An Employee Takes \$700,000 From a New York Bank.

OPERATIONS SKILLFULLY CONCEALED

Defaulting Note Teller Had Occupied Position In One of the Oldest Financial Institutions in the Country For Twenty Years.

NEW YORK, Oct. 24.-Wall street was electrified late yesterday afternoon by the news that C. L. Alvord, note teller of the First National bank at 2 Wall street, had defaulted to an amount estimated at over \$700,000.

The First National bank is one of the oldest and most powerful financial institutions in the United States. It numbers among its supporters such people as the Astors and the magnates of the New Jersey Central railroad.

C. L. Alvord, the defaulting note teller, is one of the oldest and most trusted employees of the bank. He has for the last 20 years occupied a place in the institution

His home is in Mount Vernon. Vice President F. L. Hine rude this statement to a reporter yesterday afternoon: "The note teller, who has been in the days.

employ of the First National bank for many years, is a defaulter to a large amount. His operations have continued for a considerable period and have been skillfully concealed through a manipulation of his balance book.

"The discovery was made by one of the bank's employees a few days after the completion of an examination of the bank by the United States examiners.

'During the continuance of his peculations periodical examinations have been made by several distinct corps of examiners representing the comptroller's department, all expert accountants, and the bank has also had frequent independent examinations, neither of which developed any irregularity.

The aggregate of the false entries, amounting to \$700,000, has been charged off on the books of the bank out of the reserve fund without diminishing the surplus and profits of the bank as reported in its last published statement.

'It is expected that the shortage will be materially reduced by a substantial sum of which there is a fair prospect of recovery.

Beyond this brief statement Vice President Hine absolutely refused to say a word. President Baker when asked re-garding the matter said that the statement given out by the vice president contained all he had to say in regard to the defalcation.

Alvord fled last Thursday and is believed to have gone to South America. He was 50 years of age and portly, weighing nearly 300 pounds. He was known as a good liver and had the most extravagant habits. He was a well known figure at Saratoga-on the race track and in the gambling houses.

British Alarms Unfounded.

LONDON, Oct. 24 .- George Wyndham, undersecretary of state for war, writes as follows regarding the report that orders for railway supplies in South Africa have been placed in the United States: "No orders have been placed by Colouel Girouard in America in connec tion with the South African railway, and am confident that the alarm ascribed to British manufacturers lest they should not have an opportunity of profiting by the business which will follow the war is unfounded."

EMINENT AUTHOR DEAD.

Charles Dudley Warner Succumbs to Sudden Attack of Heart Disease.

Hartford, Oct. 22. - Charles Dudley Warner, the eminent author and lecturer, died very suddenly Saturday afternoon under peculiar circumstances in the home of Mrs. Robert Smith, a colored woman living on Windsor street, in the lower part of the city. It is not known just what time he died, and he is supposed to have been dead for quite a while before the authorities, were notified. Mr. Warner health had been poor for

some time past, and recently he had a slight shock of paralysis which slightly disfigured his face. The medical examiner who visited his remains said that death was due to heart failure and that he had been dead an hour and a half previous to the time he viewed the body.

Charles Dudley Warner was born on Sept. 12, 1829, in Plainfield, Mass., where during his childhood he read chiefly Biblical commentaries and biographies gentlemen of austere life, the only reading matter almost that was ready to his hand. His father, who was a man of New England culture, died when Charles was 5 years old, and the boy's guardian designed him for a clerk and put him to work in due season in a drug store and later in a postoffice. The young man was educated, however, at Hamilton college, being, graduated in 1851, after which he went to Missouri with a party of surveyors for his health, returning to the east and taking his degree in the law department of the University of Pennsyl-vania in 1856. In the same year he joined the newly organized Republican party.

He practiced law in Chicago for a few years and then came east again to take a place on the Hartford Press, becoming later when that paper was absorbed by

President Mitchell was asked on his arrival here from Pottsville on what he based his belief that the strike would end with this week, but he declined to say anything other than the proposition of the miners was so fair that he could see to valid reason why the operators should not accept. The national president was much pleased when he learned that the Delaware, Lackawanna and Western, the Delaware and Hudson, the Lehigh and Wilkesbarre and the Hillside companies had signified their willingness to pay the He 10 per cent increase until April 1. also expressed satisfaction that the Forest Mining company, whose men have been on strike since January, had acceded to the demands. Millionaire Gates Asks For a Receiver For the Guardian Trust.

KANSAS CITY, Oct. 24 .- John W. Gates of Chicago and other holders of securities in the Guardian Trust company have made application in the federal court for a receiver for the company and for an injunction to prevent a meeting of the stockholders called for today to elect a new board of directors.

This is said to be an attempt to stop the Guardian Trust company from aiding in the financing of the Kansas City, Mexico and Orient railway, a short line which A. E. Stillwell, president of the Guardian Trust company, is building between Kansas City and Topolomampo, on the Pacific coast of the Mexican republic.

Eight new directors of the trust company were to have been elected, and President Stillwell was, it is said, in possession of enough proxies to enable him to control the election and name the directors.

The petition for a receiver makes sen-sational charges against Mr. Stillwell and his associates. The court granted a temporary order

restraining the disposition of any of the trust company's assets and against the holding of the meeting.
