Gould Tells of Strike and Promises to Fight It.

PRESSED AIR TORPEDOES

Drip Pan Resolution Recalled from the Tammany Mayor-Gould Refused to Allow Auto-truck Company to Hang Compressed Air Pipes on Elevated Structure and That Caused Trouble. ,

New York, March 1.-The Tammany war on the Manhattan Railway Company collapsed yesterday afternoon in the municipal assembly. The council recalled from the mayor the resolution passed last week to compel the placing of drip pans under all the 114 miles

of tracks within sixty days.

The resolution was amended to allow six months in which to complete the work. As amended the resolution was repassed.

This proceeding was regarded as a practical abandonment of the war on the elevated roads. The change in the programme was made on orders from Richard Croker.

The city hall was crowded at an early bour with Tammany politicians and persons anxious to witness the attempt to drive through the municipal assembly the strike bills against the Manbattan Rallway Company, For an hour before the meeting of the board of aldermen there were many and conflict-ing rumors in circulation as to the progress of the fight against the elevated

Two additional strike bills were pending, one in each house, and it was understood that the Tammany members of the assembly had received or-ders to pass them. The two bills would compel the Manhattan Company to provide yards for the storage of cars and to enclose the platforms of sta-

Gould Makes a Report.

Stockholders representing a majority of the stock of the Manhattan Elevated Railway Company met at the office of President George Gould yesterday at

At the meeting Mr. Gould made a brief speech explaining the attack made by Richard Croker on the company through the medium of the city departments in control of Tammany Hall

"You have doubtless noticed that an attack is being made by the sudden and concerted use of the municipal machinery of the city to embarrass or thwart the company in its proposed improvements.

This attempt first came to the surface simultaneously with this company's failure to comply with a de-mand made on behalf of the New York Auto-Truck Company to enter into contract with that company to let it fasten its pipes on the entire railway structure of this company for a nominal consideration.

"That the effect of such a failure would be to bring on the attack on the part of the municipal authorities which has been made on this company was foreseen and feared fro mthe begin-

When this matter was finally submitted to our counsel, he declared that pipes containing compressed air at a pressure of two thousand pounds to the square inch being presumably dangerous, if these torpedoes were put on the rallway structure and should explode use loss of life, this company would be culpable, its officers subject to indictment and the company's franthises liable to forfeiture.

"Immediately after it became evident that the contract would not be signed by this company the opening attacks upon this company by the board of health commenced, which have been followed by like attacks on the part of wither departments of the city govern-

"The company confidently relies up on the support of the public in its polky to make these improvements, stockholders may rest assured that these hostile demonstrations on th part of the city officials will not be al-Sawed to delay the proposed improvements for a single day."

BASEBALL MAGNATES ASSEMBLE-Spring Meeting of the National League Opens.

New York, March 1.-Baseball magsates and players, together with large crowd of persons interested in the national game, throng the corritors of the Fifth Avenue Hotel in attendance upon the annual spring meet ing of the National League.

The principal topic among the mana-gers and players is the consolidation of the Brooklyn and Baltimore clubs, which was brought to a successful issue late Monday afternoon.

That the deal would result favorably for all parties concerned was general-ly conceded. With a team of stars under the management of Hanlon playing at Washington Park, there could be no doubt, said the enthusiasts, that excellent support from Brooklynites and consequent big financial returns might be expected by the stockholders of the

Baltimore, on the other hand, it was said, would still be repersented by a fairly strong aggregation of players, composed partly of the men who repre-sented Brooklyn last year.

The probable results that would arise from this week's meeting of the magnates were also discussed in the hotel corridors. It was thought by some that the circuit would be reduced to eight clubs, although the report that this would be done was denied by the club owners almost to a man. Other important matters that will come up at the present conference are the question of increasing the power of the board of discipline, the restoration of the umpire's power to impeose fines on players, and the discussion of the report of the rules committee of the
