Hong Kong, Feb. 8 .- Leading up to the hostilities which began at Manila on Saturday evening, the conduct of the Filipinos around that city toward the Americans had recently been most exasperating, the actions of the natives evidently being intended to provoke the Americans to commit someevert act. These annoyances were so numerous that it is difficult to believe they were not sanctioned by the Filipino leaders.

Sergeant Fischer and four engineers, while making a reconnoisance on last Wednesday, north of Manila, within the American lines, were seized by the insurgents and conveyed to Malalos, where they were imprisoned. On the pext day General Otis sent Lieutenant Hahn to demand their release. The lieutenant was arrested on the way and taken from tohe train by the Filipinos. He protested against the action of the insurgents and was finally allowed to proceed under escort.

After presenting his demand to the Filipino government at Malalos for the release of Fischer and his companions, a special cabinet meeting was held, which lasted three hours. After the adjournment of the meeting the men were released, having been imprisoned for thirty-six hours with nothing to eat but a cup of rice and what they were able to buy with seven cents, all the money they had with them.

Three other American soldiers were captured outside the lines and it is reported that they are to be court martialed by the Filipinos at Malalos. A sentry outpost of the First Montana infantry was fired upon twice last Wednesday night. In addition to these acts many Americans have been recently robbed. General Barry's horses and carriages were stolen and several other Americans lost valuable prop-

Hundreds of savage tribesmen from the north armed with knives and bows and arrows have reinforced the insurgents along the line of the rallroad.

The Americans are keeping a sharp feekout for filibusters. A small sailing vessel was recently seized in Manila bay and the crew was put under ar-Other boats are believed to be on their way to the island of Luzon from various islands.

The insurgents at Hotlo boast that they have won their independence and have established a civil government, making the military authority subordinate thereto.

To Be Prepared-For war is the surest way for this nation to maintain peace. That is the opinion of the wisest statesman. It is equally true that to be prepared for spring is the best way to avoid the peculiar dangers of the season. This is a lesson multitudes are learning, and at this time, when the blood is sure to be loaded with impurities and to be weak and sluggish, the millions begin to take Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood, expels all disease germs, creates a good appetite, gives strength and energy, and puts the whole system in a healthy condition, preventing pneumonia, fevers and other dangerous diseases which are liable to attack a weakened
