## Fire in Tarrant's Wholesale Drug Store Reaches Chemicals, Causing Terrific Explosion-Unknown Number Killed.

NEW YORK, Oct. 30 .- Not since the disaster of the failing building in Park place has there been such a horror of fire, explosion, falling walls and loss of life as that which occurred yesterday along Warren street between Greenwich and Washington streets, with the new seven story brick building of Tarrant & Co., druggist and chemists, as the start ing point of destruction and the fearsome center of interest. In less than 15 minutes, from 12 o'clock to the quarter after, Warren street between Washingon and Greenwich was a mass of high filed debris. The blocks bounded to the north and south by Chambers and Murray streets were ablaze. All the north side of Warren street was down, swept clean by the rear wall of the Tarrant building as it was blown out by a terrific explosion. Half the buildings on the south side of Warren street were down, crushed in the same way. The big coffee roasting plant of the Eppen. Smith & Wiemann company in the middle of the block was aftre from top to What bottom and its front enved in. grewsame story of death was hidden under the heaps of stone, brick, beams and heavy machinery could only be guessed at.

Estimates put the loss of life at from 50 to 100 and more. The injured, who came from every store and office along the street, struck by flying stones and rafters and shattered glass, probably counted over 100. Ambulances by the dozen stood in nearby streets, and the surgeons had their hands full of work.

How the fire started none could be found who knew or guessed. It broke out in the Tarrant building at 12 o'clock, when smoke was seen curling thinly out of a third floor window on the Warren street side. The place was stocked with chemicals, and these caused the frightful feature of the disaster, the explosions following fast on the heels of the alarm The whole lower part of the of fire. city felt the shock, and streets for blocks leading to the scene were paved with glass from windows and doors, whose empty frames told of the force of the quakes.

It was not until 3 o'clock that the firemen, under Chief Croker's personal direction, had the flames under control. At one time they threatened two whole blocks.

At the time the explosion took place Broadway was thronged. The full force of the explosion appeared to sweep up Warren street and Park place. Simulta neously with the shaking of the earth came three distinct blasts of hot air and the smell of drugs. The hot air blasts caused people to throw their hands before their eyes. At the corner of Broadway and Park place an elderly lady was thrown heavily to the sidewalk.

When lifted to her feet, she began to cry hysterically. Scores of women rush-ed to the east side of Broadway. Men with blanched faces turned into Broadway from Warren street, declaring that hundreds of people had been killed and that the danger was not yet over. To add the excitement horses attached to heavy trucks reared when they felt the earth tremble beneath them. The panic was over in a few minutes, and then the people turned to watch the debris which had been carried up into the air by the explosion.

A conservative estimate of the loss places it at \$1,300,000. Forty buildings

The colonials were outnumbered ten to one, and the engage ment lasted for two hours. "The Boers have 15,000 men in the

## Kwang-tung Rebeilion Subsiding-Li Hung Chang Accused of Double Dealing-Rumors of a Fran-

co-Belginn Allinuce.

LONDON, Oct. 31 .- "Most serious trouble," says the Shanghai correspondent of The Dally Express, "is brewing in the Yang-tse region, whither the empress dowager has sent emissaries to raise powerful armed bodies to exterminate converts and expel foreigners. She has appointed Yu Chuan, a notoriously antiforeign general, to be military governor of the Yang-tse district."

In the province of Kwang-tung, according to the Hongkong correspondent of The Daily Mail, the rebeilion is subsiding, owing to the scarcity of arms and ammunition,

The Shanghai correspondent of The Times, wiring yesterday, says: "Li Hung Chang has wired to Chang

Chih Tung, the Wu-chang viceroy, that the peace negotiations are satisfactory, but to other leading officials he has telegraphed exactly the reverse, bidding them prepare for eventualities." "I learn," says the Brussels corre-

spondent of The Times, "that King Leopold's visit to Paris has resulted in a Franco-Belgian convention for the protection of the common interests of France and Belgium in China.'

## FLIGHT OF THE COURT.

Panie Stricken Journey From Peking Occupied Twenty-four Days,

PEKING, Oct. 30 .- Prince Su. who accompanied the Chinese court in the flight to Tui-yuen-fu and afterward returned here, disheartened by the anarchy existing among those composing the immediate advisers of the throne, gave in the course of an interview today an interesting account of his journey.

"On the first day," said Prince Su, "the court traveled in carts 20 miles north; escorted by 3,000 soldiers, who pillaged, murdered and committed other outrages along the entire route. The flight was continued at the rate of 20 miles a day to Hsuan-hua-fu in the most panic stricken manner. So little authority was exerted that the soldiers even stole the meals prepared for the emperor and the empress dowager. The execution of several for murder and pillage eventually brought them under control.

"The court remained three days at Hsuan-hua-fu, some advisers counseling a further stay. They were, however, overruled owing to the fear of foreign pursuit, and the flight was resumed to Tai-yuen-fu, with 10,000 additional troops under General Tung Fu Hsiang, who added to the discord.

"The empress dowager did little else but weep and upbraid her advisers. The emperor reviled everybody. The journey occupied 26 days, the longest route being taken owing to fear of pursuit.

"On arriving at Tai-yuen-fu great difficulty was experienced in forming any semblance of government. Many edicts were ignored, and affairs reached a state of absolute chaos. The emperor would have preferred to trust himself to the allies, but he was compelled to join in the flight."

Prince Su does not believe that the court is going to Sinn-fu. He thinks the plan is to return by a circuitous route through southern Shansi and northern Honan.

Three Killed and Six Seriously Injured at Edwardsville, Pa.

WILKESBARRE, Pa., Oct. 31.-A heavy explosion of gas occurred in No. 3 slope of No. 1 shaft of the Kingston Coal company at Edwardsville at 3 o'clock yesterday afternoon, in which three men lost their lives and six others were badly burned. Five of the six injured are in a preca-

rious condition, and it is doubtful if they can survive. When the men were brought to the surface by the rescuers, the skin hung in shreds from their bodies.

The work of rescue was dangerous, as "after damp" had accumulated. The first rescuing party that went down the mine were driven back, and two men in the party had to be carried out. A number of physicians were on hand, and as fast as the injured were brought to the surface their wounds were dressed and they were sent to the hospital or their homes. The force of the explosion was so great that it blew down a great section of the

### Witness Campbell Testified Against Caleb Powers.

LOUISVILLE, Ky., Oct. 31.-The Post prints an affidavit of Finley B. Anderson, a telegraph operator, who testified against Caleb Powers, who was convicted of complicity in the murder of Governor Goebel, in which Anderson denies certain important statements that he made on the witness stand in the Powers trial. Anderson tells of meeting Attorney Campbell in Cinicinnati and continues in his affidavit:

"Colonel Campbell then told me that Joe Owens had told him that I had said that Caleb Powers at the hotel in Bar-boursville prior to the 25th of January had used these words, speaking of William Goebel, 'If we cannot get him killed and it is necessary I will kill him myself.' I said to Mr. Campbell that I had never told any one any such thing and that Powers had not made such a statement to me nor any statement resembling it in way. Campbell and Owens insisted I had made such a statement, and I aft erward, upon Campbell's suggestion, sat down and wrote out a statement in which I included the foregoing statement of Powers, which was untrue in every particular, and upon the trial of Caleb Powers I swore to it as a fact, when in truth it was not a fact.
