## Prot- Coles for May.

Let all the people in America rejoice and be glad, for the month of May will be a great "high flood" month and prosperity will rule in spite of all the afflictions that the jealous "low-ebb" vital forces may choose to send upon her! The greater part of the month will be fair and lovely; but the planets are in position to give us some unprecedented storms; resulting in destructive floods. Snow storms and hail storms may surprise us all; as the sun's magnetic and electric focus will be interferred with by the sleetking planets and cause severe electrical storms, seismic disturbances and volcanic activity in the earth. Watch out for strange phenomena, as the plannetts will be in a very unusual position this month. About the middle of the month Venus, Earth, Jupiter, and Uranus, will make a per fect right angle with Mars, Mercury and the Sun, while Neptune and Saturn will be in conjunction with each other and the Sun. On the 27th, the Earth passes between the sun and the great planet Jupiter; and on the 28th, the eclipse will appear; therefore, it will be well for us to keep a watchful eye upon the "weather" and upon our "finance," as unusual disturbances may be looked for during the middle and the latter part of the month.

### Never Satisfied.

None are satisfied. One man is struggling to get justice, some others are flying from it. One man is trying to build a house, another is trying to get rid of it. One man is spending the theatre, in hopes of eventually making her his wife, while his neighbor is spending all the gold he has to get a divorce. The eastern man wants to go west and the western man wants to go east. The farmer wants to go into the city and the city man wants to go into the country. The man in trade wants to get out and everybody not in trade wants to be. The old wants to be young and the young want to be old.

# A Sad Truth.

An exchange says that gossip has made manny a home a hell on earth; gossip has parted husbands and wives; gossip has blackened and sullied the character of many poor girls; gossip has parted lovers who would have been very happy if it had not been for gossip. One little misstep or one little indiscretion will cause gossip to arise with new strength and start on her mission. Her, did we say? We ought not to, for we have our male gossipers, and as a rule they are ten times more venomous than a female. A good, healthy man gossiper is about as low and dangerous as the meanest thing on earth.

Hall's family pills are the best.

"Why do you call your horse Death?" asked the man in the plaid suit. "Because he's a sure thing," replied the horseman.

"I'd leave my happy home for you," sung the absconding husband of the shrewish wife as he skipped out and left her in sole possession.

## THE KILLING OF WHALES.

There is Little of Excitement or Danger in the Pursuit as It Is Now Carried On.

Dr. Frederick W. True, of the Smithsonian institution, who has just spent two months in whale hunting in Green bay, on the northeastern coast of Newfoundland, reports an interesting experience. He was sent out by the institution to study the fishback whale and of the 98 animals caught all but 11 were of this variety. The story-book romance has gone entirely out of whaling as pursued by the Newfoundlanders. There is no frail whaleboat, with the grizzled old harpooner in the bow to strike the whale, but instead a little steam craft and a powerful gun.

The gun throws a large iron harpoon, with crossarms which lie against the shaft until it strikes a solid body and then project out and imbed themselves. The head of this harpoon is cigar-shaped and sharp-pointed and explodes as it strikes the whale's side. generating a gas which serves to keep the fish afloat after the wrecking effest of the shock on its internal organs has left it a lifeless mass. A stout rope is attached to the butt of the harpoon. and by this the whale is kept in leash as it threshes madly through the water in a vain effort to escape its unknown enemy. Death rapidly ensues, unless, as sometimes happens, the projectile goes through the fish from side to side, when a second shot is necessary.

### A DOG'S SUPPLICATIONS.

The Intelligent Little Pet Wanted the Saichel to Get Off the Slinner.

"Mike is the name of a little gray. silky haired spaniel, whose home is on chance to make money? Ask the Maryland avenue, and he is a most cunning and amusing animal, and as wise as it is possible that a little dog can be, says the St. Louis Globe-Democrat. His mistress has taught him many tricks. He can tell you what he does when the policeman comes, playing dead dog, and he can call his mistress when the telephone bell rings, and is altogether a delightful dog.

He has been taught to beg for things, and his begging looks for all the world like coaxing, so cunningly is it done. The other day his mistress sent him upstairs to get her slippers. He came down presently with one, and she sent all that he earns in taking his girl to him back for the other, but again he returned without it.

"He was sent back, and this time he stayed so long that his mistress went upstairs herself to see what was keeping him. A heavy satchel had fallen upon the slipper, and the little dog, after trying in vain to move it, sat on his hind legs, with his little paws raised in supplication, hoping that he might persuade the satchel to get off the slipper. He probably was convinced that his prayer was efficacious when his mistress lifted the hindrance.

# NEW CALENDAR PROPOSED.

Russian Astronomers Are Anxious to Have the World Adopt a New System.

The chronological disagreement be-For the Imperial Council, Order of | tions of Europe owing to the reten- miles from its mouth, tested the Alaska come an increasing nuisance in proportion as Russia's relations, especially commercially, with western Europe have continued to increase.

Hitherto the Russian calendar has been 12 days behind. This week it drops another day behind, and accordingly Prof. Glazenap and a committee of the Russian Astronomical society have elaborated an entirely new calendar, which, it is hoped, will be universally adopted. This calendar provides a common year of exactly 365 days and leap year of 366 days. This system is so near the real solar year that no more than one day's dif-

ference can occur in 100,000 years. If the Protestant states in the west do not adopt this system Russia, instead of 13 days behind, will be one day in advance now and two days in advance for 1920. The committee proposes also the rechristening of March to "Peace," in honor of The Hague conference.

# IN UNUSUAL DEMAND.

Many Passports Issued to Foreign Born Americans Who Are Going Abroad.

An unusually large number of passports are being issued by the state department at the request of congressmen, who are acting for their concatarrh that cannot be cured by Hall's stituents. They are for persons who are naturalized citizens, many of whom are afraid to go back without passports. Native-born Americans as a rule do not get passports when they go abroad. Representative McCreery. of Minnesota, has secured 40 pass ports for his constituents during the last five weeks, and in speaking of

"The district is purely agricultural but the people are well-to-do, and hundreds of them will go abread this year. Two-thirds of those getting passports originally came from acros the water, and are going back to visit the old homes and relatives. They have prospered in this country and

are able to space the money for a trip. "They own splendld homes and see tions of land, are beyond want, and find times prosperous enough to spare money for a trip abroad. Many of them are taking their families."

The Golden Rule in Texas. When men learn to do unto others as they would have others do unto them, horse trading will have become one of the lost arts .- Galveston News.

Small Discounts. The Bank of France last year discounted in Paris 2,101,830 separate bills for less than 100 francs each.

## ENGLISH TELEPHONE SERVICE

It Is the Worst in the World and the Prices Are Estartionate.

In the matter of telephones England is probably worse served than any civilized country in the world, says the National Review, Switzerland or Sweden can give her points. A telephone monopoly was created, which has worked badly. Quarrels of all kinds with the local authorities have arisen as to way leaves.

I know a factory six miles from the Marble Arch which has, owing to this cause, for years been vainly applying for the telephone. The other day I wished to send a message to a friend in a very busy little town 15 miles from London. The place did not appear in the telephone directory. Yet in Sweden or Switzerland the smallest village is on the telephone.

As for the prices charged by the company, they are extortionate. Parliament has considered the situation, but as party government is mainly concerned with making laws which are not wanted and neglecting all that conduces to real progress, no adequate measures have been taken to right the

### TELEGRAPH MEN HAVE TRIALS

Their Work in the Philippines Is Beset by Many Hardships and Dangers.

A Konsas man who is with the United States telegraph corps in the Philippines in a letter home tells of the difficulties which the corps encounters. Recently two big army wagons, each drawn by six mules were loaded with rubber insulated wire, a battery and a reel to reel it out, keeping up with the troops. The road became so bad they had to strap the reel on a mule's back and the rest of the wire on other mules leaving the wagon in the mud up to The Leading Specialists of America

One mule carried the folding field telegraph table, with instruments all attached. Every few miles they would stop and telegraph back to Manila the progress of the column. To do so they would take the table off the mule, unfold it, cut the wire from the reel on the other mule connect it with the instruments and do the necessary telegraphing. This was generally done when the troops stopped for a few minutes to rest.

The Proper Thing. Nodd-Awfully sorry to hear your house burned down. Did you save anything?

Todd-Oh, yes. After some very lively work we succeeded in getting out all the things we didn't want.-Brooklyn

Her Ruling Passion. "What a queer-looking man Miss Ker-

flip married!" "Did you never hear about it? She met him one day when she was out shopping, and he was such an odd pattern of a man that he caught her fancy at once."-Chicago Tribune.

Two American women conducting a tween Russia and all the great na- mission school on the Yukon, 1,500 ion of the Julian calendar has be- climate last year in kitchen gardening, beginning operations in the open ground May 16. In spite of a lack of rain for two months and cold storms in midsummer, they harvested 250 bushels of potatoes, 500 cabbages, 80 bushels of turnips and a few bushels of carrots. The strawberry bed set out grew finely, but the crop of berries was destroyed by mice.

Like Our Civil War.

One of the strangest facts regarding the present war is that English and Boer have so intermarried in South Africa that in countless instances brothers are fighting against brothers, and fathers against their own sons.

Growing Purchases Abroad. The United States imported more merchandise last year from every quarter of the globe than it took in 1898.

20 YEARS IN OHIO. 250,000 Cured.

# WECURESTRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRIC-TURE. Don't let doctore experiment on you, by cutting, stretching, or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organsare strengthened. The nerves are invigorated, and the bliss of manhood returns.

**WECURE GLEET** 

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sunken Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Variescele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you.
