

AFTER A HUMAN BUTCHER.

A Woman Believed to Have Hacked Miser Ritter to Death. Detective Dougherty and a posse of 20 men scoured the country round about the home of Amos Ritter, near Watsonstown, in an effort to find the hatchet with which the old man Ritter was murdered a little over a week ago.

The corpse was found with two handkerchiefs over its face, in a field from which potatoes had been dug a few days before, hence the soil thereabouts was moist and loamy. But there was not a foot print visible.

The old man's shoes were standing between his feet. They had been removed in the search for the gold that Ritter was believed to have about him. Besides a bullet wound in his heart, there were seven ax or hatchet wounds on top and side of the head.

Ritter, who was 72 years old, lived alone in a ramshackle house, and it was generally believed that he had money hidden in the house.

The spot where Ritter was murdered is within sight of the grave of Nelson E. Wade, who 25 years ago murdered Mr. and Mrs. John McBride, near Williamsport, and then carried off the gold and greenbacks that the aged couple had saved.

Eternal Vigilance

Is the price of perfect health. Watch carefully the first symptoms of impure blood. Cure boils, pimples, humors and scrofula by taking Hood's Sarsaparilla. Drive away the pains and aches of rheumatism, malaria and stomach troubles, steady your nerves and overcome that tired feeling by taking the same great medicine.

Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.

As To Accidents

An analysis of 2,000 accident policies on which benefits were paid shows 531 persons injured by falls on pavements, 243 by carriage or wagon, 75 by horses' kicks or bites, 47 by riding, 117 were cut with edged tools or glasses, 96 were hurt by having weights fall upon them, 72 were hurt in bicycle accidents and 76 were hurt from falling down stairs, from which we might infer that there is not much difference as to danger between riding a bicycle or going down stairs, and walking is about seven times as dangerous as cycling.

Natural Lightning Rods.

The tall Lombardy poplar has a reputation in some parts of Europe as a kind of natural lightning rod. Investigations recently made by Dr. Hess, in Switzerland, appear to confirm this reputation of the tree. Its wood is an unusually good conductor of electricity as compared with others, while its great height and lack of spreading branches enable it to conduct a lightning stroke straight downward. In order, however, that a poplar tree may serve to protect a building, according to Dr. Hess, its foliage should be allowed to grow as near the ground as possible; it should be removed not less than six or seven feet from the nearest wall. No metallic objects on the building should be near the tree, and its roots should penetrate a moist soil.

A Great Surprise is in Store

for those who go to day and get a package of GRAIN-O. It takes the place of coffee at about 1/4 the cost and can be given to the children as well as the adult with great benefit. It is made of pure grains and looks and tastes like the finest grades of Java coffee. A cup of Grain-O is better for the system than a tonic. What coffee breaks down Grain-O builds up. Ask your grocer for Grain-O, 15c and 25c.

Probable Loss of a Shamokin Man.

The Eliza Anderson, a schooner bound for Klondike, on which Thos. Edwards, of Shamokin, was a passenger, met with a heavy gale on the 24th of August and was blown out to sea, no word of her having since been received. The boat was unseaworthy and it is feared went to pieces. Mr. Edwards left Shamokin for Seattle on July 29 with the intention of sailing for the Alaska gold fields.

After serious illness Hood's Sarsaparilla has wonderful building up power. It purifies the blood and restores perfect health.
