We are trying to avoid printing duns in the paper as much as possible, and for the third time in three months have sent out statements by mail this week. Those who receive them will please give them their early attention. The fact that very many of our subscribers have not paid for their papers during the past year, and some not for several years, compels us to call attention to the matter.

Calendars For 1899.

We still have a number of calendars to give to our subscribers who will call for them. On receipt of a two-cent postage stamp we will mail to any address in the county.

Advice to Consumptives

There are three great remedies that every person with weak lungs, or with consumption itself, should understand. These remedies will cure about every case in its first stages; and many of those more advanced. It is only the most advanced that are hopeless. Even these are wonderfully relieved and life itself greatly prolonged.

What are these remedies? Fresh air, proper food and Scott's Emulsion

of Cod-Liver Oil with Hypophosphites. Be afraid of draughts but not of fresh air. Eat nutritious food and drink plenty of milk. Do not forget that Scott's Emulsion is the oldest, the most thoroughly tested and the highest endorsed of all remedies for weak throats, weak lungs and consumption in all its stages.

The Millville Tablet has the following to say about D. F. Herring who moved here last week: "In his removal Millville loses a citizen whom all regret to see go. He served a term as postmaster with honor to himself and to the satisfaction of the patrons. The places filled by himself and family will be hard to replace, both in the M. E. church, of which they are members, and in the community in general. But what is Millville's loss is Bloomsburg's gain, and since they must go the Tablet with a host of others wish them all abundant success."
