Cheaper Fares on Lackawanna-

It is the intention of the Lackawanna Railroad, as soon as the tariffs can be prepared and distributed, to sell round trip tickets between all stations except between Buffalo and New York and intermediate stations affected. These round trip fares will be a material reduction from double the way fare and will be limited going, to one day from date of sale and returning, to thirty days from date of sale and will be good for continuous passage only in each direction. Agents first will be supplied with round trip fares between stations on the division and these will be followed by interdivision fares, thereby enabling them in a short time to sell round trip

Information concerning these rates may be secured from all ticket agents and as soon as the tariffs can be printed they will be posted in stations for inspection by the public.
