#### BELLS WITH A HISTORY.

Inreer of the Famous Peal of St. Michael's in Charleston, South Carolina.

A peal of bells that has had as adventurous a career as any that hang in old world towers is the famous peal of 3t, Michael's, Charleston, S. C. Five times have these bells crossed the sea, ance as a heap of ruined metal, and two armies have they had to encounter or escape; yet to-day the nine bells are of anusual purity and sweetness of tone, says Youth's Companion.

Cast in England before the revolution, and brought over to St. Michael's they met with their first danger in that war. That they might not be injured, they were sent back to England. After the war was over the people of Charleston wanted them, and it became the luty of the first American minister to England to negotiate for them. He was successful, and amidst triumphant ovations they were escorted to the church.

All went well with them till the civil war. Then the steeple of St. Michael's was made the target for the cannon of the besiegers. It was necessary to remove the bells to a safer place, and they were sent to Columbia. When Sherman's army took Columbia, the sheds in the yard of the state house, in which the bells had been placed, were broken into and the bells smashed into fragments, while the sheds were set on fire.

They were not yet done for, however, At the close of the war the pieces were carefully gathered together and shipped to Liverpool, together with extracts from the records of St. Michael's, showing where the bells were cast and the proportion of metals forming the component parts.

Upon inquiry it was found that the firm of bell founders that had east the bells was still in existence, unchanged in name, and consisting of the descendants of the original firm. The records of the firm contained an account of the easting of the bells, and the proportions corresponded with those in the St. Michael's records.

Under such favorable circumstances it was not hard to recast the bells. Then for the fifth time they crossed the Atfantic and arrived safely in Charleston.

### LEFT-HANDED HANDSHAKE.

Col. Jack Chinn Tells Why Kentuckians Prefer That Style at Present.

State Senator Frank W. Maynard, of New Hampshire, has returned to his home in Nashua from Louisville, Ky., where he attended the national convention of the Merchant Tailors' national exchange, says the Boston Globe. He arrived in Kentucky just after the shooting of Mr. Goebel and witnessed the excitement which followed. During his stay in Louisville he was introduced to Col. Jack Chinn, and he tells an amusing story of their

"We were introduced," said Senator Maynard, "by mutual friends, and I noticed that Col. Chinn extended his eft hand to me. At the time I thought t a bit queer, but after I saw him do the same thing with several other nen I came to the conclusion that he was left-handed. Perhaps my face inlicated my surprise at the manner of haking hands, for he turned to me a few minutes later and remarked:

"You have noticed, perhaps, that I shake hands with my left hand? Well ve have grown accustomed to that luring the past few days. You see, we like to keep our right hands close 'o our pistol pockets just now."

# INSENSIBLE TO PAIN.

Animals Do Not Feel the Whip as Keenly as Do Human Beings.

If it is true that animals feel pain less than men, then it is also true that tortures and cruelties some times inflicted upon animals if administered to men would be unbearable to the point almost of insanity or death. The most sensitive part of the human frame is the skin, and while this is true relatively of animals it is certain also that the skin of dogs or other animals is not so sensitive as that of man. Besides, the mimal's skin is protected by a coat of insensitive hair. In the case of surgical operations on men reaching. for instance, to the abdominal cavity, it is the incision into the cavity that requires the taking of anaesthetics, and not so much the work to be done after the cavity is opened. After serisus operations upon animals which tave been placed under chloroform t frequently happens that a few minstes after recovering consciousness he animals frisk about the room, cometimes jumping from the floor to the operating table.

# DEWEY FAVORS THEM.

Telleves That with Submarine Bonts Enemy Could Have Kept Him Out of Manila Bay.

Representative Foss, acting chaircan of the house committee on naval ffairs, has received from Admiral lewey a copy of a memorandum preared by that officer's nide, Lieut. H. I. Caldwell, upon the recent tests of he Holland submerine torpedo boat. idmiral Dewey, it is understood, inforsed the report of his nide, who expresses the belief that a determined nemy, with submarine boats of the Tolland type, could have made imposible the occupation of Manila bay by

the admiral's squadron. The expression of opinion made by he admiral was in response to a renest from the senate and house aval committees, which, before deermining upon the action to take pen pending bills, desired to learn che admiral's views.

#### TO SUCCEED WATSON.

Admiral George C. Remey Appointed Commander of the Asiatic Station of the Navy.

Admiral George C. Remey, who has been assigned to succeed Admiral Watson as commander of the Asiatic station, is an old sailor, who served in the union navy during the civil war and who was very useful to the department during the recent war with Spain. He

is an Iowa man and was appointed from that state to the naval academy at Annapolis in 1855. When the civil war began he was commissioned a lieutenant of the gunboat Marblehead in the South Atlantic blockading squadron. He was present at the siege of Yorktown and on several occasions engaged the batteries at long range. Has ship was disabled just before the ontile at West Point, Va., and the lieutenant was forced to witness the action as a mere looker-on. He fought at Sullivan's Island, Pattery Wagner, Fort Sumter and Fort Yregg. After the war the customary shifting life of the naval officer in times of peace fell to his lot. In 1885 he was made a captain and placed in charge of the Charleston squadron of evolution. The Spanish war and the many changes in the navy that followed it brought Remey up to the rank of Admiral.

#### THE ELECTRIC FAN.

It Has a Promising Outlook for the Future in the Lands Beyond the Sens.

The fan-motor is a peculiarly American invention. It made its appearance upon the scene about 14 years ago and met with immediate and hearty approval. During the few years of its history it has been rapidly improved and has now reached a state of high perfection, says the Electrical Review.

Certainly the man who first thought of making a little breeze machine was a public benefactor. The amount of discomfort that has been relieved by the familiar whizzing fan is almost incalculable and there can be no doubt that it has really prolonged and doubtless saved many lives. It is strange that in countries where the climate is more oppressive in the summer months than it is even in the United States there should not be a more widespread use of these fans. The new eastern possessions of the United States and the vast area beyond should open a large market to American manufacturers of such goods. The punkah has been in use in India efficient American electric fan ever becomes fashionable in that country.

#### BE INDEPENDENT.

You can tell just as well as a physician whether your kidneys are diseased or healthy. Fill a tumbler with urine and let it stand 24 hours; if it has a sediment, if it is milky or cloudy, discolored or pale; if it is ropy or stringy, your kidneys and bladder are in a dangerous condition and you do not need a physician to tell you so,

Kidney diseases should be attended to at once, for almost 90 per cent, of our unex-pected deaths of to-day are from that cause, Dr. David Kennedy's Favorite Remedy is the only sure cure known for diseases of the kidneys, liver, bladder and blood, rheuma-tism, dyspepsia and chronic constipation It is marvelous how it stops that pain in the back, relieves the necessity of urinating so often at night, drives away that scalding pain in passing water, corrects the bad effects of whiskey and beer and shows its beneficial effects on the system in an incredibly short time. It is sold by all drug stores at \$1.00

If you would like to test Favorite Remedy free of all charge, send your full name and postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Liabilities in excess of assets ST7 13 W. O. HOLMES.
Attest: President of the Town Council. PREEZE QUICE, Secre ary BLOOMSBURG, Pa., April 9, 1920 We, the undersigned, auditors of the Town of Bloomsburg, do say that we met at the Council Room for the purpose of performing our duties, and that we have cramined the books of the secretary and find them correct, and that the balance in the hands of the treasurer is correct.

We disapprove of members of the Council, directly, or indirectly, working on the creeks of the town, furnishing teams or sapplies. We shall feel it our duty, hereafter, in cuter protest to the payment of all such bills. P. H. FREEZE,

WM. KRICKBAUM, AUDITORS. GEO. E. WILBUR, )

In signing the above report I ever, object to the issuing of \$15,000.00 d orders for borrowed money, because same is contrary to law, and that said ders are invalid; and further, that it has Less observed that one member of Council has a bill of \$109.00, at \$2.00 per day, while other members have furnished materi done work, both in a direct and indired way, and it has been ascertained that me have done work on the streets and the same has been returned as done by other part. From the nature and condition of things is is impossible for the board of auditors, board, to make the investigation neces make a full and complete report, thus ing it to the citizens of the town to further

investigate, if they deem it proper to do 100. I do this on the ground that one member of the board of auditors has no as employ counsel, or order a full and careful

investigation to WM. KRICKBAUM, AUDITOR.
