To Remove a Tight Ring from the Finger .- Hold the hand in cold water, greasy substance that may be handy, and remove the ring with a circular

movement from the finger. To prevent silver articles from turning black through the effects of gas and fog they should be wrapped in tissue paper and kept in bags made they are not provided with velvet or lined cases.

In washing knives never let the handles get wet or lay in the water, as they will split, the blades will become loose, and the bone or ivory discolored. The blades should simply be wiped with a damp cloth and then cleaned.

To Clean Parquet Floors .- Shred wo ounces of beeswax into a small breakfastcupful of linseed oil and it has become as thick as cream. Apply to the floor on a piece of flannel and polish well with soft dusters.

Plated goods that are to be put aside after use should be rubbed with spirits of ammonia and water, and then sinsed in clean water; this will keep them bright and prevent any ill effects, should any salt have been left In This Instance It Was Rough and on the surface.

The Way to Heaven as Laid out by a Base Ball Player.

A "baseball evangelist" who preached in Kansas City on Sunday said that faith is first base, the church Cetewayo's black warriors, and were second base, personal work third base, and home, heaven. The ball is sin. Morality, a good player, takes the bat of good deeds, makes a hit and starts for first base, "taith;" but shortstop Zulus. A glance over his shoulder had ity never reaches "first." Another stumbling painfully along, trying to runner gets to second, "the church," and stays there. When a person can volver. The members of the now celebrated Twentieth Kansas Regiment, who will return from the Philippines some time this summer, and for whom the Kansans are making great preparations to welcome royally, left their native state almost in disgrace. The regiment, which was then without uniforms, was composed almost wholly of farmer boys, selected by the recruiting physicians because of their physical strength and build. It is a regiment of young giants. After being mustered in the regiment was marched past the State House for review. As the farmer soldiers marched along the street they were the subject of jest. As they were marching by the State House the recruiting physician said to Governor Leedy: "There is a reg-iment of fighters. They are built like giants. They will do honor to the State if they ever get a chance." "They may be all right physically," Governor Leedy remarked, with a shrug of the shoulders, "but their personal appearance is against them."

"FOR THE SAKE OF FUN, MISCHIEF IS DONE."-A vast amount of mischief is done, too, because people neglect to keep their blood pure. The mischief appears in eruptions, dyspepsia indigestion, nervousness, kidney diseases, and other ailiments. This mischief, fortunately, may be undone by the faithful use of Hood's Sarsapailla, which cures all diseases originating in or promoted by impure blood.

Hood's Pills cure all liver ills. Nonirritating.

Most persons, when mowing a lawn, aim to cut the grass as close to the ground as possible. This is a misrigh, so as to leave enough leaf surface to enable it to grow again. When cropped often the grass is consequently compelled to make greater effort, and the shorter the grass the more difficulty in its way.

BANDS ON BATTLE FIELDS.

Muste Has an Inspiring Effect and Aids in Dispelling Wenriness on the March.

The utility of music in matters pertaining to war is probably one of the that no less than 91 per cent, of those receivgreatest forces. At the present day, in all the armies of the world, musical war signals are considered not only usecountries give the music and significance of more than 60 trumper signals -calls of naming, of assembling, of alarm, of service and so on-besides a dozen or more drum and fife signals, all of which is a definite language to

But its use is not merely confined to signaling, for music is used in other ways for purposes of war. In the way of dispelling weariness on the march nothing is equal to the music of a brass band. Lord Wolseley, says Pearsons, has remarked that "troops that sing as they march will not only reach their destination more quickly and in better fighting condition than those who march in silence, but, inspired by the music and words of the national song, will feel that self-confidence which is the mother of victory."

Probably savages are the most sus-ceptible to the warlike feeling inspired by a certain class of music. It arouses their anger, incites their fanaticism, and by accompanying their war dances in time of peace it arouses their lust gradually dissolve it in turpentine till of war. For this reason it is among warlike nations that early music was most developed.

The German army includes more than 10,000 military musicians. Other powerful nations on the continent employ rather less numbers in military bands.

[LETTER TO MRS. PINKHAM NO. 67,104] "I cannot express my gratitude to you for the good that Lydia E. Pinkham's Vegetable Compound has done for me. I have taken five bottles of the Compound and two boxes of Liver Pills and feel better in every respect. I had suffered for years with dropsy; the veins in my limbs burst, caused from the pressure of the water. I had the worst kind of kidney trouble, fainting spells, and I could not stand long at a time. I also had female weakness and the doctor said there was a tumor in my left side. The pains I had to stand were something dreadful. A friend handed me a little book of yours, so I got your medicine and it has saved my life. I felt better from the first bottle. The bloating and the tumors have all gone and I do not suffer any pain. I am still using the Vegetable Compound and hope others may find relief as I have done from its use."-MISS N. J.
