Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

But the people of the United States, just now, are listening with serious, even dangerous, attention to the summary of John A. Logan :

" You may theorize and argue until you are hoarse, yet you will fail to get the people to perfer low prices to high ones for their products. They know that one bushel of wheat at \$1.25 in currency will buy one acre two and a half bushels at 50 cents to purchase it, though it be gold. They know that \$1 in paper, if legal tender, will pay \$1 of taxes as well as \$1 in gold. They know well enough from experience that if you run down prices by lessening the currency there will be no corresponding decrease in taxes and salaries of county, state and municipal officers, nor in the debts they owe."

"I was troubled for a long time with an itching humor on the scalp," says Mr. D. P. Davis, Neal's Landing, Fla., "but at last, being recommended Ayer's Hair Vigor, 1 tried it, and a complete cure was effected." Everythis dressing.
