THEY BORROWED \$90,000.

commissioners have borrowed \$90,ooo to meet the current expenses of the county treasury was quite heavy the past two years because of the payhouse plans, \$25,000 to detectives down murderers in the county and other big expenses which had to be naid. The commissioners expect to pay back most of the borrowed money from the taxes to be collected this year. The statements of increase of indebtedness of the county were filed on June 18, a895, June 23, 1895 and April 23, 1896, in the office of the clerk of the courts, but nothing was said publicly about it and the fact was not known until a Wilkes-Barre reporter happened to come across the enteries. The sum of \$30,000 was borrowed on each of the dates named above. The money was furnished by a Wilkes-Barre bank. The action of the commissioners in keeping this important matter secret is commented and unput day as the same may be found and unput day as the same may be found as above. The money was furnished by portant matter secret is commented upon in all parts of the county, and they are criticised without stint by many of the taxpayers.

The unearthing of the facts in the case is a creditable stroke of journalistic enterprise and is proof of the oft-repeated statement that newspapers are the best safeguards of pubic affairs .- Freeland Tribune.

A Marble Bridge.

Pink Stone Structure Over the Tennessee River at Knoxville.

The new bridge to be erected over the Tennessee River, at Knoxville, will be a novelty. It is to be built 48 150 entirely of pink marble. It will be 115 1600 feet long from thout to out" of 1100 1600 feet long from "out to out" of abutments, and 240 feet long in the main spans of arch, which, it is claimed, is 20 feet longer than the longest arch in the world. It will rise at the crown of the channel spans 105 feet above the water, making it a decided ly imposing structure. It is to be a solid marble bridge from side to side, with a 50-foot roadway 100 feet above water. The arches will be eight feet deep at the keystone, 15 feet at the skewbacks or spring lines, and will spring from piers 30 feet high and 40 feet wide. The piers go to solid rock, the substructura lines for the substructura lines feet wide. deep at the keystone, 15 feet at the the substructure limestone, 12 feet below the water surface at the bridge site. The arches and spandrel filling will be constructed of concrete. The parapet walls will be constructed of sawed marble slabs, with heavy blocks on pilasters every fifteen feet, projecting above the wall proper and giving a semicastellated effect.

GO WEST, FELINES; GO WEST. Cats Bring a Dollar Apiece in the State of Washington.

Sharon, Pa., has gone into the wholesale cat exporting business. A West Middlesex citizen recently received a letter from Horatio Randall of Spokane Falls, Wash., who asked that as many cats as could be gathered together be sent to him. He further stated that \$1 would be paid for every cat large enough to kill the gophers, which were destroying the crops in that state.

Decision on Baker Ballot Law.

At Ebeusburg, not long ago, Judge Barker put on record an opinion which is of much interest, since it involves a point in the interpretation of the Baker ballot law. Following is a condensation: "In recontested elechotel lobby that you are the cynosure tion for supervisor of East Taylor township, John Keiper was an independent candidate, and therefore his name was not printed on the ticket, and four persons who wrote his name in the column provided for that purwalk two paces in advance of him; pose did not mark a cross after it. you don't wan't your escort to be These tickets were rejected by the election officers.
