The new revenue law, which requires all checks to be stamped, may result in a complete change in the system of paying the employees of the Reading Co. The hands of the Reading, including the men employed in the mines, and railroad and shops, will require in the neighborhood of 22,000 checks. This would cost the company \$40 per month, in case it would be required to pay for the 2 cent stamp placed on each. In view of this additional expense, it is probable that the company will distribute the cash. To do this it will be necessary to put the money up in packages before starting out.

It is reported that the Lehigh Valley company will pay its employees in cash. The Pennsylvania railroad paid with checks this month at a cost of \$1000 for revenue stamps.

Suburians Untortunate.

Reports from the Klondike are discouraging to the Sunburians who left this city last winter for that region. William P. Hilbish is said to have had a very severe illness after arriving at Dawson City. At last reports he was still very low. It is also reported that Samuel Byerly and J. J. Batman lost their boat en route from Seattle to Sitka. The boat was in tow of a steamer.—Sunbury Daily.

That Lizard Again.

A live lizard over an inch in length was disgorged the other day by James Sausser, near Easton. The little creature jumped about at a great rate. Sausser for three years has been a sufferer from what the doctors thought was stomach trouble. During the past six months he suffered terribly, and gradually lost in weight until he was a mere skeleton. He had a severe vomiting fit, and then the cause of the trouble appeared. Sausser says that over three years ago he took a drink at night from his cistern, and immediately after told his wife he was certain he had swallowed something alive, but he never took steps to get rid of it.

William Ellis, chief yeoman of the cruiser Brooklyn, who was the only American killed during the engagements at Santiago, was born and raised in Honey Brook, near Hazleton, so says the Hazleton Plain Speaker.

A complete list and number of killed and wounded since our troops landed on Cuban soil has been ascertained. There were 24 officers and 210 men killed; 81 officers and 1204 men wounded. This when compared with the killed and wounded on the Spanish side is largely in favor of the Americans.

Dwight Galloupe, chaplain 24th New Jersey Infantry, gives the following account of what he saw, proving the utter disregard of the Spaniards for the Red Cross flag. He says:

"On the afternoon of the 3rd, I was visiting the wounded in an hospital tent near a point where the firing was the hottest. A Lieutenant whose name I do not know, was in the other end of the tent, looking at some of his men. Suddenly a shell came through the tent and exploded. That officer was torn into shreds. I was hurled fully fifty feet, and injured as you see, and every man in the tent thrown from his cot.

"The Spaniards took special delight in firing upon our field hospital. We had to move it several times on that account. One of the surgeons was killed while dressing the wound of a soldier. In the hasty retreat which the enemy's fire made necessary from the first hospital a lot of our men were left behind, and all of them were killed.

Job printers all over the country are now exercising their ingenuity in designing patriotic stationery, and it begins to look as if each hero of the war would receive recognition from the stationer before Congress could vote him a medal. Dewey, Hobson, Shafter, Schley, and Sampson now figure on letter paper, and all sorts of patriotic designs are used to decorate envelopes. These designs show the stars and stripes intertwined with the lone star of "Cuba Libre," American flags with a battleship in vignette, surmounted by the American eagle; the Union Jack of England and the stars and stripes intertwined. This latter design has been popular in Canada ever since war was declared and it has been utilized on Canadian postal cards. These patriotic designs are printed expensively in bright colors, and on cheap note paper they are printed merely in black and white. They will boom the collections of people who have a fancy for collecting letterheads. Many such designs were issued during the Civil war, and some of them of rude construction, were placed on envelopes mailed at the front.
