The Rebels at San Fernando Make Nightly Attacks.

LIEUTENANT PEARCE A SUICIDE.

Americans Tried to Form a Cordon About Insurgents on the Morong Peninsula, but Wost of Them Slipped Through the Lines.

MANILA, June 7 .- The rebels on Satarday night made an attack upon the friendly town of Macabebe and, after driving the inhabitants out, burned the

town.
The insurgents nightly annoy the troops at San Fernando. Several Amerieans have been slightly wounded re-

cently. The enemy have several Krupp guns, which they bring forward and use for firing large shells into the town, then re-

treating with their guns.
One of the insurgent shells fell within 30 yards of General MacArthur's headquarters Saturday evening. The American troops do not reply to the nightly outbreaks.

The American forces have occupied the Morong peninsula, and General Hall's column is encamped at Morong, Major Truman, marching across from Binangouan, found it impracticable to form a cordon, and the insurgents, with the exception of a hundred or two, escaped through the mountains after General Pic del Pilar, dragging their battery by buffaloes at night. A few, however, may be

trapped.

The Washington troops have returned to Pasig, but the programme of the other

troops is uncertain. The present expedition shows the difficulty which is encountered by an army which must depend upon wagon trains in catching barefooted baudits in their own mountains, and also gives proof that the rebels do not intend to fight battles.

General Hall left Santa Teresa Monday morning and marched 12 miles to Morong, up and down rocky hills and through woods and swamps. Scores of his men fell out, owing to the extreme heat, and were left to follow as best they

The head of the army arrived at Morong at noon, having exchanged only a few shots with insurgent skirmishers on the way. Groups of stragglers followed all day, but the force was 200 smaller than when it started. The men were almost 36 hours without rations, and it was considerable of an achievement for them to cover the ground they did.

Lieutenant Fred W. Pearce of the Sixth United States artillery committed suicide here this morning. He came from Iloilo A week ago on leave, but lingered here beyond the limit and failed to reply to repeated telegrams from his

Yesterday he was put under arrest on his commander's order. This morning another officer called to see him, when he suddenly pulled a revolver from under his pillow and shot himself through the His friends say his mind was af-

fected by a recent sunstroke. A Spanish paper asserts that Colonel Arguelles, one of the two members of the original Filipino military commission who were placed under arrest at Tarlac last month after returning to Luna's camp from their conferences with the United States commissioners, has been court martialed and sentenced to 12 years' imprisonment for "friendship displayed toward the Americans."

A MARVELOUS ESCAPE.

How a Man Was Saved from Instantaneous Death When the Engine Blew Up.

"One of the strangest accidents in my experience," said a boiler expert to a New Orleans Times-Democrat man, 'occurred a few years ago at a small sawmill town over in Texas. They had a narrow-guage road on which logs were hauled by a pony locomotive. One day the two forward wheels of the little machine jumped the track and the crew of seven men went out to jack it into place. As the engine stood, it had a cant forward, which threw all the water in the boiler to the front end, and, as there was a lively fire in the box, it soon got the other end redhot. This trifling circumstance was overlooked by the crew, who proceeded caimly with the jacking, six of them working at the sides and one lying flat on his stomach under the rear trucks.

"As the engine slowly assumed a horizontal position the water ran back to the red-hot portion, and, bang! the whole thing disappeared in space. The six men also disappeared. They were distributed in small sections over at least ten acres, and there wasn't enough left of either engine or crew to make a respectable souvenir. While this disintegration was in progress the man who had been lying flat on his stomach was experiencing the surprise of his life. He had heard a hideous clap of thunder, and when he looked up, lo and behold! he was all by his lonely. His comrades and the pony locomotive, which was but just then standing over his back, had vanished like a dream. All that was left was the landscape. He was wholly unhurt."

FUN IN THE PHILIPPINES.

Incle Sam's Fighters Take Possession of the Railroads and Startle Natives by Their Recklessness.

Put a crowd of American youths in the center of the Sahara desert and they will find something to amuse themselves with and something on which to exert their ingenuity, says the Philadelphia Press. Some of the boys in the Philippines act as though they were on a picnic after the day's fighting is over or during the time they are waiting for something to fire at.

The American forces have in their possession a good stretch of 120 miles of railroad between Manila and Dagupan, and the natives stand in wide-eyed wonder to see the reckless Yankees open wide the throttles of the engines and let them tear madly over bridges and around curves. That is not the Spanish way of doing things.

About Caloocan, the machine shops and roundhouses swarm with members of the engineer corps who tinker around, fixing this engine or building a shelter with that piece of tin.

The small dummy railroad which runs parallel to the Manila & Dagupan railroad has been adopted by the Twentieth Kansas volunteers and the Utah Light Horse artillery, and has been christened "the Kansas & Utah Short

The boys use it constantly to go to and from the city. As they take nothing seriously except fighting, it is a great wonder that some serious accient has not occurred during their reckless rides, but luck seems to be with them in more ways than one, and no one worries about such trifles as smash-ups and explosions.

EARNS THOUSANDS.

Chiengo Woman Masseuse Whose Hands Bring Her About \$3,000 Yearly.

Half the world is as ignorant of how the other half makes its money as of how it lives. There is a Chicago woman, for instance, who earns with her hands yearly sums that would make the average brainworker envious. She does not paint, nor write, nor design, nor make dresses, nor do any of the things that one usually picks out as woman's work. She earns all this money by giving massage to women, says the Chicago Inter Ocean.

She is not in any way an impressive woman. She is of medium size and middle age. She gives one the idea of being in perfect health and of being kindly and sympathetic. Otherwise there is nothing noticeable about her. But her patrons consider her a wonderful woman.

Most of her work is done at the homes of her patrons, though they may come to her establishment at about half the home rate. She rubs a woman an hour at each visit, and her patrons are positive that she imparts to them a tremendous amount of vitality.

Of course, there are many such women. The only remarkable thing about this particular woman is the amount of money she earns. Her monthly receipts run from \$200 to \$300, every dollar of which she earns personally.

Tooth-Pulling by Proxy. THE UP-TO-DATE

The sultan of Turkey is most inquisitive as to what is said and written about him abroad. Every day translations are laid before him from 40 PILLS the newspapers of the world, and these are all closely perused. His majesty is a bad hand at suffering. At one time he wanted to have an aching tooth removed and dared not. Eight slaves had molars drawn out in his presence that he might have an opportunity of judg-ing the extent of suffering entailed, and 100 PILLS 25 CTS. finally the sultan decided that he ervita Medical Co., Chicago would rather bear the pain than under-

Bear Liked Sugar.

In a Vermont maple sugar camp, owned by a Mr. Forsythe, the owner this spring often missed cakes of the maple sugar which had been set out in the snow to harden. For a long time the men at the camp watched for the thief, but never caught bim, until at last one day they found bear tracks leading away from the camp, and followed them until they came to a cave in the hillside. Mr. Bear was not at home, but in one corner of the cave they found their cakes of maple sugar neatly piled up. Mr. Bear had hidden away nearly 200 pounds of the sweet stuff, and when they went to carry it away they met him coming through the woods, walking straight up on his hind feetlike a man and carrying more sugar in his arms. When he saw the men he did not wait to be shot, but dropped his sugar and ran away like any other thief.

SAVED BY A POSTAL CARD.

Thousands who have written for one of the free trial bottles of Dr. David Kennedy's Favorite Remedy have literally had their lives saved by a postal card. They got the trial bottle, and it proved to them that Dr. David Kennedy's Favorite Remedy was the only real cure for diseases of the kidneys, liver and blood, rheumatism, dyspepsia and chronic constipation. They bought a largesized bottle of their druggists and it benefited or cured them (the above is not an idle statement, but the result of careful investigation).

You can do the same thing. If you are in doubt as to whether you have trouble with your kidneys or bladder, put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a cloudy, ropy or stringy appearance, if it is pale or discolored, you should lose no time in taking Dr. Kennedy's Favorite Remedy; it can be had of all druggists at \$1.00 per bottle, or six bottles for \$5.00. It is without question the surest medicine of the age to put a stop to such dangerous symptoms as a pain in the back, a frequent desire to urinate, especially at night, scalding, burning pain in passing water, inability to hold urine, and all the unpleasant and dangerous effects produced on the system by the use of whiskey and beer.
