

It Hangs On

If it was only health, we might let it cling. But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time. And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissue on which to hang.

Dr. Ayer's Cherry Pectoral Plaster

draws out inflammation of the lungs.

The Mystic Solar, 20th Century, and Plume and Atwood gas lamps for your homes at Mercer's Drug & Book Store.

Charles F. DeLong committed suicide by shooting himself through the head in the toilet room of the house of Richardson & DeLong Bros., book and eye manufacturers, of which he was the junior member, at Philadelphia on Saturday. The death of a son fell very heavily on him and this together with poor health is believed to have been the causes for the rash deed. The family originally came from Montour County and still own a handsome residence near Washingtonville, which is occupied by them a large part of every summer.

Do not fail to see the nicest and bloomsburg of lamps ever shown in Bloomsburg, at Mercer's Drug and Book Store.

This is about the time of year when the leaves turn in color, and the woods are ablaze with different tints, and yet we have never heard it explained why some leaves take on a reddish hue, and others yellow. American maples, says a writer on the subject, transplanted to English soil, retain the same habit of turning red in autumn, while English oaks brought to this country do not change as our oaks do, but their leaves remain green until frozen and destroyed. The marvels of nature, are indeed many and little enough we know of the why of anything.

THE CUP STILL OURS. **Columbian Beats Shamrock in the Final Race.** NEW YORK, Oct. 21.—Through wild and heavy seas in a breeze that approached the dignity of a gale, the gallant ship Columbia yesterday vanquished the British challenger Shamrock by 6 minutes and 18 seconds actual time, and 9 minutes and 24 seconds corrected time, thus completing the series for the America's cup with a magnificent rough weather duel and a glorious Yankee victory. For the eleventh time the attempt of a foreigner to wrest from America the yachting supremacy of the world has failed. The trophy won by the old schooner America 48 years ago is still ours, a monument to the superiority of American seamanship and American naval architecture and a perpetual challenge to the yachtsmen of all nations.

During his stay here Sir Thomas has made himself more popular than any previous challenger, and the yachtsmen of this country will be glad to welcome him back with hospitable hands. Except for the repeated dunks and the unfortunate accident to the challenger on Tuesday this series of races has been unmarred by a single untoward incident. The boats have had two fair and square races, one in light air and one in a heavy blow, and Sir Thomas is perfectly satisfied that he was beaten by the better boat.

Lipton Will Try Again. NEW YORK, Oct. 23.—Sir Thomas Lipton spent yesterday on board his steam yacht Erin. During the greater portion of the morning he was busy with his secretaries, but in the afternoon he took a rest. The owner of the unsuccessful cup hunter talked freely. "I will not challenge for the cup next year," he said in reply to a query. "You see, the time is all too short to design a boat, build her and have her tuned up to concert pitch to race next fall. I will, however, issue a challenge for 1901 and will complete the arrangements for it in a day or two."

Central Stock Increased. NEW YORK, Oct. 24.—The directors of the New York Central and Hudson River railroad met yesterday morning and authorized an increase of the capital stock of the road from \$100,000,000 to \$115,000,000, the money to be raised by the sale of the stock to be used in further equipment of the road. The stock will be sold to the shareholders in the corporation at par, each stockholder to be allowed to subscribe for an amount equal to 15 per cent of his former holdings. The new stock will probably be issued about the first of January next. The price of Central in Wall street yesterday touched 140 on dealings in 23,000 shares.

Dewey's New Home. WASHINGTON, Oct. 23.—Admiral Dewey's new home at 1747 Rhode Island avenue is in the heart of the residence section of aristocratic Northwest Washington. The navy department is not more than ten minutes' walk distant. The house is fully furnished and cost the committee \$50,000. It meets the admiral's wishes in every respect. He will move in probably Wednesday.

Bicycle Record Broken. NEW YORK, Oct. 23.—William H. Brown, who has been endeavoring since Thursday morning to break the 1,000 miles road record, completed his task at 7:56 last night. The ten centuries, which were ridden over a triangular course near Valley Stream, N. Y., were made in about 84 hours, seven hours ahead of the previous record. The rider, being well inside the record time almost from the start of his journey, was able to take considerable rest and finished in good condition.

THE "Sew Lippincott" Magazine for November, 1899.

The November "New Lippincott" contains a complete novel by Mark Lee Luther, a name destined to take a high and permanent place in American fiction. His novel is entitled "The Livory of Honor," and deals with the capture of Burgoyne and with events in London and Cambridge which surrounded it. Though written long before "Richard Carvel," this rattling tale bears resemblances that are a credit to its quality, and will win it the readers who like the adventurous and love in the longer novel. A sweet colonial girl transplanted to the shores of New England, and of what stuff she is made in the perilous situations of those troubled times, when the lives of both father and lover are in constant jeopardy.

Almost a novel in its artistic completeness is "A Landlocked Sailor," by Sarah Orne Jewett, who here shows a new side of her talent in giving the character of as complete and amusing an Irishman as fiction records. He is an old tar who marries a pretty girl and settles down to country life; a situation of which Miss Jewett makes the utmost. This is the first of a series of stories of Irish characters which Miss Jewett has in view, and it possesses all her searching knowledge and lightest humor.

"Miss Melissa's Miracle: A Study in Christian Science," a short story by Ellis Meredith, is a diverting and timely tale of a supposed cure by a fair "healer," an explanation, and a happy sequel. "Out of the Deep," by Frances W. Wharton, is a vivid story of a woman's intuition and a man's salvation. Mrs. Campbell Praed's tale, entitled "Karl Sandberg: A Literary Episode," is bright and amusing; an episode likely to happen to anyone who lives by the pen.

Of admirable papers, skillfully treated, there are the following:

"The November Meteors," by Charles A. Young, Professor of Astronomy in Princeton University; "The Last Victory of 'Old Ironsides,'" the third paper on Great Naval Battles, by George Gibbs; "Old Age Pensions from a Socialist's Stand-Point," by the Hon. John C. Chase, Mayor of Haverhill, Massachusetts; "Bal des Quatre Arts," by W. C. Morrow, a spirited description of the annual Students' Fall in Paris, with illustrations by Cecile; and "An Unwritten Chapter in our Relations with Spain," by Rev. Francis S. Borion, with an Introduction by Henry Charles Lea, LL. D.

The poetry of the month consists of one of the rare and delicate sonnets of Maurice Francis Egan and a dramatic episode by Grace Duffield Goodwin.
