### AN INTERESTING LETTER.

MACCLENNY, BAKER CO., FLA. November 22, 1895.

ED. COLUMBIAN :-While reading the COLUMBIAN today, I thought how nice it was to read a good home paper when in a strange place, and far from home and friends, and I felt like writing to the Editor telling him how much I appreciate the Columbian. It is as good as a dozen letters from "Old Columbia." Florida is indeed the "Land of Flowers." The woods are full of them. The yards are brightened by the lovely roses and lilies. The weather is delightful, just cool enough

We had several days rain last week, but it cleared off warm in spite of the credible time without having to be weather prophets predictions for cold. trimmed or repaired .- Philadelphia The cotton is nearly all gathered, cotton sells at five cents per pound be fore it is ginned. They raise a fine quality of cotton here, the long staple. It takes a long time for the crop to mature, it is nearly eight months from the planting until it is all gathered. Watermelons are raised in great numbers, and after the watermelon season is over the sugar-cane comes in. They can raise fine cane here. I saw some over ten feet high and twentytwo joints in one cane. We have sugar boilings and all the syrup we want to eat. Large quantities of peanuts are raised some fatten their hogs

Sweet potatoes are plenty and sell ior from twenty-five to forty cents per bushel. Irish potatoes are raised too, but they do not turn out very well and are apt to rot. They are hard to keep. They sell for from one dollar to one dollar and twenty cents per

They raise great quantities of cow peas, also beans. Cabbage, radishes, turnips and tomatoes can be raised easily. The first three are being planted now. Rye and oats can be grown here but not enough to supply the home market. Corn does mid dling well. The finest fruits can be raised, pears, peaches, plums, grapes, figs, pomegranates, persimmons, berries, lemons and oranges, and blackberries and huckleberries also. Strawberries are ripe now. Near Lawtey in Bradford Co., about twenty miles from here they raise them to ship. Here they raise enough for the home market. Oranges are not very plenty this season, but they are budding the Satsuma orange on the trees that were frozen down last winter. They are a hardier variety than the other.

MacClenny is thirty miles west of Jacksonville, on the Florida, Central & Peninsula R. R. It is the County Seat of Baker Co.

We are about four miles from the Georgia line and twenty miles from the Okefinoke Swamp.

MacClenny has about four hundred inhabitants. One Temperance hotel, six Churches and about thirteen stores and other places of business. Baker Co. is said to be the healthiest county in the state. No ague or make it a good resort for people suf-

fering from the pulmonary diseases. I am teaching school now, as my letter is already lengthy I will tell you about the schools some other time. Yours Respectfully,

LIZZIE KLINE.

Chicago a Romantic Place.

"Won't you always tuck my handkerchiefs in my pocket for me?" said Nathan Ladon, of Menominee, Wis., as he looked down at pretty Mary Frank, manager of Siegel, Cooper & Co's handkerchief counter, in Chicago, who was coyly poking a bit of blue bordered linen which he had just purchased into the breast pocket of his

" Why, I should be glad to sell you handkerchiefs at any time." said Miss Frank, blushing furiously and pretend ing not to understand.
"No; that isn't the idea," respond-

ed Mr. Ladon. "I want to buy your handkerchiefs all the rest of your life. May I?"

"Well, I-I guess you may," replied

Mary, continuing to bush. That settled it. Miss Frank took off her apron, and Mr. Ladon paid of any deaths where they are called for his handkerchiefs. Mary went upon to officiate. upstairs and told the employers she would have to leave, for she had "received a better offer."

Mr. Ladon, who is a wealthy dry goods merchant of Menominee, impatiently awaited her appearance, and on her return the couple at once started for the office of the County Clerk, where they were married.

# A GOOD INDICATION.

Medical practitioners of prominence are prescribing for the cure of diseases springing from derangements of the digestive organs, Dr. David Kennedy's Favorite Remedy This professional endorsement is justified by the fact that no other preparation has been found so efficacious in that class of disorders even in the most advanced and severe cases. It has cured gravel in the kidneys, stone in the bladder and inflammation of the kidneys, where all other medicines had failed. All druggists sell it.

#### A Unique Pen.

Henry Pearson, a young man who occupies the position of bookkeeper for a grocery establishment in St. Paul. uses perhaps the most novel pen in existance. Pearson has allowed the nail of his middle finger to grow to the length of a full inch, and this he has whittled down till it has exactly the appealance of an old fashioned quill pen.

Pearson says his pen has many advantages over any other which he ever used, the chief of these being that it was always "at hand." A neat silver ferrule, or rather an elongated thimble, protects the pen when not in use, and Pearson says it writes for an in-

#### GRAVES TOO SHALLOW.

They Must Be Six Feet Deep in Cities and Four Feet in the Country.

The state board of health, at its meeting in Harrisburg on Friday, adopted a resolution requiring graves for human beings to be at least six feet deep in populous and four teet in rural districts. The board learned that bodies were buried under a fcot of earth in Pittsburg cemeteries.

The responsibility of tanneries'in the matter of creating nuisances and the danger to human life arising from infectious matter, deaths having re sulted from bites of flies which he had fed upon putrid matter from tanneries at Blossburg, will be investigated.

Dr. Lee, the secretary, in his re-

"Diphtheria continues to be the most serious scourge from which our people now suffer, the board having been called upon for advice or executive action in thirty-six outbreaks. The number of cases in the city of Philadelphia has been 3,423, with 1,247 deaths, as compared with 3,159 and 1,047 deaths in the year previous, and this notwithstanding the employ-ment of the anti-diphtheretic serum by a very considerable proportion of physicians. Up to the present time statistics appear strongly confirmatory of the value of this agent. Until, however, we can educate our masses and dread of the infectiousness of this disease that they now entertain with regard to smallpox, we must expect to see it reap a large harvest."

The body must be well nourished now, to prevent sickness. If your appetite is poor take Hood's Sarsapa-

He mailed Tuesdays and Fridays; eight to clear at least \$25,000, while if he fails he looses all. His wife is about 30 and will accompany him all the way.

# The Court's First Decision.

The Superior Court handed down its first decision last Monday, the opinion of the court being delivered by Judge Wickham. The court reverses the finding of common pleas court No. 3 of Philadelphia in the suit brought by the Benevolent Order of Active Workers against John S. Smith. The amount involved in the suit is very small, yet the principle is of great importance and probably has a bearing upon a number of other

In the earlier stages of Consumption, and in all the conditions that lead to it, Doctor Pierce's Golden Medical Discovery is a certain remedy. This scrofulous affection of the lungs, like every other form of Scrofula, can be cured by it. #### A Minister's Experience With Heart Disease.

Rev. L. W. Showers, Elderton, Pa.: For many years my greatest enemy has been organic heart disease. From uneasiness about the heart, with palpitation, it had developed into thumping, fluttering, and choking sensations. Dr. Agnew's Cure for the Heart gave instant relief. A few bottles have rid me of almost every symptom of heart disease. It is a wonder-worker." Sold by Wm. S. Rishton.

#### LUZERNE'S RECORD.

Twenty-One Murders Confined in Jail at Wilkes-barre-Five Convicted.

There are now confined in the Luzerne county prison twenty one murderers. Four have been convicted of murder in the first degree, and are now awaiting sentence, while one, William Penn Bowman, aged nineteen years, has been sentenced to death and is awaiting execution. Never before in the history of the county has so many murderers been confined in her prison at one time.

The citizens of Columbia County after reading the above article, have reason to be thankful that they live in a County where crimes is practically

#### The National Senate.

When Congress convenes in December the Senate will be made up as follows: Republicans, 42; Democrats, 37; Populists, 8. There will be one vacancy—in Deleware. To this Dupont will probably be admitted giving the Republicans 43. The two Senators to be elected in Utah will give them 45, or just one-half the complete Senate of 90 members. As the Vice-President, the presiding officer, is a Democrat, the Republicans cannot control the Senate without the vote of a Populist or Silverite. For all party purposes except free coinage Stewart and Jones, of Nevada, are Republicans, and can undoubtedly be depended on to vote on that side. Irby and Tillmen, classified as Populists, are Democrats on some questions, but their votes would not give the Democrats control.

The Democratic loss of two and probably three Senators in the elections on Tuesday-in Ohio, Maryland and Kentucky-will assure the Republicans control on the 4th of March, 1897.

#### A Wise Reproof.

An exchange advises its readers, in view of near approach of winter, not to ship a big box of clothing and provisions a thousand miles away when there is a little boy freezing just around the corner, probably within a into the same wholesome belief in few feet of you. It is all right to send help away but take care of the destitute at your own door before you go any further away.

#### To Determine the Speed.

A person on a train will notice, if istening closely, a click as each rail is passed. If you take out your watch and count the number of clicks in 20 seconds you will have the number of miles at which the train is going an hour. This is always true as the rails are of uniform length. It is a system that is used by railroad men when no register is at hand.
