And just as much may be said for Mr Walter Wellman's "An Arctic Day and Night"-a chapter from his own experience in house building, housekeeping, and daily work and sport, including some thrilling bear hunting, up near the North Pole. In addition, the number offers, on the more strictly literary side, two excellent poems, a heroic story of railroading and Indian fight-ing on the plains, a story of English prison life, a love story having to do with a Pacific coast "boom" and an Atlantic coast maiden, and a humorous story by Robert Barr of "a scientific miscalculation" that involves, especially, England and America.
