COUNCIL MEETING.

The regular monthly meeting of the Town Council was held in the City Hall Tuesday evening of last week, all the members being present. After the minutes of the previous meeting had been read and approved, S. D. Neyhard appeared and stated that the citizens owning land on Fourth Street between West and Railroad desired to build and lay pavements. That it was impossible to do any filling until they had the proper grade. On motion the Town Engineer was instructed to give them the grade. He also wanted the council to put a crossing over Fourth Street on the east side of West Street. Referred to committee on highways. The bond of J. K. Bittenbender Tax Collector was approved.

Bond was in the sum of \$7500 with J. G. Freeze and Grant Herring Esqs. The amount turned over for collec tion as security was \$5895.41. He stated that he had sent thirty days notice to a lot of parties who still owed their taxes for 1894 amounting to \$600 requesting payment and that he had called upon them and had failed to receive a dollar and asked the council for instruction. He was informed that the council had nothing to do with the matter. They needed the money, and he must collect it. The old trouble between Jacob Deiffenbach, and his neighbor Daniel council nearly every meeting. Deiffenbach alleges that there is stench aris-Kashner makes the same charge against him.

It seems there is some private trou ble between these parties and Councilman Lockard informed Mr. Deiffenbach that they were not elected to settle private disputes. The matter was referred to the Board of Health Wilson the Secretary was instructed to prepare a resolution so as to enable the Town to issue bonds bearing 41 per cent. interest to the limit allowed due this year, bonds in the sum of \$9900 could be issued. The committee to procure supplies for the Wynona Fire Company reported that they had attended to that duty.

The Committee on Light was instructed to wait upon the Electric Light Company and ascertain the lowest price for which they would light the Town for one year to report road J. L. Richardson stated that it would be necessary to excavate 955 cubic yards of earth and offered to Council.

etition asking for a crossing over West Street on the north side of Fifth Street. Referred to committee on highways. Mr. Gorry made a motion which was seconded by Mr. Wilson that immediate steps be taken to open Jefferson and North Streets. The vote was follows: Aye-Gorry, Wilson, Hartman. Nay-Lockard, Knorr, Kester. President Creasy cast his vote in the affirmative.

A question arose as whether the motion had been properly carried and Creasy withdrew his vote to give him an opportunity of examining into the question. This matter drew out con-siderable discussion. Creasy in explaining his reason for voting in the affirmative said "that he did not want to throw the Town into debt but thought the streets should be opened. The fact that he lived in the vicin

ity of Jefferson Street did not influence him. Several of the members wanted to know where the money was coming from, and upon intimation that the money realized from the sale of the new bonds would be used, President Creasy said that it could not be used for that purpose.

Street Commissioner Housel 1eported that the following pavements should be raised, Mrs. Wyncoop on Centre Street, James Sterner on Fifth Street, Funk & Billmyer on East Street, Edward Harrar on Fifth Street and E. R. Ikeler on Second Street. oftentimes a very offensive discharge. Secretary was authorized to notify

them to raise the same to grade within 30 days. The following building permits were granted: N. S. Pursel Bruglar's alley, Jacob Lauer, West Second Street, E. C. Wells, Fifth Street.

Practical Poultry Papers.

select what meets their physical refowl travels immense distances in effect, before it gets all the food it Grain grows high on slender stalks, swayed by every puff of air. A hen, would have to jump up and down unto stop long before she could fill her by law. By re-issuing those falling crop. The lesson of this is, whenever and wide among short dry litter of some sort, so that they will have to better, as this furnishes healthful exercise. Wheat, barley, oats, and corn, named in the order of their value, are good poultry foods. Wheat heads the list as richest in the phosphatic, minat a special meeting to be held eral, and nitrogeneous principles so October 24th. In regard to the necessary for building up and repairexcavations &c on the Light Street ing the waste to which the lazy hen is subject.

In summer fowls in confinement need plenty of green food. If the remove it for 20 cents per cubic yard. "runs" are sufficiently spacious to keep After considerable discussion it was up a supply of grass it will be a great referred to the committee on highways. advantage, otherwise it will be well to Upon motion the Town Solicitor buy periodically supplies of fresh was instructed to draft a resolution in grass and clover to be chopped up regard to the death of the Hon. fine; also to have all the vegetable William Elwell and that the same be remnants from the kitchen boiled and L. S. Wintersteen Esq., presented a bran, boiled vegetable peelings, and etition asking for a crossing over entered upon the minutes of the chopped for the fowls. In the early other remnants, such as bread, meat, and scraps from the table. Scald the middlings and bran, and then incorporate with the vegetables; add a heaping teaspoon of salt for twenty-four hens. Let this meal be made damp, not sloppy, and allow a tablespoonful to each fowl. Middlings contain all the phosphates and the principles of the best wheat kernel, and therefore it makes a fine egg-producing food. At noon, if the "runs" do not produce enough grass, give fine chopped grass and clover, and if worms and insects are not accessible, twice a week finely chopped meat. Before sunset give the heartiest meal of the day-a grain supper, wheat one day, oats the next, then barley; but no corn for laying hens in summer, as it is too fattenning and heating .- Harper's Bazar.

Use it in Time.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the the Philadelphia end of the combine. mucous membrance. Neglected colds in the head almost invariably precede catarrh, causing an excessive flow of mucus, and if the mucous discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears and Ely's Cream Balm is the acknowl edged cure for these troubles.

Great Boom in Lace Making. Republican Calamity Howlers Said the Mil-

Would Have to Close.

During the late tariff discussion, information received from Wilkesbarre states Republican orators claimed that if the McKinley bill was repealed, the Wilkesbarre Lace Factory, the largest plant of its kind in the country, would have to suspend operations. Just the contrary has happened. The mill was never so busy as it is now, and owing to the increased demand for the products of the mill, an order was placed recently with a New England manufacturer for 8000 new spindles and other additional machinery. This addition will increase the capacity 50 2.00 per cent.

A KINGDOM FOR A HORSE.

The fair always leaves in the mind of some people, a desire to own a fast horse. If they happen to be the own er of one, it must develop more speed, and if they are not so fortunate they are not satisfied until they secure one. 3.75 One of our business men caught the fever a few days since, and he was just in the midst of receiving the congratulations of his friends over his acquisition, when he received the intelligence that, his newly acquired horse and its former owner were going toward Espy as fast as the thoroughbred runner could travel. Horse deals were at a discount in a minute. Perhaps it might be intersting to know just how he came to be possessed of the animal, and by what means he nearly became deprived of it. Tuesday afternoon, October 15, the business man referred to, received a visit from a colored man who informed him that he had shipped a running horse to Bloomsburg on Wednesday October 9 which he had intended entering in the races at the fair, but that when he arrived on Thursday the entries had closed and the Penna. R. R. Co. had levied on the horse for the freight due on its transportation from Harrisburg. That he desired to take the animal out of the hands of the officers, and return home to secure money to pay An important factor toward success the costs, and the keeping of the ani-Kashner in regard to a pig pen re in keeping poultry is proper feeding and to this time. That the amount of money necessary to do all this was old matter which has been before the free range of wood and instinctively about \$30, which, if the said business man would advance him, he would quirments. Under ordinary circum- leave as security the horse, blankets, ing from Kashner's pin pen, and stances, in a condition of freedom, a saddle and his watch. The fellow appearing to be honest, and the security ample, he sent one of his clerks with needs, being on foot all day. The him to pay the bills, and take the nearer one can come to nature in horse to his stable. Everything went treating poultry in confinement the off according to program until it came better. Nature does not feed in bulk. to the point when the horse was to be delivered, when instead of doing that he gave him a cut and started up the Committee. On motion of Gorry and if she had free access to growing oats, Espy road on his back. The clerk who was in a buggy, went in immeditil exhausted before she could eat oats ate pursuft, and the way old "Bob" to repletion; indeed, she would have took him up the road was a caution. At Espy, inquiries were made as to the direction taken by the man, a new you feed grain to fowl, scatter it far horse secured, and with the assistance of two men the chase was continued. He was finally captured on the hill hunt and scratch for it, the more the back of Espy, brought to that place, and the business man informed by telephone that the man and horse had been secured. It was subsequently brought to this place, and is now safely housed in a burglar proof stable. No other horse dealers need apply.

Note-Since the above was written the business man referred to, has received the money advanced by him, and the horse has been turned over to a party in Light Street under the same conditions.

Treatment of Eczema and Salt Rheum.

These two complaints are so tenacious that the readers of the COLUM BIAN should know of the success obtained by using Dr. David Kennedy's

Perhaps no more horrible case of Salt Rheum was ever reported than that of Wilbur L. Hale, quartermaster, Pratt Post, G. A. R., Rondout, N. Y. Several physicians utterly failed to render him any relief; finally one of the physicians suggested that Dr. Kennedy's Favorite Remedy be tried and steady improvement followed its use, and a permanent cure resulted.

It is used with similiar success in cases of scrofula, nervousness, kidney and liver complaints, and in all diseases brought about by bad blood and shattered nerves.

The water is now all out of the Ebervale mine, the tunnel having successfully emptied the mine which was flooded eight years ago by the breaking in of a creek. The mine will be reopened at once.

It is now given out that Quay and Hastings have buried the hatchet, and that both are gunning for Magee and

A Minister's Experience With Heart Disease.

Rev. L. W. Showers, Elderton, Pa.: For many years my greatest enemy has been organic heart disease. From uneasiness about the heart, with palpitation, it had developed into thumpng, fluttering, and choking sensations. Dr. Agnew's Cure for the Heart gave instant relief. A few bottles have rid me of almost every symptom of heart disease. It is a wonder-worker." Sold by Wm. S. Rishton. 6-15-1y.

Printing in Colors.

The prices of colored printing inks have gone down with everything else, and it costs no more to do printing in colors than it Joes in black. THE COLUMBIAN office is prepared to print in any of the following colors: Black, orange, deep cherry, brown lake, light blue, ultra marine blue, bronze red, violet, dark red, green, jacqueminot, purple, garnet, peacock blue. Printing in more than one color is done at a slight advance for the additional

TAKING CHANCES.

WOMEN ARE CARELESS.

They Over-Estimate Their Physical

Strength. Advice to Young Women. [SPECIAL TO OUR LADY READERS.]

Women are very apt to over-estimate their strength and overtax it. When they are feeling particularly well, they sometimes take chances which in the long run cause them much pain and trou-ble. This is due largely to their not fully realizing how delicate their sensitive organism is. The girl who has just become a woman can hardly be expected to act wisely, everything is so new to her. She, however, should be told; and every woman

should realize that to be well her "monthly periods" should be regular. Wet feet, or a cold from exposure, may suppress or render irregular painful the menses, and perhaps sow the seed for future ill health.

Lydia E. Pink-Compound will ever be the unfailing remedy in such cases as well as all the peculiar ailments of women. Millions of women live to prove this. Mrs. M. L. Verrill tells plainly what it has done for

her:"I will write you a few lines to tell you what my troubles were before taking Lydia E. Pinkham's Vegetable Com-pound. It was the same old story, my back and lower part of my abdomen and painful menstruction. Of course it

ness. The doctors (I have tried five different ones) called it chronic inflammation of the womb.

rhosa for over eight years, ulcers on the neck of the womb, terrible headaches and backaches. Your medicine completely cured me." - MRS. M. L. VERRILL, 223 Newell Ave., Pawtucket, R.I.

A Great Offer.

The "Twice-a-Week" edition of the New York World (formerly the Weekly) has proved a phenomenal success. It is a Semi-Weekly of six pages, mailed Tuesdays and Fridays; eight columns to the page; torty-eight col-umns each issue. It gives the news fully half a week ahead of any weekly paper, and, at the same time, retains all the literary, agricultural, miscellany and other features which made the Weekly World so popular. Yet the price is only \$1.00 a year. For sample copies address The World, N. Y.

Arrangements have been made by which we can furnish this paper and the Twice-a-Week New York World all for \$1.75 a year. Take advantage of this offer and get your own local
