Therefore, the spreadeagle speech in favor of the Administration's Philippine policy, made by Senator Beveridge, merely a revival of one as old as imperiatism itself. Mr. Beveridge, although a young man, is an orator of the old school, a master of diction, and a painstaking elecutionist. So his speech sounded well. But his facts and his logic were somewhat shaky. Senator Hoar said that practically every statement of fact made by Mr. Beveridge was refuted by official reports from Admiral Dewey, Gen. Ous, and other officials in the Philippines. Senator Hoar also said the eloquence and beauty of the speech Washington on Thursday night, as a whole recalled to his mind the Speeches were made by ex-Governor incident of Satan talking to Christ on Boutwell, of Mass.; Senator Mason of a high mountain and promising him Ill; and Representative Lentz, of everything in sight if He would only Ohio. kneel down and worship him. Christ replied: "Get thee behind Me, Satan," and Mr. Hoar believes the American people will eventually say: "Get thee behind me, imperialistic tempter." Mr. Hoar expressed regret that the speech of Mr. Beveridge was so tull of "wealth" and "glory" and kindred things that there was no room for such words as "right," "justice," "duty," add "freedom."

MEXICO AND CALIFORNIA.

Forty-six Days' Tour via Pennyylvania Railroad.

The Pennsylvania Railroad personally conducted tour to Mexico and California which leaves New York and Philadelphia on February 12 (Pittsburg February 13) by special Pullman train, covers a large and intensely interesting portion of North America. Mexico, California, and Colorado are a mighty trio in all that appeals to and fascinates the tourist.

Stops will be made at San Antonio, California.

A bill has been introduced in the Maryland Legislature for the re-establishment of the boundary line between Maryland and Pennsylvania, commonly called Mason and Dixon's Line. The bill, which appropriates \$5,000, requests the superintendent of the United States Coast and Geodetic Survey to provide for the accurate reestablishment of the line and to remark the same with monuments. When the line was originally run in 1767 by two English astronomers, Representative Champ Clark, of Charles Mason and Jeremiah Dixon, Mo. thinks, it is about time to put it cost more than \$170,000. After screws on the users of printing paper, Baltimore employed the men named and he thinks that such a bill might to run the line. The record by R. G. Dun & Co. of failures for forty-three years, completed now, has never been approached For eighteen years, 1857 1874 inclusive, it shows only number and amount of habilities yearly and banking included with commercial failures as in other records they are now; for twenty-five years ending with 1899 failures are given by quarters, and for the last six and a quarter years in a single sheet with this issue by Ex-Senator Faulkner, chief counsel separate branches of business for each \$8,244,000 during one month in a single branch of manufacture down to Republican Senators are preparing nothing in four months of last year, to grab the Senate patronage which exhibit effects of the worst panic in is not already in their hands. They fifty years, and the highest prosperity ever known The business of the new year begins

well, though there is still much of the usual hesitation. In branches where last year's business was extraordinary and prices have risen greatly some pause is natural, though nothing indicates decrease of consuming disposition or purchasing power, but there is continuing rise in wages to promote increase. Monetary conditions have grown easier with the return of \$4,000,-000 from the interior during the week, and further deposits by the Treasury, and more liquidation in some speculative stocks has also helped. Banks report an increase in their percentage of commercial loans, and rates were generally more easy after the decline announced by European banks.

Stocks have grown weaker in spite ct the progress of combinations which promise great things for trunk lines. The speculative tone has been largely influenced by London selling, having for a belief that foreign unloading must lower prices here as long as British reverses in South Africa continue. The thought that foreign supplies of American stocks are no longer inexhaustible is not considered, though at the settlement this month London was found short 250,000 shares in the American department. Industrial stocks have been weakened by continued liquidation, and by a declaration that the sugar fight has not ended and will affect dividends. They closed \$1.93 per share lower for the week, and failroad stocks \$1.37 per share

will generally correct this difficulty.

If you will put from onefourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.
