Churches Looted and Damaged by Riotous Anarchists. at Soc.

## SEVERAL RINGLEADERS ARRESTED.

The Mob First Listened to Speeches In the Streets, Then Worked the Destruction-St. Joseph's Church Wreeked.

PARIS, Aug. 21.-Paris was yesterday the scene of most serious disturbances, recalling some aspects of the Commune. In response to an appeal of the journals Le Peuple and La Petite Republique groups of anarchists and socialists gath-ered about 3 o'clock in the afternoon in the Place de la Republique. The police had taken precautions, and there seem-ed no danger of disorders. Sebastien Faure and Faberot, well

known revolutionary anarchists, were the ringleaders. Faure, standing on the pedestal of the statue which rises in the center of the Place de la Republique, addressed the crowd. Among other things he said that the anarchists should be masters of the streets. The police then interfered and dislodged Faure and Faberot, making three arrests.

The crowd as this point dispersed, but a column of demonstrators, headed by Faure and Henri d'Horr, made for the Place de la Nation. The police broke through the column and a struggle for the mastery followed. Shots were fired, and M. Goullier, commissary of police, was twice stabbed with a knife.

This threw the police into momentary confusion. The mob reassembled and ran toward the Place de la Nation. The police, re-enforced by a squad that had been held in reserve, made another at-tempt to stem the current, and more fierce fighting occurred, three constables being wounded.

Faure and d'Horr jumped into a pass ing street car that was going to the Place de la Republique, and the car driver, on arriving here, gave a signal to the police, who immediately arrested them both, together with two other anarchists, Joseph Ferrier and Jean Per-rin. All were conveyed to the Chateau d'Eau barracks. Only d'Horr was found in possession of firearms. In the meantime the anarchist mob re-

traced its course to the Place de la Republique, smashing the windows of re ligious edifices on the way. Suddenly, cither at the word of command or in obcdience to impulse, the column made a loop and curved toward the church of St. Ambroise, where the rioters smashed more windows. Proceeding thence toward the Faubourg du Temple, which they reached at the corner of the Rue Darboy and the Rue St. Maur-Popinthey formed up into a compact court. body. Hatchets were suddenly produced, with long knives stolen from the counters of shops, and a concerted rush was made upon the church of St. Joseph. The aged sacristan, seeing the mob.

hastily closed the outer gates, but these were soon forced with hatchets and bars of iron. The massive oaken doors were then attacked. According to the first account the wild

horde burst into the church, which instantly became a scene of pillage and sac-Altars, fonts and statues were rilege. burled to the floor and smashed, pictures were rent, candlesticks, ornaments and hosts from high altars were thrown down and trampled under foot. The crucifix above was made the target for missiles, and the figure of the Saviour was frac

tured in several places. Then, while raucous voices sang the "Carmagnole," the chairs were carried outside, piled up and set on fire in the center of the square fronting the church.

When this stage was reached, the cru-cifix' was pulled down and thrown into the flames. Suddenly a cry was raised that the statue of the Virgin had been

### A SOPORIFIC PLANT.

Cows and Horses Are Peculiarly Affeeted by One That Grows in Texas.

Mr. Gillespie, of Edinburgh, has called attention to the curious soporific action of certain plants found to Rus sia and in America, says the Boston Transcript. These plants are known to botanists under the name of stipa On the Mediterranean coast, where the stipa grows in profusion, it is called virgin's flax, and because of its beautiful blossoms is used extensively for bouquets. In Texas and New Mexico a species of this plant, called stipa viridula, possesses soporific qualities. Cowboys and herders of the west, where

the plant grows luxuriantly, often find to their astonishment that their cows and horses are suddenly overcome with sleepiness, acompanied with great weakness. They are rendered incapable of traveling and cannot exert themselves without great effort. Horses and cows are affected allke. The head falls low, the body trembles, the breath comes with difficulty and the heart

beats tumultuously. Acompanying this there is profuse sweating exhaustion. The poor animal seems violently sick. However, in a few days his state be-

comes normal again. Strangely enough, sheep are not affected by this plant. As an experiment, Mr. Gillespie inoculated frogs and rabbits with an extract from the stipa viridula. After the injection the animals were apparently seized with hallucinations and suffered the anxiety and paralysis of a strong narcotic.

#### POOR BABY.

### A Philadelphia Father Is Bound to Make a Wonder of His Year-Old Infant.

There is a physician in West Philadelphia who has a son one year old and, this baby is probably the strongest human being for its age and weight in the world. Its father will hold a cane in his two hands and the baby, grasping it, will draw itself up to its chin three times. That is but one of its numerous feats of strength. The physician says that his boy's unusual muscular development is due to a daily massage treatment. Every morning he lays the little fellow, naked, on a blanket and kneads his muscles for 30 minutes. Once a month he weighs the baby and measures its calves, chest, arms, etc. The monthly increase of weight and girth is remarkable. The baby has never had shoes or stockings on its feet or a hat on its head, and in the summer it wears only a little sleeveless dress that comes to its knees. It takes a cold bath every

morning. "If nothing goes wrong," the physician often declares, "this child will be one of the strongest men the world has ever seen. He will never get bald, and he will never lose a tooth. As for his muscles, with massage and a course of exercise that I have laid out, they will be big and supple all over his body. All his flesh will be, when tense, as hard as steel, and when relaxed as soft as the flesh of a young girl."
