WASHINGTON.

WASHINGTON, Jan. 28th, 1898.

The gold standard crowd is on the run. The stampede began before the adoption of the Teller resolution by the Senate, but the knowledge that that resolution would be adopted, as well as the advice of the republican Senators and Representatives from the middle west, convinced Mr. Mc-Kinley that the gold standard business would not go down, and that his party's only hope was to make a play to keep the bimetallists from deserting the republican party in a body. The game was started when Mr. Preston, Director of the U.S. Mint, who had made himself particularly obnoxious to the silver men by his obtrusive advocacy of the gold stand-ard, both under the Cleveland and ard, both under the Cleveland and the present administration, and whose work in that direction was referred to by Senator Wolcott in his recent speech, was bounced and the position given to a republican bimetallist from Iowa. But the highest trump was played when Secretary Gage, the high priest of the goldocracy. was made to publicly say that Mr. McKinley was a bimetallist and was supported in that policy by every member of his Cabi-net. Ye gods! think of that for a somersault.

The opinion is growing in Congress that the sending of that warship to Havana was the result of an under-standing between the administration and Spain, and that its principal object there is to stave off Congressional action.

So long as President Dole, of Hawaii, who is now being entertained in Washington as the guest of the U. S., contents himself with the social attentions that are being paid to him and his wife he will find everything lovely and the goose hanging high, but if he attempts to meddle with the annexation fight—he will find things very different.

During the discussion which pre ceded the adoption of the Teller resolution, declaring U. S. bonds payable in silver at the option of the government, Senator Teller forced Senator Allison, who voted for this same reso lution in 1878 and now against it, to admit that it would be legal and proper for the Secretary of the Treasury to pay the obligations of the government in either gold or silver. More Allison tried to qualify that admission with a lot of stuff about the duty of the Secretary of the Treasury to maintain the parity of the two metals etc., but the admission was all that Mr. Teller wanted; he is willing to leave the explanation of Mr. Allison's leave the explanation of Mr. Allis vote against the resolution after that admission to be made by that gentle man to the voters of Iowa.

Although Senator Gorman pointed out that the Pension appropriation bill as it came from the House carried about ten million dollars less than would be spent by the pension bureau during the fiscal year beginning July 1, next. and Senator Allen offered an amendment adding \$7,000,000 to the total carried by the bill, no action was taken by the Senate to increase the appropriation and the bill was passed substantially as it came from the House. It is somewhat surprising that the Senate should even to this extent have helped along the republican policy of insufficient appropri-ations, in order that the government finances may be made to appear better than they should be, for the purpose of bamboozling the voters at the Congressional elections. It is at this confidence of the confidenc time absolutely known to officials of the pension bureau that a deficiency appropriation which may exceed \$10,ooo,ooo, will have to be made by the next session of Congress to pay pen-

Representative Richardson, of Tenn., stirred up the republican menagerie in the House by repeating the minstrel end man's joke about the only two things he ever saw that were exactly alike——the Cleveland panic and the McKinley boom; and when the republicans started in to talk "prosperity," they were asked why that "prosperity" had brought on a strike of testing control will progretive in the control of testing control of the of 125,000 cotton mill operatives in New England, and made quite a mess of their attempts to explain that un-usual accompaniment of "prosperity." Governor, of Ohio, got himself so tied up that he sought to escape by a bit of personal blackguardism—calling up that he sought to escape by a bit of personal blackguardism—calling Greene, of Nebr., a back-woodsman. He and his party will find lots of backwoodsmen of the same sort next November, and every one of them will cast and anti-republican vote.

This is what Senator Teller said of this era of prosperity: "I do not know, perhaps, but I have tried to learn, I have given this question hours of study that few men have, and I

of study that' few men have, and I believe that this is the great question; that the money question threatens not only this people, but the enslavement of mankind throughout the world. I said in 1893, to my countrymen; "You are entering upon an era of industrial slavery such as the world has never seen." Mr. President, it is has never seen." Mr. President, has never seen." Mr. President, has never now. With all your boasted prosperity you are closing the mills of New England, and deducting from

the wages of the laboring man 10, 15 and 20 per cent, and making it impossible for him to perform the duties of citizenship, and then you tell us that all these things are done in the interest of honor, and laborate the superior of the superi interest of honor, and labor must stand it. But the bond holder gets

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and as-sisting nature in doing its work. The sisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. New Judicial District,

Congressman Connell introduced a oill into Congress the other day making a new judicial district in this State known as the Middle district. It is to comprise the counties of Luzerne, Lackawanna, Wyoming, Bradford, Tioga, Potter, Cameron, Clinton, Ly-coming, Centre, Union, Snyder, Mifflin, Juniata, Northumberland, Mifflin, Juniata, Northumberland, Montour, Columbia, Sullivan, Dauphin, Perry, Huntingdon, Fulton, Franklin, Adams, York, Cumberland, Lebanon and Clearfield. This would make a district from north to south through the middle of the State. There is no necessity for this, as the business of the United States can be conducted with easy in this State with two ducted with ease in this State with two districts. The only good it would do would be to make a number of snug berths for the politicians, and there are enough offices now tor the taxpayers to pay for.—Ex.

Tuberculosis in Cattle.

The report of State Veterinarian Dr. Leonard Pearson has been issued. It is very gratifying to be informed that under the thorough measures intended to restrict tuber-culosis in cattle, that disease is being steadily and rapidly reduced. Dur-ing twelve months ending June 1, 1897, there were 9,108 cattle tested, of which 20 per cent had tuber-culosis. During the next six months out of nearly 5,000 cattle tested less than 14 per cent. were found to have tuberculosis. During the year nearly 700 condemned cattle were destroyed, the State paying about \$20 per head therefor

Stiff Prices at Dawson City.

As many of our readers have relatives either in the Klondike gold fields or who are going to that country, the prevailing prices at Dawson City will be read with interest. The following was recently received from a man who now resides in that city:

"It has been at zero and as low as 34 below, this month. Flour is selling for \$2 a pound, fresh beef \$1.25 and \$1.50 a pound, and beans, bacon and dried fruit at \$1 a pound. There is one man running out what he bought in a restaurant. He is charging \$3.50 in a restaurant. He is charging \$43.50 a meal. Bacon, beans, coffee and bread make the bill of fare. To get your shoes half soled and heels tapped to be soled to be soled and heels tapped to be soled to be sole your shoes hat soled and neels tapped cost \$9.50. Everything is high. Whiskey and cigars are 50 cents each. A broom costs \$1.50, one candle \$1, and every thing else in the same pro-portion. The hotels are all closed because they can't buy any groceries to run on. It costs a dollar to get a letter out or in. They are carried by Indians with dogs and on snowshoes.

WHAT GOD GIVES A BOY.

A body to live in and keep clean and healthy, and as a dwelling for his mind and temple for his soul.

A pair of hands to use for himself and others, but never against others for himself.

A pair of feet to do errands of love and kindness, and charity and busi-ness, but not to loiter in places of mischief or temptation or sin.

A pair of lips to keep pure and un-polluted by tobacco or whiskey, and to speak true, kind, brave words; but to make a smoke stack of or a swill trough. A pair of ears to hear the music of

and tree and rill and human voice; but not to give heed to what the serpent says, or to what dishonors God or his mother. A pair of eyes to see the beautiful,

A pair of eyes to see the beautiful, the good, and the true—God's finger prints in flower and field and snow-flake—but not to feast on unclean pictures or the blotches which Satan daubs and calls pleasure. A mind to remember and reason

and decide and store up wisdom and impart it to others, but not to be turned into a chip basket or rubbish heap for the chaff and the rubbish and sweepings of the world's stale wit.

A soul as pure and spotless as a new-fallen snowflake, to receive im-pressions of good and to develop faculties of powers and virtues which shall shape it day by day, as artist's chisel shapes the stone, into the image and likeness of Jesus Christ.

Washington as a Churchman-

To the Editor of the New York Times:

I have read with great interest in The Times of Friday the abstract of the lecture by the Rev. Dr. Potter on "Washington as a Churchman and a Communicant." The facts relating to this aspect of the lite and character of the Father of His Country are so well established as to be beyond all question. And, as Dr. Potter rightly says, to refute the assertions to the contrary would be to assign to them a weight and an importance which they

do not possess.

But, without attempting to do this, will you allow me to cite some evidence at hand? This, save as I have several times given it to the church press, as the old discussion has arisen, I do not remember to have seen produced as testimony. It is found in the "Memoirs of Washington," by his adopted son, George Washington Parke Curtis, on Page 173. He speaks of Washington's observance of the Lord's day, on which he attended public worship, and of his friendship for the clergy, notably Bishop White, and the Roman Archbishop of Baltimore, Dr. Carroll. Then in a foot note on the same page he says:
"Washington was a member in full

"Washington was a member in full communion, of the Protestant Epis-copal Church, and was for many years before and after the Revolution, a Vestryman in Imo Parish, whose church * * is yet standing. He was also a Vestryman * * * in Fairfax Parish. * * * While President of the United States, and residing in New York, he attended St. Paul's Church.

In Philadelphia, Christ Church."

Here is a plain declaration not to refute any charges, but simply to state a fact in the life of the man whom Americans delight to honor. What can be more clear or convincing, coming as it does from one of his own family? Mr. Custis, himself a Church-

an, died in 1859. Edward Everett in this "Life" says: "Washington was a member of the Episcopal Church, and an occasional partaker of the communion." As to the frequency with which he received the holy communion, that is quite apart from the question. It is certainly true, as the lecturer says, that the opportunities of receiving the holy encharist were far less frequent than under the usages of the present, and and

the privileges which are ours to day.

But what can be left as to the ques tion of fact? Washington, in truth, was a churchman, and a communicant. "His body is buried in peace, but

his name liveth forevermore."
WILLIAM E. HOOKER. The Rectory, Wilton, Conn., Dec. 4 1897.

According to an exchange, about six months ago Reuben Lane, a onelegged resident of Barnesboro, started to walk to Kansas, with the intention of wedding a rich widow in that state. It now turns out that his only acquaintance with the widow was through the medium of a matrimonial agency, and when he met her in the flesh, with but one leg, and covered with the ming-led dust of six or seven states through which he had tramped to join his fiance, she decided that he did not come up to the specifications and de-clined to marry him. He has now sued her for \$10,000 for breach of promise.
