Benton Sunday School Insnitute.

Mr. W. R. Kocher, one of the leading Sunday School workers in the county, as per agreement, secured a special train to leave Bloomsburg for Benton on Saturday evening at 6.30, and with a congenial crowd of fifty or sixty we arrived at Benton on time, 7.30, and found the pretty M. E. Church packed from the pulpit to the back door, with many unable to gain admission. The services began with a praise number for 30 minutes conducted by F. B. Hartman with Mrs. Fred Holmes as organist, assisted by the Y. M. C. A. orchestra of our own town of which we are all proud.

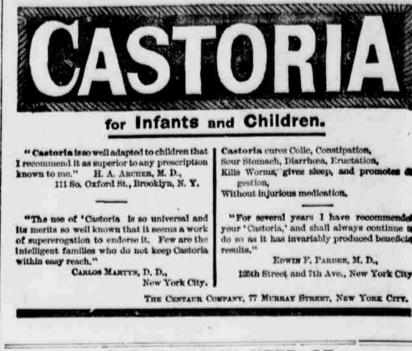

Messrs. H. V. White, S. C. Creasy and Prof. C. H. Albert gave interesting and profitable addresses, alternated by selections from the Male Quartette, bass solo by O. H. Yetter, duet by Miss Hattie Ringrose and Ed. Ent, and a sacred selection by the orchestra. Our party was pleasantly looked after, and made to feel at home by kindness shown us by Revs. Hutton and Owens, District Prest. R. T. Smith and Supt. Edwards. We all feel it was good to be there.

The pavement and street in front in front of their place of business. It consists of about one hundred and fifty incandescents lights which are placed against the front of the building in such a manner as to spell the

following Nov SALES. They come on, and off automatically. Some times the whole sign is visable, then all is dark. The letter N becomes visable, then O and so on until the whole sign is ablaze.

It is the most unique arrangement in the way of a sign ever displayed in the town, and the whole thing is in perfect keeping with the snag, push, and enterprise of Mr. Gidding. It has had the effect of adding to his already large number of customers,

Very often Nature needs only a little help to get over an obstruction. When a boom of logs is floating down a river, all goes well until one single log strikes something and sticks. Then there's a something and sticks. Then there's a "jam"—and trouble. It is just so in the progress of food through the diges-tive organs. Everything goes well till something sticks. Then the process of digestion stops. That's indigestion. Un-less the impediment is removed, poison-ous putrid matter begins to accumulate. There's a "jam"—constipation, and trouble. Sick headache, billiousness, sleeplessness, vertigo, heartburn, loss of appetite—these are some of the symp-toms. Just a little help at the appear-ance of the first one would end the trouble. Nature is a hard worker, but she needs assistance if too much be put upon her.

upon her. Dr. Pierce's Pleasant Pellets offer the Dr. Pierce's Pleasant Pellets offer the best and simplest method for furnishing this assistance. They are promit and very effective in their action, but they are not strong nor severe. They cause no violent wrench of the system. They go right to the "log" that is fast and loosen it. Nature does the "est. By and by, with a little care in dieting, Nature will do it all. That's one great advant-age of the "Pleasant Pellets" over the many strongly cathartic pills—you do not become a slave to their use. They really care the trouble they are meant to cure. Even the worst kind of chronic constipation disappears with their use. constipation disappears with their use. The case of the Commonwealth against Herman W. Mudget; alias H. H. Holmes, charged with the murder of Benjamin F. Pitezel in Philadelphia about the first of September, 1894, was committed to the hands of the jury Saturday afternoon. They came into Court Sunday evening with a verdict of gailty of murder in the first degree.

SCHOOL BOALD MEETING.

At a meeting of the School Board at the High School building last Friday night, the principal, Prof. L. P. Sterner, submitted a list of books which it was proposed to purchase for the library. Our people generally are not aware of the fact that they have now a library of about one hundred volumes, and are constantly adding to it. This is of incalcuable benefit to the school, and any effort put forth to increase the same should be patronized by our people. The following resolution which is of interest to parents and pupils, was passed:

That if a pupil fails to make an av erage of 80 per cent. in class work at the end of a month, he and his parents be notified, that should he fail to make a higher average at the end of the next school month he will be set back to the next lower grade unless some satisfactory reason exists or cause be presented against such a reduction in grade.

The Bain Spoiled the Fun.

The boys who had counted on raising Cain and duly delebrating All Hallow E'en, were knocked out by the inclemency of the weather. No very great depredations were reported, and the boys apparently contented themselves with throwing corn and other garden truck against houses and about the streets, turning in early out

of the wet.
