REPUBLICAN CONVENTION.

J. C. Brown Endorsed for Congressman from this District

In response of the call of the chairman of the Republican standing committee, a convention was held in the Court House Monday afternoon. In the absence of the County chairman, the convention was called to order by H. A. McKillop Esq., and the roll of the different election districts was called. E. E. Straub, of Conyngham, was unanimously elected chairman of the convention, and B. D. Freas, of Berwick, secretary.

In-as-much as the delegates from

Catawissa and Franklin had not yet appeared, the chairman declared a recess until the train should arrive. After their arrival the calling of the roll was continued, and it was found the most of them professed conversion. The meeting was of great power. The special revival services township, Berwick S. A FLOODED CELLAR.

Some time ago the sewer connected with the Mrs. M. E. Ent building became clogged and men were engaged to dig up the pipe and repair the trouble. Several openings were made before the stoppage was discovered. After the sewer was opened the earth was replaced, but owing to the cold weather, the ground froze and it was impossible to put it back in a compact form. Friday night this place was visited by a heavy rain, and a large volume of water which naturally would run down the alley between Mrs. Ent's building and the Court House, ran into a hole which had been caused by the earth sinking where the sewer had been repaired, and following the pipe entered the cellar under the Farmer's National Bank and from there into the cellar under W. S. Rishton's drug store. Saturday morning found about three feet of water in the cellar and immedifately steps were taken to remove the same. The steamer was brought into requisition and the water pumped out when Mr. Rishton discovered that he had sustained a loss of several hundred dollars.

truction of Property.

Juege Endlich of Reading has overruled the motion for a new trial for William Clark, Peter Fleisher and Charles T. Kelly, employees of the American Telephone & Telegraph of cutting down shade trees at the summer residence of Dr. John Marshall, near Douglasville. The Judge holds that "the act of 1891 cannot be regarded as conferring upon telegraph, ton injury to a property-owner's trees, such as the act of 1881 makes criminal, and therefore gives no protec-ion to their employes doing such injury at

their instance. We call the attention of telephone and telegraph workmen to the above decision of Judge Endlich, because there have been complaints made of

Discourage Mob Law.

It is to the interest of every community to discourage mob law. Men under the pressure of evil deeds dramatically done become at times temporarily insane. Communities as well Conghlin, Byron G. Hahn and H. A. as individuals go crazy and often do deeds of folly. This tendency needs restraining. If one man has done a vile deed, it does not help the matter In the estate of George Mordon, has stood on Iron Street, and last the camps of the district, comprising the State Secretary, besides many for 10 or 20 men to do another almost as bad. Law and order should be respected. Often our outcry against the slowness of law is a cry for vengeance. Let the courts (and patience) have their perfect work. The recent actions of some of our courts in prosecuting persons who engage in mobbing are encouraged.

At this time when the mad dog scare is rampant it may not be out of place to give a remedy for hydrophobia. Prof. Noetling handed us the following which he has carried for a long time.

A German forest keeper, eighty two years old, and not wishing to carry the grave an important secret, has published in the Leipsic Journal a recipe he has used for fifty years, and which, he says, has saved several men and a great number of animals from a horrible death by hydrophobia; the bite must be bathed as soon as possible with warm vinegar and water, and when this has dried, a few drops of muriatic acid poured upon the wound will destroy the poison of the saliva and relieve the patient from all present and future danger.
