THE COLUMBIAN, BLOOMSBURG, PA.

ALASKA'S BOUNDARY

The Fairbanks-Foster Party Returns From the North.

WE SHOULD NOT YIELD AN INCH.

The White and Chilcoot Passes Are the Storm Center of the Disnute. Canadians Hope to Secure a Klondike Port of Entry.

TACOMA, July 10,-The Fairbanks-Foster Alaskan boundary party has returned from the north, and interviews with members of the party indicate that the watershed on White pass, back of Skagmay and Dyea, will be accepted as the international boundary line at that point. The White and Chilcoot passe constitute the storm center of the Alaska boundary. At those points the Canadians bope to secure concessions that will en-able them to anchor down a port of entry into the Klondike goldfields. All other parts of the country thereabouts where concessions are looked for are of little importance compared with the Lynn cawhich is the key to the situation. Senator Fairbanks, when interviewed, placed importance on the fact that he must sit with the joint high commission in August, but declined to state what lines of argument he would take up. Regarding boundary matters that were discussed during the four weeks spent in Alaska Senator Foster declined to speak, "Personally," he said, "I am opposed

to yielding an inch of United States territory. A careful investigation, however, demonstrates that there may be different constructions placed upon the treaties involved as regards channels, the situation lesser Islands and the like. But in the main the United States is plainly given a strip of territory north of Portland caor thereabouts ten marine lengues inland, except where a well defined mountain range placed the boundary nearer the coast. This strip runs to Mount St. Elias. Many contend at the nasses that the watershed back of Skaguay and Dyea is the dividing line. the one side are the head waters of the Yukon and on the other the streams flowing into Lynn canal are formed. Between these two districts there is a chain of mountains, in the opinion of some bringing the boundary line some 18 miles nearer the coast. This seems to be a fair expression of the American view of the boundary question. By this construction of the treaty it is held England will receive the benefit of every point that can be fairly and honestly granted.

"On the other hand, however, the Canadians and many of the English hold that the boundary should be drawn 30 miles, or ten marine leagues, inland from the headlands. By such a construction, of course, Lynn canal would be an inlet into Canadian territory, and three ma-rine leagues inland from the headlands at the entrance would be many miles south of Skaguay and Dyea, and hence Canada and England would have the coveted port of entry without a question of doubt. As I look upon it personally, Lyan canal is a part of the ocean. It would be unfair to draw a line 30 miles inland from the entrance to bodies of water of that nature and call it the boundary under the treaty."

The Paris Off the Rocks.

LONDON, July 12. - The salvagers have moved the American line steamer Paris astern for a distance of 150 yards and have shifted the vessel's position slightly to the eastward. They hope to be able to get the after stokehold fires alight. The Paris is now clear of the rocks. The sea is smooth, but a heavy fog prevails. The intention of the sal-

MAY LIVE A THOUSAND YEARS. Another Ontlet For Curnegie's Surplus Millions.

JOLIET, Ills., July 11.-Dr. Romaine J. Curtiss of this city, an eminent author-ity and writer on bacteriology, who formerly held the chair of this science in the Chicago College of Physicians and Surgeons, has written an open letter to Andrew Carnegie in which he states that if the human being adapts his environment to his life and the possibilities of his organism he can live 1.000 years; that the secret of long life is the destruction of parasitism, and that the establishment of an institution for the teaching of hygiene would require \$50,000,000, but would be the greatest investment made for human welfare since the birth of

Christianity, Further, he invites Mr. Carnegie to supply the necessary money and so become the world's greatest benefactor to mankind. Dr. Curtiss writes in part: "The average longevity is from 25 to 30 years, and the average death rate is 22 per 1.000. One percon in 1.000,000 lives to be 100 years old.

"It is a scientific truth that parasitism is the cause of death. Therefore the absolute destruction of parasitism can in-

crease the duration of life to 1,000 years. "The whole tendency and custom of the world is to shorten life. Latterly a new energy of the most powerful proportions is at work to slide the scale of nereditary length of days a notch further toward infancy. This is the custom of employing only young men and discharging all hands at 30 years of age. This force alone in 100 years from now will so change mental powers that men will be in their prime at 25 and unfit at 40."

THE TEXAS FLOOD.

Continued Reports of Suffering From the Great Calamity.

AUSTIN, July 11.-Governor Sayres and a corps of assistants spent vesterday working in behalf of flood sufferers up and down the Brazos river bottoms. Reports from the stricken district are to the effect that while the waters are rapidly receding the condition of the flood sufferers is improving very little. The governor received official reports from Velasco, southernmost point, that everything was in fairly good condition there, with 22 feet of water prevailing. He has received a telegram from the citizens of Hearne stating that they had fought alone as long as they could and would now have to ask public aid, that all the property in that section had been laid waste, they were starving and homeless and needed money, food and clothing. Their wants will be supplied at once. County Judge Bell, at Bellville, wired that there were 1,200 sufferers in the counties on Mills creek and 1,000 in the creek bottom in absolute need. From numerous other portions of the flooded districts similar reports came pouring in. Governor Sayres stated yesterday that the effort on the part of some to belittle the damage attendant upon this flood was actuated by motives that he could not understand, that during his long residence in Texas he had never seen a worse calamity befall its people, and that from reports he had at his disposal he was led to believe that the list of suffering would be very large.

NO DROUGHT IN LUZON.

American Troops Suffer Great Discomfort From Incessant Rains.

MANILA, July 10.-It has been raining and storming almost constantly for two days, and the country along the American south and bay lines is literally flooded. The soldiers are suffering great discomfort. The Thirteenth infantry regiment at Pasay is in the worst position, being practically surrounded by water. The bridges that were used for getting supplies have been washed away, and some of the companies are now sep-In arated by streams six feet deep. many cases the men are sleeping with three feet of water beneath their bunks, which are elevated on cracker boxes. The company cooks when preparing the meals stand knee deep in water. Some of the roads leading to Pasay are simply impassable, and the rice fields on all sides are one great lake. A high wind blew over several tents of the Second Reserve hospital.

CONVENTION CLOSED

Christian Endeavorers' Eighteenth Meeting a Success.

LARGEST ATTENDANCE ON RECORD.

Thirty Thousand Persons Simultaneously Present at the Sleetings. Closing Addresses by Dr. Chapman and Bishop Vincent.

DETROIT, July 11 .- The eighteenth international convention of Christian Endeavor closed lest night amid scenes of impressive solemnity attending the utterance of "the last word" by the president and secretary in each of the great tents respectively, following responses from each state and country represented and last exhortations from M. E. Bishop Vincent of Kansas and Evangelist Chap-man of New York.

The following statement as to attendance, etc., was given out by Scere-

tary Baer: "Without doubt the attendance at this convention has very much exceeded that of any other Christian Endeavor convention ever held in the matter of those present at the various meetings. This estimate takes into account the great convention at Boston in 1895. That is to say, out of the 28,000 Endeavorers registered, which is the estimate of the reception committee and includes members, there have been more who attended meetings than at any previous time. The estimate of attendance at meetings gives a total of 298,500. There were 28,000 En-deavorers in attendance, including Detrolt delegates." Thirty thousand persons simultaneous-ly attended strictly Christian Endeavor

meetings. These figures do not include the 66 noon evangelistic meetings, which had a total attendance of 15,000 and 100 professed conversions.

Chairman W. H. Strong of the local committee responded appropriately to the compliments tendered before the two mighty sudiences and attributed the suc cess of the convention chiefly to individual faithfulness.

Great Britain's leading representatives, Messrs, Tressidder and Mursell of London and Pollock of Glasgow, stood together and sang "Britain For Christ." Then all sang stanzas of "God Save the Queen" and "America." Dr. J. Wilhur Chapman preached the concluding ser-mon in Tent Endeavor. The closing ad-dress in Tent Williston was made by Bishop John H. Vincent of the M. E. church.

REVOLUTION IN GUATEMALA.

Commercial and Financial Difficulties Likely to Cause a Rupture. WASHINGTON, July 11.-The reports that a revolution is imminent in Guatemala cause a good deal of uneasiness in Central American circles here, as it has been known for some time that af-fairs there were in a critical condition. A well posted diplomat said that the trouble was not so much of a political character as it was commercial and financial.

The government recently has been issuing large quantities of paper money with out having any considerable quantity of coin on hand to redeem it. As a result exchange has jumped to a rate hitherto unknown, and the Guatemalan dollar now passes current at only about 25 cents. To this financial disorder is attributed the arrest of a number of leading financiers connected with the banks of the country.

Dreyfus' Persecutors to Be Punished PARIS, July 11.-It is rumored that as a result of the revelations of the inhuman cruelty practiced upon Dreyfus

CONDENSED DISPATCHES. Notable Events of the Week Briefly and Tersely Told.

General Joseph E. Wheeler left Washington for Manila, via San Francisco, John Sherman is reported to have rapidly recovered from his recent illness at Mansfield, O.

Three arrests were made in Philadel-phia in connection with the Fourth of July silk robberies in New York. The total number of yellow fever cases

at Santiago was reported as 142, and deaths as 29, including four officers. The engineers of the battleship Iowa, now in drydock at Seattle, have discov-

ered serious injuries to her furnaces. The steamer Queen arrivel at Victoria. B. C., with gold from Alaska variously estimated to be worth anywhere from

\$350,000 to \$1,000,000. The president has issued an order extending the privileges and protection of the American flag to the shipping of Porto Rico and the Philippines.

Tuesday, July 11. Lord Aspinwall, son of General Lloyd Aspinwall, died in New York,

The French liner Normandie arrived from Havre with four Spanish friars en route to Mexico.

Five artillerymen were killed by the explosion of a powder magazine in Ma-gato Land, South Africa. Mr. Nathan Straus has authorized the

free distribution of filtered ice water in the New York city parks.

Oscar F. Lackey, the yellow fever pa-tient at Swinburne island, was reported to be continually improving. The traffic of the Erie canal has largely

increased this season, despite the recent strike of grain handlers at Buffalo. Customs Collector Bidwell of the port

of New York decided that \$41,000 worth jewels seized from Mrs. Phyllis E. Dodge upon her return from abroad two weeks ago are dutiable and formally approved the seizure.

Monday, July 10.

Three vessels went ashore on Lake Erie, near Ashtabula, O., during a heavy gale. Benjamin Ladigue of New York city

was drowned while bathing at Branford, Conn.

A severe and protracted drought in outhern Jamaica is causing widespread distress and alarm.

The large steam bakery of Henry Wauklin, located in a suburb of Philadelphia, was entirely destroyed by fire, en-tailing a loss of \$75,000.

Governor Roosevelt returned from Washington, where he had been summoned by President McKinley for a conference on military matters. At Weehawken, N. J., one man was

killed and another fatally injured while taking shelter under an empty freight car by the backing down of an engine. Plans have been drawn for an East river tunnel running from Maiden lane, Manhattan, to Pincapple street, Brook-

lyn. The tunnel will be 2,500 feet long. Saturday, July 8. Major Heatwole, chief commissary, died at Santiago, Cuba, of yellow fever.

The Portuguese house of peers adopted commercial convention with the United States.

Superintendent Edwin Mills and two miners were killed in a mine explosion at Port Oram, N. J.

General Brugere has been appointed milltary governor of Parls in place of General Zurlinden. The steamer Robert Kerr has left

Dawson for St. Michael's with \$3,000,-000 in gold dust on board. Six horses were burned to death and

\$2,000 damage caused by a fire in the stable of Lewis C. Palmer at New Haven.

Stomach

"For more than fifteen years I was a sufferer from gastritis in its worst form. I was much reduced in flesh and strength and unable to attend to business. Finally my wife persuaded me to try Dr. Williams' Pink Pills for Pale People and to my surprise I began to get better. Three boxes effected a cure that has been permanent. When I began to take the pills I weighed 136 pounds ; now I weigh 163. These pills did me more good than all the other medicines I have ever taken.

H. K. MCLELLAN." Subscribed and sworn to before me this second day of December, 1897.

R. R. WALLACE. Notary Public. -From the Press, Hamilton, Ill.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the ele-ments necessary to give new life and rich-ness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor afaxis, partial paralysis, St. Vitus' dance, soiatice, neural-gia, rheamatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, and all forms of weakness either in male or female.

Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in pack-ages. At all druggists, or direct from the Dr. Wil-liams Medicine Company, Schenotady, N. Y., 50 cents per box, 6 boxes \$2.50.
