SUNDAY WAR AT THE SHORE. Amusement Men at Atlantic City Fighting

the Authorities.

The State law was invoked at Atlantic City for the first time on Sunday for the purpose of closing amusement places on Sunday. The war being waged by the city against the desecrators of the Sabbath, it is announced, will be vigorously pushed until the offenders have either closed up or are in jail. Manager Flood, of last week under the city ordinance, has certioraried the ordinance, which takes the case into the Supreme Court. He kept his place open last Sunday, and on Tuesday a warrant down stairs. I was also troubled with for his arrest was issued under the sores and pimples on my face. A friend State law. He is charged with being

place open on the Sabbath. He had boasted that the city ordinance had no terrors for him and when he was brought before Recorder Ingersoll that official sentenced him to ten days imprisonment. He is now in jail.

The authorities are determined that Sunday amusements must cease, and if necessary all places of business will be closed on that day. This extreme step will not be taken unless the opposition of the amusement men Cures and prevents swollen and sweat- becomes so great that it is unavoid-

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or diseases, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often. by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, and bladder remedy, is soon realized. If you need a medicine you should have board about 10 feet by 3 feet, suitable the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention THE COLUMBIAN and send your address to Dr. Kilmer MAN Building, newly papered and & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

An American Bark 183 Years Old Still

ONE OF THE OLDEST SHIPS.

The bark True Love, built in Philadelphia in 1764, has been found upon search to be yet affoat in the capacity of a coal hulk engaged in active trade at the age of 188 years. The True Love has not only outlived her builders and their successors, but has also outlived every craft that was built in ber time and for many years afterward, and this fact, coupled with the report that the historic craft is still engaged in active pursuits, places Philadelphia at the very top notch as a shipbuilding centre.

In 1764, when this famous old craft was launched on the banks of the Delaware, although her length was but 96 feet 8 inches, she was then the largest vessel of commerce that the Delaware had ever floated. Contrast this with the dimensions of the huge Hamburg-American Packet Gompany's steamship Pennsylvania, the latest addition to commerce, whose length is 587 feet, while the new White Star liner building is 704 feet long, and one will be amazed with the magnitude of the modern ship of commerce. The True Love, upon being completed, sailed away from Philadelphia early in 1765, and no record is had of her return to this city until August 22, 1873. when at the age of 109 years she came into port from Ivitut, Greenland, with a cargo of kryolite, in command of Captain Thomas Nathaniel, consigned to B. Crowley. She was discharged here and surveyed by the American Lloyds in October, 1873, and sailed away, never to return again. Upon her arrival shortly afterward in London she was sold and turned into a coal hulk, in which capacity she still serves. -Philadelphia Press.

Booming Patent Articles.

They have a novel method of pushing the sale of patent articles in London. A number of men are smartly dressed as servants and sent out to suburban shops to purchase the commodity it is desired to boom. The men are specially selected, with a view to convey the impression that their employers are persons of good position. A score of these ingenious individuals will call at all the fashionable shops in the districts allotted to them, and ask for the specific article they wish to introduce. They will insist upon having this and no other, regarding with scorn the suggestion that they might accept a substitute. In many cases, of course, the proprietor has not the new article in stock; but a few days later a commercial traveller waits upon him with the article required. A smart tradesman who dislikes to disappoint his customers will invariably avail himself of this opportunity to give an order for the article in question. This shrewd scheme has proved of undoubted utilthe Scenic Railroad, who was fine! ity in the introduction of a really good article of produce. It is scarcely objectionable and frequently forms the basis of a sound and extensive business.

The women have no voting privileges to speak of in either France or Germany.

In several European countries they are allowed to vote by proxy. Thus, in the Australian provinces women can vote for members of the provincial and imperial Parliaments, only by proxy. They can vote in person at local elections. The same is true of Russia, where women who are heads of households vote at local elections. As to the widows, they have the right to vote at municipal elections in Belgium, while in Italy they can vote for members of Parliament.

The Lady's Age.

The Prince of Wales, about five years ago, met a charming young lady well known in London society, at Hamburg. "You are young enough," he said, in the course of conversation, "for me to be able to ask your age." "Twenty-five," was the ready reply. This summer his royal highness met the lady again. "What," he asked again, with a humorous smile, "is your age, I wonder?" "Twenty-five," again said the lady. "But you said that the last time I met you," remarked the prince, with a smile. "Well, sir," laughed the lady, "and would you have me contradict myself?"-Lady's Pictorial.

Rare Skill.

Probably the most remarkable drummer who ever lived was John Henri, the famous troubadour-major of the Emperor Napoleon. One of his feats was to play on fifteen different ly toned drums at the same time in so soft and harmonious a manner that, instead of the deafening uproar that might have been expected, the effect was that of a novel and complete instrument. In playing he passed from one drum to the other with such wonderful quickness that the eyes of the spectators could hardly follow the movements of his hands and body.

Weak on Geography.

Little things illustrate certain Englishmen's knowledge of American geog raphy very picturesquely. An Englishman who had taken the Pacific express at Philadelphia called out on going to bed before the train started:

"Portah! Portah!" The porter came. "What is it, sir?"

he said. "Please wake me up when we get to SanFrancisco, you know." said the coffee at 1 the price. Get a package Englishman.—Pittsburg Bulletin. of your grocer to day.

LIFE IN THE KLONDIKE.

Some of the Hardships the Toiler After Gold Must Endure.

It is wise for men who are leaving the comfort of their homes and the luxuries of civilization to consider some of the things with which they will have to contend if they reach the Alaska gold country in safety. No man NOW = = = and who has never lived in a country where the mercury constantly freezes can have any adequate idea of the numbing intensity of that cold, even when he is surrounded with all the comforts of urban life.

The man who is accustomed to taking a bath every day in his life must remember that in the Klondike he must forego bathing for nine months. During this period he must wear the same suit of underclothing, and it must be so thick that it will wear for three years without dropping off. His clothing will become infested with vermin. There is no escape from it. If he seeks a palliative in whisky he must pay fifty cents a drink for it.

For three-quarters of a year he must live in dim twilight, for at midwinter the sun is above the horizon only fifteen or twenty minutes a day. He must eat bacon that is nearly all fat, and beans, with a little flour and tea, the latter without sugar. He will likely suffer horribly from scurvy.

He will find women whom he would turn from in disgust at home reigning as queens. But they will not wear bloomers. The Canadian mounted police have issued an order against bloomers.

These are some of the things the newcomer can enjoy if he locates a claim that pans out and is prosperous. In one respect he will be better off than he would be at home. He need have no fear of robbers.

The riff-raff of humanity has gathered at the Klondike, but there is no thievery. Riches are absolutely secure. No robber dares take a single ounce that does not belong to him, for the very excellent reason that he knows he could never get away with

it There has not been a single robbery since the influx into the gold
