As there seems to be a misunderstanding in regard to the squirrel hunting season, it being published in some papers that it opened on September 15, we would say that this is a mistake, and some sportsmen are liable to get into trouble. The season is open from October 15 to December 15, inclusive. A correct resume of the game law was published in this paper two weeks ago.

Monroe Budman was almost fatally injured at the Carpet Mill on Monday. He was caught in a large belt and carried about six feet and pinned in between the line shaft and ceiling. One of his arms was nearly torn from its socket, his head was badly cut, and his body bruised in many places. He would no doubt have been killed had it not been for the fact that his body, when it reached a point between the ceiling and the line shaft, retarded the motion of the latter, and gave the workmen an opportunity to stop the machinery and rescue him.

Berwick was defeated at base ball on Saturday by Pottsville, in one of the cleanest and closest games that has ever been played within the confines of our neighboring town. Notwithstanding the fact that the Berwick boys wanted the game in the worst kind of a way, because of the intense rivalry which exists between the two teams, they accepted the medicine with becoming respect and frankly admitted that the contest was won squarely on its merits. So seldom has defeat fell to the lot of their boys this season that the whole populace, like the players, was somewhat spressed over the outcome. Not until the twelfth inning did victory perch upon the banners of Pottsville. At this point with the score a tie at 6 to 6, and with two men out and two strikes on the batter, he struck at a wild pitch which the Berwick catcher was unable to stop, and a runner who had been patiently waiting on third base trotted home with the winning run. Berwick has played championship ball all season, having lost only three games.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and pleasant effect of Swamp-Root is soon realized. It is sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.
