CENTRAL.

It has been quite a while since you have been written the news from this place. The summer is almost gone, although we are now having the hottest weather of the season.

The bark peeling is done. The Pentecost Company peeled about six thousand cords; Mr. Brady, for the Tanning Company, about a thousand.

I suppose you know all we Central folks like to fish. Well, since the trout season ended a number of us have taken a trip to the ponds.

Our little village is all peace and quietness, and our Hotel is being run on first class principles, and is gaining patronage every day.

The campmeeting passed off the most pleasantly it has for years. The scribe attended on Sunday morning, and he says the sermon of Rev. Buck, with the splendid music put forth, was worth any intelligent persons time to listen to.

This was an off year for politics. Poor attendance at either caucus—especially the Republican. Mr. Stephens came and waited when darkness was near at hand, and concluded to go home.

Killed While Playing Indian.

Another boy has been sent to the grave playing Wild West. A number of lads were playing at killing Indians, recently, in Mehoopany township.

The Uncertainty of Life in a Sailboat.

Near Ocean City, Md., a party of ten, (comprising six women and four men) bent on the pleasure to be found in a boat ride and a "fish-fry," were panic stricken and capsized.

The party was under the direction of William Hudson, who had taken them out in a small pleasure boat which scarcely afforded accommodation for half their number.

When about two hundred yards from shore, in water about seven feet deep, Hudson attempted to tack, probably for the purpose of returning. The boat keeled so that the women in the party became frightened and two of them sprang, with screams of terror, to the windward side.

Hudson placed the two Hall girls on the overturned craft and swam to the assistance of Miss Stevens, but before he could reach her, she, too, disappeared beneath the waves.

Hudson and two young ladies, who were also in the boat, were rescued by a fisherman. Hudson, the skipper, protested to Mr. Storrs against the party crowding into his small boat, which could only carry comfortably four persons.

"Oh, there is no danger. The water is shallow; we are close to shore, and the wind is light." Before entering the boat Mrs. Storrs took her husband's gold watch, over a hundred dollars in money and their rings and other valuables and tied them in her apron.

"Sugar," remarked Johnny, as he lifted several lumps to his open face, "has reached the top notch, and a drop may be expected."—Life.

Like an open book, our faces tell the tale of health or disease. Pain and suffering and wrong living write their history on our features in unmistakable lines.

generally traceable to a common source—impure blood, and impure blood starts in the digestive organs.

That most dreadful disease—consumption is what is known as constitutional. It is in the blood. In reality, it is scrofula of the lungs, and it can be cured 98 times in 100 if proper treatment be taken in its early stages.

Dr. Pierce's Golden Medical Discovery purifies the blood, stimulates digestive action, searches out disease-germs wherever they exist and puts the whole body into a vigorous, strong and healthy condition.

Obituary.

The sad intelligence of the sudden and unexpected death of Maggie Odessa Tilly, caused not only the immediate family to be startled, but also the entire community. The family were encouraged by the physician, that she was slowly convalescing, and they need not have any alarm as to her condition.

Republican Harmony With a Club In It.

It is said that Senator Quay was forced to take issue and act in the role of an opponent of our great corporations. And it is further said that his speech in the convention will be sensational; nor will his fight for the lowly as against the lofty be ended should he be turned down in the convention next week.

"The devil got sick, and the devil's saint would be."

Then the devil got well, and a devil of a saint was he."

A Threatened Disruption.

The Philadelphia and Reading Railroad Company will as miners of coal make no concessions to others in the coal combine; but it persistently demands 21 per cent. of the output of the anthracite coal.

"Our position is unchanged and no concessions will be made." Regarding a report that a movement was on foot to settle the existing difficulties, he said he knew nothing of it and that so far as Reading was concerned the situation was precisely as it stood four months ago.

But the consumer don't want to congratulate himself too soon about the prospects of cheap coal this winter.
