# THURSDAY, NOVEMBER 12, 1896.

The official returns from this State are in and give McKinley a plurality of 301,6c6, the vote being Republican 726,823 ; Democratic 425, 217. The vote cast for the Palmer and There were 19,000 votes for the Prohibition ticket, and about 10,000 for the other candidates, aud "scattering," making a total of 1,191,918 in the state for all candidates.

The Democrats for the second time have given this congressional district to the Republicans. This county could have given Walsh 1800 majority by straight voting, and Sullivan and Montour could have given him enough more to have elected him. But principally because he is a Roman Catholic, a matter which ought not to have had any influence against him, Walsh was cut and slaughtered, even in his own county, where local pride should have given him a large vote.

# Official Congressional Vote-

The congressional return judges of this district met at Sunbury on Tuesday last, D. R. Coffman represented official vote :

Northumberland Columbia Sullivan Montour	Kulp 1 9112 3331 1250 1502	Walsh 6726 4542 1233 1572	Lutz 505 425 67 55

Kulp's plurality	1122		

### COUNTY MAJORITIES.

Bryan's majority in this county is 1542. Walsh's majority over Kulp is 1211. McKillip ran 644 ahead of Straub, his colleague on the Republican ticket for Representative. Chrisman's majority over McKillip is o71. Henrie's majority over Fox for Prothonotary is 1701. Ent's over Monroe for Register and Recorder is 1858. Fleckenstine's over Eves for Treasurer is 1900. Harman's over Evans for District Attorney is 1858.

From the above it does not look much as though this county is drifting over to the Republican column. With majorities ranging from 1211 to 1909 there is not much danger of the Democracy losing the county for some years to come.

# Some Election Comparisons.

It may possibly savor of rubbing salt in a green wound to make com parisons as to the wealth, intelligence and population of the States voting for McKinley and sound money which are derogatory to the States voting for his opponent ; but the comparison is justified by the facts and is one that should be made now in order that it may be kept in mind for the future.

Eighteen States lying in a solid block, extending from the Potomac and Ohio rivers on the south to the Dominion line on the north and from the Atlantic on the east to the western boundaries of Iowa and Minnesota on the west, gave McKinley 238 electoral votes and more than 1,000,-000 of popular majority. These States were Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Buckner ticket foots up to 10878. Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa and Minnesota. They lie in a compact body, and not one of them turned up in the Bryan column.

By the census of 1890, which showed the total population of the country to be 62,622,250, this section contained 35,297,970, or more than 56 per cent. of the whole. In point of wealth, the contrast is still greater. The valuation of the real and personal property of the country, as shown by the census, was \$65,037,091,197, of which \$41,717,479,491, or nearly two-thirds of the total, was located in these States. Of the 27 cities with more than 100,000 inhabitants, 20 are located within this belt, as are the principal colleges, universities and other educational institutions. Tested by the standard of general intelligence. the census showed for the entire country that 13 per cent. of the inhabitants could not read or write. Within this belt the average did not this county. The following is the reach 7 per cent., while in the South, with the negroes excluded, illiteracy

ranged from 15 per cent. in Texas to 31 in North Carolina. In making these comparisons, we

do not lose sight of West Virginia, Kentucky, the two Dakotas, California and Oregon, all voting for McKinley, and raising the percentage of population to 66 and that of wealth to 74 per cent. of the total. We simply call attention to the fact that in this compact block of 18 McKinley States we have 56 per cent of the population, 64 per cent. of the wealth, nine-tenths of the great commercial centres and a large majority of the institutions of learning, while on the other hand, in spite of the infusion of a large foreign element into the population, the

illiteracy only reaches 6 per cent., as against a proportion ranging from 15 to 31 per cent. in the States voting for Bryan. majority voting for the maintenance

McKinley's majority .....

A Manayunk man, by the name of McGarvey on Tuesday started to walk to Lincoln, Neb., Bryan's home, a distance of 1600 miles. The journey is to be made in three months, and, he is to neither beg nor steal on the long march. He expects to be well received by the supporters of Bryan at Lincoln. This long tramp is the outcome of an election bet.

A Tioga youth started to take his best girl to the city one day last week. The couple boarded a car, and when the conductor came in for the fare the young man dived down in his pocket for the money. To his horror he discovered that his pocket was absolutely empty. Looking up at the conductor he blurted out: "I've changed my pants and left my mor ey at home." Then he looked questioningly at the girl. She shook her head and murmered :" So have I." The conductor grinned, the maiden blushed and the young man signalled to stop. - Galeton Dispatch.
