WASHINGTON.

From our Regular Correspondent. WASHINGTON, May 4th, 1896.

Senator Gorman's speech protesting against republican extravagance in providing for an expenditure of \$600,000,000 when the estimates of the government receipts for the next fiscal year are only \$374,000,000 was a notice served upon the republicans that during the coming campaign the people should be fully posted upon republican intentions not avowed, but surely indicated by the action of their leaders in both branches of this Congress, to increase Federal taxation all around, in order to raise the money to meet needless appropriations. The men who are in control of the republican party apparantly wish to put this country upon a European basis in the matter of expenditures, and perhaps in other ways. Now, Mr. Gorman and other leading democrats believe that a majority-an overwhelming majority, of the plain, everyday people of this Price 75c. per bottle. Sold by all country favor the American idea of Druggists. Testimoniais free. economy in public expenditure, and oppose public extravagance in any and every form; and they intend to see that the facts are placed before the people.

Not a little amusement has been caused by the testimony of Mr. Andrew Carnegie, before the Senate Naval committee in the investigation as to the cost of armor plates for our fighting vessels, which although given sometime ago was not made public until this week. Mr. Carnegie had the nerve to tell the committee that he considered making the armor for the government at \$550 a ton a work of patriotism. The public is wondering what Mr. Carnegie calls the contract he has made with the Russian government to furnish the same kind of armor for \$300 a ton. Abuses brought to light by that investigation caused the Senate to amend the Naval appropriation bill so as to prohibit the employment of naval officers by private contractors after June 30, 1897. While nothing positively criminal was shown in connection with such employment enough suspicion was engendered to make it desirable to put a stop to the practice-

Ex-Congressmen John D. Anderson, of W. Va., takes a rosy view of democratic prospects in that State. He says: "The democrats of my State are going to make a great fight this year to redeem the state from republican rule, and I think they are going to win. It is going to be a pretty exciting contest, but our party

faults may be. After listening to masterly eulogies on the life and adopted a joint resolution offered by Senator Palmer, of Ill., accepting the were given liquor upon asking. stature of Father Marquette, now in Statuary Hall, and thanking the state of Wis. It remains to be seen whether the A P. A. can prevent the is understood that it will make the attempt.

Representative Clark, who was the unsuccessful "sound money" democratic candidate for Gov. of Alabama, has returned to his seat in the House, and he brings good news. He says: "No matter how much we may differ on financial questions, the democrats of Alabama are harmonious in agreeing that the best interests of the State require that it shall remain under democratic control. We are all together in the support of the ticket just nominated and will elect it fairly and triumphantly." That's the way for a democrat to talk. There is no sore head under that man's hat.

McKinley's managers stole a march on Reed when they captured that Vermont state convention, even if they failed to get everything they wanted from the Illinois convention. It begins to look as though Quay and Platt had undertaken a task of gigan-tic proportions in trying to keep Mc-Kinley from getting that nomination. Their latest scheme of uniting all the opposition to McKinley on Harrison is not at all pleasing to Reed,

try to stampede the convention to Harrison, McKinley will be nominated, and the man who will do most to bring it about will be Tom Reed. Reed wants the nomination himself, and next to getting it he wants to keep Harrison out of it."

PERPETUAL MOTION.

A Mt. Carmel Citizen Thinks He Has Discov ered the Secret.

Lewis Carl, of Mt. track of parallel brass bands, over attracting well merited attention. The which two steel tempered balls are expected to make up and keep a continuous course. On one side the track dips with the movement of a lever from the weight of the ball as it comes upon it, and this up and down action provides the opportunity of transmitting power to any machine by the ratchet principle. The ball that tips over the long end of the lever raises the second ball on the other end to an elevation on the track whence it derives its own energy of motion from gravity.

The Facts in the Case.

The oft repeated declaration that it is far safer to travel on the railroad than to remain in your own house, is regarded by many people as a mere figure of speech, but it is a sober fact nevertneless. The records show that only one person out of 28,000,000 who ride on the English railroads is killed annually. In France the ratio is one in 19,000,000; in Germany one in 10,000,000. The United States is low down in the list, the average being one out of every 2,000,000. In safety in railroading we fall behind the careful methods of most countries of Europe and still have much to learn.

The M. E. Church.

The Rev. Dr. C. C. McCabe, corresponding secretary of the Methodist missionary society, furnishes some interesting figures showing the growth of the Methodist church for eleven years. According to the last reports, the denomination had 25,129 churches in 1894, against 18,741 in 1883. The valuation of church and parsonage property was \$126,132,561, against \$70,228,085 in 1883, a gain of \$45,013,124, or more than onethird of the total accumulation of property from the beginning. In 1883 the church membership was 1,769,-534; in 1894 it was 2,715,145, a gain of 945,611, or over one-third of the whole number.

This popular patriotic organization s at present the most progressive of The model consists of an elliptical any organization in the State and is ending December 31, 1895, recently issued by State Secretary William Weand shows the membership in this State on that date was 53,132. Berks county leads all other counties in the State in number of members, while Schuylkill county leads in number of camps and valuation; the former has 46 subordinate camps with 6, ror members and a valuation of \$125,-481.22, while the latter has 59 camps with 6000 members and a valuation of \$162,596.33. Luzerne county comes next with 44 camps with 3,855 and valuation of \$61,770.25.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indi-cations that digestion is going on. If you do, you have indigestion, which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps dividing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle,

The advantages of the local newspaper are thus set forth by a minister, who evidently knows exactly what he is talking about: Your local paper tells you to go to church, to county court, and when to send your children to school, or anywhere else you may want to go. It tells you who is dead, who is sick, who is married, who is born, and many other things you would like to know. It calls attention to public enterprise, advocates the best law and order in the town. It records the marriage of your daughter, the death of your son, the illness of your wife. It sets forth the advantages of your town and invites immigration, and is the first to welcome new comers. Yet, in spite of all these benefits, some people say the home paper is not half as good as some other paper that has no interest in their business or success. The home paper is too often neglected by those who benefit by it.

THE STUDIOUS GIRL.

AN INTERESTING LETTER FROM A YOUNG LADIES' COLLEGE.

Race Between the Sexes for Education, Health Impaired by Incessant Study.

The race between the sexes for education is to-day very close.

Ambitious girls work incessantly over their studies, and are often brought to a halt, sacrificed the physical to the mental. Then begin those ailments that must be removed at once, or they will produce constant suffering. Headache, dizziness, faintness, slight vertigo, pains in the back and loins, irregularity, loss of sleep and appetite, nervousness and blues, with lack of confidence; these are positive

men's arch enemy is at hand. The following letter was received by Mrs. Pinkham in May, one month after the young lady had first written, giving symptoms, and asking advice. She was ill and in great distress of mind, feeling she would not hold out till graduation, and the doctor had advised her to go home. - College, Mass.
