"You Don't Become a Slave to their Use!"

The above words have been truthfully spoken concerning Dr. Pierce's Pleasant Pellets by one who has had abundant opportunity to observe their more favorable action as compared with that of other pills.

Most pills and medicines in use for constipation, in the long run, "make a bad matter worse." Unlike such agents, Dr. Pierce's Pellets exert such a tonic or strengthening effect upon the membranes of the stomach and bowels, as to produce lasting benefit. Their use can, therefore, be gradually discontinued. With most pills the longer they are taken, the more dependent upon their use the patient becomes. Not so with the "Pellets." Their secondary effect is to keep the bowels open and regular, not to further constipate. Hence, their great popularity with sufferers from habitual constipation.

The Pellets cure costiveness, or constipation, biliousness, sick and bilious headache, dizziness, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. One little "Pellet" is a laxative, two are mildly cathartic.

They are tiny, sugar-coated granules; any child will readily take them. Sold by all dealers.

The following article taken from the Wilkes barre Record of the Times of February 13th will be read by many of our subscribers with interest, as it relates to one with whom many of them are personally acquainted.

J. W. Oman, an ensign in the United States navy, is at present enjoying a furlough and spending his time with his parents, Mr. and Mrs. H. F. Oman of Nanticoke.

Ensign Oman, was born and lived at Light Street, Columbia County, Pa., up to the time of his appointment as a cadet at Annapolis, and is now detailed as an instructor at the naval academy. He ranked high in his class, has made a splendid record during his term of service and is considered by his superiors as one of the most promising young officers in the navy.

His career goes to show that an American boy with true grit and push can accomplish wonders. Mr. Oman's parents were honest, hard working people who could not afford to give their son the education he craved, and he decided to educate himself. He entered as a student at the Orangeville Academy and walked to and from the school six miles each way every day and during vacation worked for the farmers and earned the money to pay his tuition. Leaving Orangeville he went to the Bloomsburg Normal School, and while a student there S. P. Wolverton, congressman for that district, put an appointment for the naval cadetship in competition. Young Oman entered the examination against fourteen competitors and won hands down. Since his graduation he has served at the Brooklyn Navy Yard, at sea, and for several years was engaged with the United States Coast Survey in sounding and mapping the Atlantic coast from Main to Florida.
