WILKES-BARRE, PA.,

JONAS LONG'S SONS' WEEKLY CHATS.

October 21st, 1897.

The choice of America in Ladies Jackets, Capes, Fur Coats, Lingerie and Walking and Shopping Costumes is included in our stock. The variety and extent of the stock shown here has never been approached by a store in this section. And what is of more interest, our prices are marvels of littleness. You can purchase a splendidly made Beaver Jacket, with high storm collar, for \$4.95. Kersey Jackets, half silk lined, correctly styled and tailored, at \$6. Kersey Jackets, lined throughout with satin Rhadamer, at \$7.90. Women's Fine Jackets, lined throughout, trimmed with strap seam, at \$10. Women's stylish Astrakhan Cloth Capes, good length and sweep, \$3.50. Cloth and Plush Capes, jaunty and attractive, big sweep, \$3.98 and \$5. Cloth and Plush Capes, excellent materials, Passementerie trimmed, \$7.50 and \$10. Fine high class Velvet Capes, perfect gems of the tailor's art, run in price from \$15, \$20, \$25, up to \$40.

Fine tailor made Suits in all the fashionable and substantial wools that can't be found elsewhere at our price, are \$10.95, \$12.50, \$15, \$20 and \$27.50 for the very best. Excellent Cloth Dress Skirts, latest cut, \$1.48, \$2.48 and \$3.95. Figured Silk Skirts, full width percaleine lined, at \$5, \$6, \$7.90 and \$8.95.

Good serviceable stylish Flannel Waists, plain and fancy, at 98c, \$1.25 and \$2.25. Changeable Taffeta Silk Waists, fine pleating, lined and boned, at \$4.95.

Everything is now Klondike. The new storm collar is Klondike. We've handsome Astrakhan to make them at the yard \$1.98. Takes 3/4 yards for a collar, cost \$1.49. The making is simple; \$2 covers the entire cost.

Our new cloakings are exceptional value. 56-Inch all wool Dorset Cloaking in black, only sold elsewhere at \$2 the yard; our price is \$1.25.

Golf Cloakings are among our latest importations. Plain and fancy effects with rich plaid linings, our St. Andrew Cloakings are the newest of the new, price only \$2.50 the yard. 1 1/2 yard makes a circular, no lining needed, actual cost of Golf Cape \$3.75.

Coverts are in great demand, prices are advancing. We have a grand assortment bought at the right time; you will share the advantage in price. 6 yards will make a Jacket Suit or Tailor Gown, at the very low price per yard 75c.

The leading idea is the Roman Blouse; must have rich materials to make it. Our Queen Vel Vel takes the place of silk velvet at half the cost. Perfect in finish, rich close pile, 24 inches wide, finest fabric sold to-day. 4 yards is sufficient for a blouse, total cost \$3.56. Send to the large city for it, price would be \$1 per yard. Our price, and it can be obtained only of us, is 89c.

Infants' long dresses made of the finest Nansook, trimmed with dainty embroidery, according to make, trimming and finish, from 95c to \$3.75.

Little Saques of Cashmere and Flannel 65c to \$2.75.

Long Flannel Skirts, handsomely embroidered, some with feather-stitched hems in silk.

Night Gowns of fine material, trimmed with Baby Embroidery, up from 25c.

Mail orders filled promptly and correctly.

You will find the largest and most complete line of clothing in town at L. Gross'.

What do the Children Drink? Don't give them tea or coffee. Have you tried the new food drink called Grain O? It is delicious and nourishing and takes the place of coffee. The more Grain O you give the children the more health you distribute through their systems. Grain O is made of pure grains, and tastes like choice coffee but costs about 1/4 the price. All grocers sell it. 15c and 25c.

THINKS HE MAY BE LOST CHARLEY ROSS.

A letter has been received at Harrisburg bearing the date of Macon, Colo., October 12, by Postmaster Walters, from a man who signs his name "William H. Thomas," in which the writer states that he believes he is the long lost Charley Ross.

There are a number of families living in the vicinity of Lebanon of the name of Ross and the writer states that he learned through a Nebraska man of this fact. The letter is poorly written and the spelling is bad. It is as follows:

"Macon, Colo., Oct. 12, 1897.—To the friends of the lost Charley Ross: Not know your names I take this way of addressing you. I learned from a Nebraska man that the Ross family was still living, or some of them at least. My name is William Thomas, or at least that is what I have been taught. I have been trying to get some trace of my relations for years and it seems as though I have none, or I can't find them, if I have. I am, to the best of my knowledge, thirty-six or thirty-seven years of age, and I think from what I can remember, I was three or four years of age.

"About the first I can remember, I lived somewhere in Pennsylvania, and when stolen I was taken to the orphan's home by two men in a wagon. The home was at Nashville, Tenn. I remember I had long flaxen curls and had a little blue suit with shiny buttons on. I stayed at this place about two or three years, should judge, and then I was taken from there to Kentucky to live with a family and stayed with them until I was grown.

"From the description I have of the lost Charley Ross I thought perhaps I might be the lost boy. I have a birth mark on my left ankle of two red spots about the size of a twenty-five cent piece.

"Now, kind friends, if you can assist me in finding my relations you will do me a great kindness. I am a new miner at the Cripple Creek district. A letter will reach me at Macon, Colo. Hoping to hear from you, I am yours respectfully, William H. Thomas."

Civil Service Examination. The United States Civil Service commission has ordered that an examination be held in Bloomsburg on Saturday, November 27th, for clerk and carriers in the postoffice service. Only citizens of the United States can be examined, and the age is limited as follows: Clerk, 18 years or over; Carriers, 20 years and under 40 years. Proper blanks for making application can be procured of the secretary of the local examining board.

The new Methodist Church at Millville which is just about completed will be dedicated November 14. The dedicatory services will be in charge of Dr. E. H. Yocum, Presiding Elder.

ONE OF TWO WAYS. The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE. Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or diseases, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney, and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention THE COLUMBIAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Removed to Shamokin. The main offices of the Philadelphia & Reading Railway Company will be removed in the near future from Williamsport to Shamokin, a building in the latter city now being made ready for that purpose.

It is thought that this change is made to get all the people under Superintendent Dice, who is located at Shamokin, together. Shamokin is the most central point in the division, and the railroad officials probably think it better to have all the offices at one place. This will leave the Williamsport end of the line, which is the terminus, without a representative.

General Superintendent Sweigard, in an interview, stated that the steel viaduct bridges on the Catawissa road were about finished and that all the heavy freight traffic would be diverted from the Shamokin branch to that line. Heavier locomotives will be employed in that trade and the old road will be devoted entirely to the coal and passenger traffic. In other words, all freight received from the connecting lines at Williamsport will be sent over the Catawissa road via Catawissa and East Mahanoy Junction.

Our Ladies' Coats will suit you in quality and price. The Leader Department Store.

INDUSTRIAL ARENA.

There are accumulating signs of an industrial revival. Exports to foreign countries are increasing at all southern ports. Glasgow, Scotland, streets are being paved with American asphalt. Uncle Sam's new torpedo boats will go thirty-five miles an hour. The Danish army is to hereafter be supplied with American meal. The new elevator at Buffalo will hold 1,000,000 bushels of grain. Another immense deposit of coal has been discovered in Columbia, S. A. The St. Lawrence river is to be deepened to fourteen feet at an immense cost. Apples are scarce because the European markets gobbled the bulk of our crop. The Japanese have contracted at Pittsburg for the erection of tin plate mills. A sugar beet company with a capital of \$1,000,000 tons has started in Wisconsin. Two carloads of horses recently were shipped from the Cumberland Valley, Pa., to London. In 1891 the production of aluminum was 168,075 pounds. Last year it was 1,300,000 pounds. Over \$300,000 was spent last year in Australia in trapping, packing and shipping frozen rabbits. Several idle blast furnaces in the Mahoning and Shenango valleys north of Pittsburg have started up. Within two months American cigarette-makers have exported 100,000,000 cigarettes to India, China and Japan. Another submarine boat has been launched at Oshkosh, Wis., five feet long and seven and one-half feet deep. California proposes a two and one-half cent tax on all property with which to build good roads all over the State. The Italian government has purchased 15,000 hogshead of fine dark tobacco from a concern in Tennessee, price \$2,000,000. A government scheme is on foot to greatly increase our exports of agricultural products, especially dairy production, cheese and butter. There is a probability of a boom in steel railway building in all the cities of Europe. The people there are getting busier and want to ride more. It costs from thirty-five to fifty-five cents a ton to handle the coal at most of our cities. By a system of machinery the cost is to be reduced to three cents. Instead of having the great bulk of our fruit put up in tin cans, they are going to be made of paper. They are made out of wood pulp and dry in twenty-four hours. A boat sixty-seven feet long, five and one-half feet draft is being built that is to go forty miles an hour. The saloon is thirteen feet long, four and one-half feet wide; fuel, gasoline. A party of St. Louis commercial travelers to save hotel bills have chartered a railway car fitted up as a hotel and salesroom for seventy days' trip. Forty stops at towns will be made and merchants will come to the car to buy. This is a new wrinkle. In Egypt all the way out to the pyramids the road is good macadam. It is sprinkled not too often, is never muddy, and is kept fairly clean, though it is infested by hordes of brown babies chewing sugar cane, by camels, polo ponies, donkeys, caravans, oxen and buffaloes. A California company has taken to drying potatoes before shipping them. By this process four-fifths of the weight can be dried out of them. They are watered up and cooked and are all right again. A company is now drying 5,000,000 pounds of potatoes into 1,000,000 pounds. Fifteen turbine wheels of 5,000 horse power each are to be put up at Massena, N. Y., where the St. Lawrence falls fifty-six feet in seven miles. A capital of \$2,000,000 is secured, a canal connecting the two makes available a large power. The proposal is to cut this canal three and one-half miles long, 220 feet broad and twenty-six feet deep. With a working head of forty feet it could send enough water into the Grass river to develop 150,000 horse power. The canal to be built will furnish 100,000 horse power, and of that 75,000 is to be developed by the machinery now being contracted for. The turbines and generators will be placed on horizontal shafts, the unit being 5,000 horse power.

Removal of Shamokin. The main offices of the Philadelphia & Reading Railway Company will be removed in the near future from Williamsport to Shamokin, a building in the latter city now being made ready for that purpose.

It is thought that this change is made to get all the people under Superintendent Dice, who is located at Shamokin, together. Shamokin is the most central point in the division, and the railroad officials probably think it better to have all the offices at one place. This will leave the Williamsport end of the line, which is the terminus, without a representative.

General Superintendent Sweigard, in an interview, stated that the steel viaduct bridges on the Catawissa road were about finished and that all the heavy freight traffic would be diverted from the Shamokin branch to that line. Heavier locomotives will be employed in that trade and the old road will be devoted entirely to the coal and passenger traffic. In other words, all freight received from the connecting lines at Williamsport will be sent over the Catawissa road via Catawissa and East Mahanoy Junction.
