Estate of Christopher Kuster, deceased.

Estate of Caleb Barton, dec'd. The Michael Cain et. al. case was taken up Tuesday morning and was heard by the jury taking all morning. Petition of Daniel Billman presented for benefit of insolvent laws, and defendant discharged from custody of the Sheriff.

### THE BUSINESS OUTLOOK.

Dun's Review of last week says : In spite of moderate improvement in most of the great industries, business is disappointing. Expectations of speedy end of war in Europe through Turkish victory have helped to depress grain. Demands of Austria and China have caused exports of \$6,500,000 gold, merchandise imports are greatly increased, and final action of Congress on the revenue question seems more remote. Floods at the West continue, and the new tariff proposed for Canada is thought likely to affect trade with that country to some extent. Business in this city was suspended a day, but the ceremony in honor of President Grant brought hither such a multitude that local trade has been remarkably large. The country is just now unusually free from important labor troubles, but there are strikes in some cities in the building trades, and others of magnitude are threatened in iron mines and

manufacture. Wheat rose last Saturday nearly 2 cts., but has fallen since that day about 5 cts. This is largely because European markets did not sustain the expectation of a great foreign demand after the outbreak of war, and because events appeared to foreshadow speedy growing States, the receipts from farms, and the enormous exports of corn, all had influence. Corn exports have been 13,250,197 bushels in four weeks against 4,496,679 last year, while Atlantic exports of wheat in the same weeks, flour included, have been only 4,231,348 bushels, against 4,397,-215 last year. Nor is this surprising for if in use two bushels of corn only Paris Tuesday afternoon. From 1500 equal one bushel wheat, the two bushels corn would cost about 60 cts. and the one bushel wheat nearly 80 bazar was mostly patronized by the cts. Western receipts have been reduced, perhaps in part by floods and over stall 13, occupied by the Duinterruption of traffic. The cotton chess D'Uzes, one of the most promimarket has advanced a quarter of a cent, owing mainly to a speculative impulse from England, but the delay in abatement of floods and their continued destructiveness afford an ap-

parent reason. The exports or gold would not have much influence if there were not an extraordinary increase in merchandise imports and some decrease in exports from New York, large for the last week and 5 per cent. for April. Imports have increased about 60 per cent. over last year for the week, and for four weeks have been 30 per cent. greater; in dry goods alone \$4,860,-000, while the imports of wool have been \$3,749,439 here, and in sugar and tobacco imports are also large. At Boston imports of wool have been extraordinary, and at Philadelphia they have amounted for the month to \$1,278,000. The thought that this abnormal increase may continue as long as action on the revenue bill is deferred tends to affect exchange, but

# Sleepless Nights Run Down in Health-Constant

Pains in Arms and Shoulders -A Valuable Cift-Health, Appetite and Sleep-Pains are Cons.

"I was run down in health and could hardly keep on my feet. The least exertion would cause palpitation and I would feel as though I was being smothered. My nights were sleepless and I felt worse in the morning than when I retired. My liver was out of order and I had constant pains in my arms and shoulders and numbness in my limbs. I was sometimes dizzy and would fall. My son gave me two bottles of Hood's Sarsaparilla and they proved of more value than a very costly gift. In a short time after taking Hood's Sarsaparilla I had a good appetite, sleep came back to me and the pains all left me." Mrs. ANNIE E. STETTER, 621

the main influence at present is the exceptional demand for reconstruction of the Austrian monetary system and for Japan.

Securities have not fluctuated much, nor have foreign operations materially affected the market, as Americans have been neglected in London. "But the demand for bonds has been constant, though smaller than it was some time ago. Railways are making quite fair reports, when abnormal causes of disturbance are considered, earnings in April being only 1.6 per cent. less than last year, and 6.5 per cent. less than in 1892, and in east-bound tonnage from Chicago the decrease is smaller than is usual about the time navigation opens. The stock market has relapsed into slumber, and with light trading has declined a small fraction for both railroad securities and trust stocks.
