Loss of Manhood, Grooged Limbs, Way Necks. Betremess, Sensitia Sait Rheum, Syphilis, Eve and Ear Diseases, Skin Diseases, Nouraigia, Bright's Diseases, Skin Diseases, Nouraigia, Bright's Diseases, Skin Diseases, Nouraigia, Bright's Diseases, Checcs and Out Sorces of every description, Rheumatism, either acute or chronic, Sick Head ache, Epilepsy, Gastetts, Congestion, Oanker, Tonstituts, Deatness, St. Vitus' Dance, Inopediment of Speech, Loss of Voice, Stattering, Canner of the Stomach, Elies, Jaundice, Constipation, Billousness, Dysenter's, Chronic Blorthon, Chills and Fever, Fiscula, Fillous Golic, Faralysis, Heart Disease, Intestinal Worms and Liver Compilations.

However, I. must be remembered that he will not undertake to treat all cases, Sut only those which he is positive can be curred or greatly relieved, and will tell you at once which, Gather, can be accomplished.

Dis. MacTAGGART is the only specialist this side of New York, Philadelphit, East Buffalo, who makes an exclusive speciality of treating Chronic asses and the Disease of Voices Should call at once and learn whether their alment, can be curred or not. No cases received unless they can be cured or greatly helped.

What Dr. MacTaggart

can be cured or not. No cases receive they can be cured or greatly helped.

The Doctor wishes the public to anderstand that he is not soliciting the ordinary run of cases, but desires have such discussed to treat that other physicians cannot succeed with or at least full to cure. When you suffer from such consult its (consultation is free, have him thoroughly diagnose your case, and then what he relis you can be relied upon as a fact beyond refusation. Some may say, "Why go to Dr. MacTaggart when we have as good doctors here as anywhere?" Yes, so you have in their line of practice, but not in those succlaities that Dr. MacTaggart is schooled and practiced in. In zupport of this unqualified assertion read his testimonials—not only read them, but investigate the truthfulness of them. Where are the physicians who can remove camers without pain and cure it beyond peradventure? He does it. Where can you find another physician in Fennsylvania who can remove tumors of even 60 pounds weight without the use of the kaffe, without pain, and without leaving a scar? Dr. MacTaggart does it. What physician can cure fisculas without cutting or causing the least pain or soreness during treatment. Dr. MacTaggart does it successfully. These are golden truths—golden because it proves beyond dispute that the science of medicine in specialties particularly. Is advancing with rapid strides far in the lead of the regular practioner. HAS DONE AND IS DOING.
