#### BAY STATE DEMOCRATS. Robert Trent Paine For Governor Notable Events of the Week Briefly The Platform.

BOSTON, Oct. 3.-Robert Treat Paine. Jr., will again head the ticket which the Democrats of this state will be asked to support at the coming election, having received the nomination for governor at the state convention held in Faneuil hall. The balance of the ticket follows: Lieu-

tenant governor, Hon. John B. O'Don-Jell of Northampton; secretary of state. General Luther P. Stevenson of Hingham; auditor, E. Gerry Brown of Brock-tou; treasurer, John L. Chalifoux of Lowell; attorney general, John C. Crosby of Pittsfield.

The platform adopted declares the dominant question to be the continuance of government by consent of the governed; declares the Porto Rico law is an outrage on the liberties of the people; calls for a free constitution for Cuba and in the Philippines a speedy restoration of independence; opposes any alliance, open or secret, with any foreign nation; condemns company stores in the coalfields; condemns useless commissions in the state calls for reductions in railroad rates and more power for the railroad commission; calls for the initiative and referendum. also an inheritance tax and municipal ownership of public utilities and condomns the Albany lease as a robbery of the state.

An innovation was the reading of the Declaration of Independence previous to beginning the work of the convention, this preliminary being deemed fitting in of the fact that this convention was view held in the cradle of liberty on the anniversary of the first election of Jefferson. The platform was prepared by Hon. George Fred Williams as chairman of the resolutions committee.

#### BIG RAILWAY VENTURE

#### Senator Clark and Others to Build a Rival to the Southern Pacific.

CHICAGO, Oct. 1.-Senator W. A. Clark of Montana has consummated plans for the building of the Los An-geles and Salt Lake City railroad after consultation with Salt Lake City and Los Angeles capitalists who are in Chi-CHEO.

Another chief promoter is R. C. Kerens of St. Louis, Republican national committeeman from Missouri, who is also Mr. Kerens stated that the net railroad absorbs the franchise and property of the Los Angeles Terminal company, thus providing for its entrance into the southern California metropolls. The Mormon church has practically promised a terminal site in the Utah capital, and a tract of ten acres will be turned over to the railway for its stations and freight

departments. Between the termini the whole unopened southwest will be spanned. The Slerra Nevada will be pierced through one of its southern passes, and the supremacy of the Southern Pacific railway, hitherto unchallenged on the Pacific coast, will be effectually broken, at least southern California. The death of Collis P. Huntington removed the last obstacle to the success of the Clark-Kerens syndicate. The construction require \$25,000,000 in expenditures. The construction will

### The Constitutional Amendments. The fundamental law of the state of

Pennsylvania plainly prescribes the methods of altering or amending it. Article XVIII, Section 1, reads: "Any amendment or amendments to this constitution may be proposed in the senate or house of representatives, and if the same shall be agreed to by a majority of the members elected to each house, such proposed amendment or amendments shall be entered on their journals with the ayes and nays taken thereon, and the secretary of the commonwealth shall cause the same to be published three months before the next general election in at least two newspapers in every county in which such newspapers shall be published; and if in the general assembly next afterwards chosen such proposed amendment or amendments shall be agreed to by a majority of the members elected to each house the secretary of the commonwealth shall cause the same to be published in the manner aforesaid; and such proposed amendment or amendments shall be submitted to the qualified electors of the state in such manner and at such time at least three months after being so agreed to by the two houses as the general assembly shall prescribe; and if such anrendment or amendments shall be approved by a majority of those voting thereon, such amendment or amendments shall become a part of the constitution."

It will be observed that there is nothing equivocal or uncertain about that. The secretary of the commonwealth is allowed no option in the matter. It is not stated that he may cause the same to be published. The mandatory form is employed, and it is stated emphatically that "the secretary of the commonwealth SHALL cause the same to be published." The governor is no part or parcel of the proceedings. His name or office is not mentioned directly or by implication in the section. But the secretary of the commonwealth is given a part and the people have a share in the work, and the legislature is a factor, and if each of these do certain things and a certain result is worked out by their concurrent action, "such amendment or amendments shall become a part of the constitution." The legislature may fail in its part, and the purpose is defeated. The people may vote adversely, and the work becomes abortive. But the secretary of the commonwealth cannot default in the performance of his part. The constitution says he shall, and as his oath binds him to "support, obey and defend" the constitution, he must fulfill his part of the routine in the work of amending the constitution. This is as plain as the English language can make it. It is so obvious that a blind man can see it. But what did the present secretary of

the commonwealth do under the direction of the governor and the "power behind the throne?" He failed to 'cause to be published three months before the next general election," after the form and manner prescribed, the amendments to the constitution proposed in the house of representatives at the last session of the legislature and "agreed to by a majority of the members elected to each house." These amendments were in the interest of honest elections. They were intended to promote the purity of the ballot, and because the governor and his master, "the power behind the throne," is opposed to honest elections, the secreof the commonwealth was compelled to violate his oath of office and trample the constitution, the fundamental law of the state, under foot. For that crime he ought to have been impeached. Because of that violation of the constitution and his oath he might be disqualified from ever again holding office. But he will go unpunished unless the people punish him at the coming election by turning his party and himself out of office, for when he is once out he will be out forever.

Soldiers Opposed to McKinley. The other day a train load of wounded and invalided soldiers, fresh from the Philippines, passed through this state on their way to the hospital at Washington. Some of them had been wounded in battle and others had been afflicted with tropical diseases, but they were alike wretched and suffering. At Harrisburg, the state capital, they stopped for a time in order to change from one road to another, and during the wait they walked about, such as could, in the neighborhood of the station. During the period they talked freely, according to the local papers,

and what they said was interesting. Of thirty men interviewed by the reporters of the Harrisburg Star-Independent not one had a friendly word for McKinley. Out of the whole train load of brave men not one will vote for the re-election of the president, whom they unanimously accuse of responsibility for all their troubles. Ninety out of every hundred of the men who come from that far distant and disease infected region are incurably inoculated with the fevers, and that proportion of the brave men, sixty thousand of them, who responded to the call to defend the honor of the flag will go through wretched lives to premature deaths because of their mistaken notion of pa-

Two-thirds of the letter of acceptance of President McKinley was devoted to a futile attempt to justify the position of the present national administration in regard to the Philippines. In view of the fact that the Republicans pretend that imperialism is not an issue of this campaign the attention given to the question by Mr. McKinley is rather significant.

Mark Hanna has his hands full just now with the chairmanship of the Republican national committee and the correspondence school he has opened for the purpose of teaching the strenuous "Teddy" the difference between mud throwing and argument.

The Republican party's interest in the flag seems to be confined to an attempt in confiscate it as a political trade mark, and even then they have ranked it as subsidiary to "the full dinner pail."

It is a remarkable fact that the managers of the national Republican campaign have not followed the example of the Pennsylvania Republicans in the recent state treasurership campaign QUEBEC, Oct. 3.-In the presence of Sir Wilfrid Laurier and 5,000 invited ippines for electioneering purposes. and imported soldiers from the Phil-

Is it any wonder that these suffering soldiers are opposed to McKinley? Wouldn't any man who knows that he has been beguiled by false pretense into sacrificing his health permanently. entertain the same opinion of the man responsible for their suffering? If the president had been just to the people and faithful to the constitution there never would have been ten thousand soldiers sent to that disease breeding place, and they would not have been held there long enough to become inoculated. But McKinley's inordinate ambition to achieve results that no other president had attempted betrayed him into this sacrifice of men, and

they who suffered are indignant.

The evidences of an existing political partnership between Mr. Croker and Senator Platt, of New York, are strong and numerous. The advantage to each in such a "pooling of issues" is palpable. But it is equally clear that if there is such a political firm as Croker & Platt there is a third partner, who, though silent, is quite as deeply interested in the concern as either of the others. The silent partner in the concern is Governor Theodore Roosevelt. of New York.

Some months ago it was charged that Mr. Croker and Mr. Platt were interested with the mayor of New York in a trust to control the ice supply of the city and extort big profits from the sufferings of the poor. Governor Roosevelt expressed the most intense indignation at the time and declared that if the facts were as alleged he would use his authority as governor to remove the mayor and otherwise punish the conspirators against the health of the people of the city. The investigation proceeded, the disgraceful facts were revealed, but the governor has not acted. The reason is obvious. Governor Roosevelt and Senator Platt are so closely bound together in their political relations that an exposure of one involves the disgrace of both The removal of Mayor Van Wyck will

be followed by a complete exposure of the conspiracy to rob the public by over charging for ice, and Platt and Roosevelt will be as deep in the mire as Croker and Van Wyck are in the mud. For that reason the promise to enforce the law made by Roosevelt three months ago is still unfulfilled.
