WASHINGTON.

From our Regular Correspondent. Washington, May 22, 1899.

If the scheme of the Reed chairmen of the most imporant committees of the last House to keep their places under the new organization of the House is a success, the next Speaker will find that he is merely at the head of the old Reed legislative machine. The argument put forth by these schemers is little short of ridiculous. If accepted, it would mean that every man at the head of an important committee had a right to stay there as long as he could get elected and his party could control the House. Sucn a plan would be unjust to the Speaker, who would be little more than a figure-head, if he could not control the make-up of the committees, and equally unjust to the members who wish no better their committee positions. The Reed machine says that all the old chairmen who were reciected should be given the same places, and points to fourteen vacant chairmanships, owing to retirement of the old chairmen, as the only ones that the new Speaker should put new men into; also that none of the members of important committees should be displaced. That would give the Speaker fourteen chairmanships, only four of which are important-Accounts, Banking and Currency, Coinage, and Printing-to distribute among his supporters, and 57 vacancies to fill on eighteen of the important committees. It is said that these heldovers intend to form a combine to prevent the election of any candidate who will not agree to their plans.

Representative De Vries, who will have the honor of being the only Democrat from California in the next House, is in Washington. He says the Gov. is going to appoint Burns to the Senate, with the understanding that he is to be seated at the same time that Quay gets in, and that the appointment will give the state to the Democrats.

General Joe Wheeler returned to Washington this week, but not upon any order from the War Department. He has no immediate expectations of having a perilous trip. It would seem to an unprejudiced observer that the country has already gone to the extreme limit in the matter of pension liberality, and the election of a Speaker who would tavor going further in that direction would be regarded as anything else than a blessing outside of those who would receive the money or be directly benefited by a further increase in the already enormous pension payments annually made by this government.

Mr. McKinley has lost no opportunity in showing his gratitude to the men without whose votes he would have been defeated, and the chances are that the original idea will be carried out, regardless of the protest.

The alacrity with three of the bigheaded young office holders-Assistant Secretary Vanderlip, of the Treasury: Assistant Secretary Allen, of the Navy Department; and Assistant Postmaster General Perry Heath-appointed themselves a National Combuy a home in Washington for Admiral Dewey was a little bit astonishing even to the old timers who are accustomed to the freshness of the officeholders of the Ass. brand. However, as their selfmade credentials seem to have been accepted by the country day, which with 40,000 of them, will the matter is only mentioned to show how easy it is for a man of gall to push himself along after he gets a little start. They were wise enough to elect gathering information about all sorts Mr. Roberts, Treasurer of the U. S., Treasurer of the Committee. What the New Law Requires.

The new mercantile tax bill requires the dealer to place permanently at the entrance of his place of business a sign describing the business in which he is engaged, under penalty of ten dollars for every violation.

The whole volume of business, including cash receipts and merchandise sold on credit, shall be the basis on which the license is to be rated.

If the owners, proprietor or any other person connected with a business refuses to produce the books and papers and appear before the county treasurer to give information on which to base his tax, he is made liable to a penalty of \$1000.
