Sale Adjourned.

The sale of furniture at Proctor Inn which was advertised to take place last Friday, was adjourned on account of the death of C. R. Buckalew, he being one of the committee of stockholders having the sale in charge, and also one of the largest owners. No date has yet been fixed for the sale.

Firemen at Church.

At the invitation of Rev. D. N. Kirkby the members of the fire department attended St. Paul's church in a body on Sunday evening. They gathered at the Town Hall and at 7:15 marched to the church headed by Chief Engineer W. H. Gilmore, one of the oldest and most faithful firemen our town has ever had. Friendship No. 1 had 30 men present, Rescue No. 2 had 40, Winona No. 3 had 22, and Goodwill 41, making a total of 133. The seats on the center aisle were reserved for them. The service was a pleasant one, the music was inspiring, many of the firemen joining in singing the familiar hymns, and the sermon was practical, clear and convincing, and was spoken of by many who heard it as one of the Rector's ablest efforts. The text was from St. John, 11, 15. "Let us also go that we may die with him." It would not be a bad idea to make it an annual custom for the fire department to attend church in a body.

Pawnee Bill's Wild West. Few people realize the proportions of a show of the "Wild West" type which will exhibit at Bloomsburg on Saturday June 3rd. In a conversation with Mr. Sam. H. Joseph, the ministerial looking advance man and a gentleman in every attribute, we elicit a few facts that will no doubt prove interesting to those who have given the subject little thought. In advance of Pawnee Bill's great aggregation are forty people who herald his coming. Next comes the final advertising car, which will reach here one week previous to the show and which will distribute tons of literature bearing on the merits of the exhibition. To demonstrate more fully its importance as a business factor it should be known that the show uses 4000 sheets of paper 3 1/2 by 2 1/2 feet exclusive of window work; which if laid in a straight line would form a walk nearly three miles long by 2 1/2 feet wide; to make paste for a season requires 350 barrels of flour; to feed the stock it is necessary to purchase 705,000 pounds of hay 12,000 bushels of oats and 50,000 pounds of straw. For the camp in which 300 men are daily fed are wanted 80,000 pounds of beef, 60,000 pounds of bread and \$10,000 worth of groceries—exclusive of vegetables, milk etc. These purchases are for the entire season of 1899 and are divided among the merchants of the towns in which the exhibitions are given, and thus an impetus is given to local trade. For this season the show has been wonderfully improved and augmented, and will give a grand street parade on the morning of its exhibition in Bloomsburg, which occurs on Saturday June 3.

UP THE OREEK. We made recently a visit to Benton and the John G. McHenry distillery. This large distillery is of ample proportions—one of the largest in the State—and will soon reach completion. Its capacity will be four or five barrels per day. Mr. Steadman, the popular gauger, kindly showed us through the premises. It is a fine frame structure, Telephone communication through all parts of the country run out from the distillery. Mr. McHenry is well known throughout the State as producing fine whiskeys, supplying the markets of New York, Baltimore, Philadelphia, and other large cities. Benton proposes to have a large time on the "Fourth." The whole land is invited, or will be. Per consequence she will not have a very large time on Memorial Day. Stillwater's Township Sunday School Convention went off successfully on last Saturday and at night. Large attendance, but one unfortunate speech was delivered at night that palliated card playing as inoffensive, and not injurious, when we all know that it is the gateway to drunkenness, debauchery and crime. The aged citizen should not have made it, especially in a Christian convention. He would have been better engaged in ploughing for corn. The speech was downed by other speakers and he was quenched into silence. The prominent speakers were Mr. Hiram Bower, of Berwick, Prof. Richardson, formerly of Berwick, and Rev. Grimes. Orangeville will make a good show in her County Sunday School Convention this week. Owing to bad weather E. J. Bowman has failed as yet to deliver an address to the Literary Society of Rhorsburg. It is expected to come off on the following Saturday. Subject, "The Destiny of Our Country." Sunshine and warmth, or a corn crop failure. Glad to note that Wm. Unangst is improving. Mr. Geysinger improves, but slowly. Mr. Lamson is out and around greatly improved. Fishing, thus far, only tolerable. Too cold. Forgot to mention a Macedonian Missionary spoke at the Stillwater Convention. Mr. Hommel and wife, of Philadelphia, are visiting friends here. We hear that Berwick will soon have a mammoth hotel. B.

Two Pretty Homes. T. L. Gunton's new residence on Market street is now completed, the finishing touch being the stone pillars on the front porch. He has one of the handsomest homes in Bloomsburg, and it is said that the interior arrangements and conveniences are complete in every detail. Adjoining Mr. Gunton is the property of W. J. Correll, on which a large handsome new dwelling has been erected. Those two properties stand on what was for many years known as the Weaver lot. ASK YOUR DOCTOR! Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way. Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done? This question was answered when we first made SCOTT'S EMULSION of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs. The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life. See and get it at all druggists. SCOTT & BOWNE, Chemists, New York.
